

Application Guidelines for 2023

INTEGRATED GRADUATE SCHOOL OF
MEDICINE, ENGINEERING, AND AGRICULTURAL SCIENCES

MASTER'S COURSE

(DEPARTMENT OF ENGINEERING)

(If you are Japanese or can read Japanese, see the Japanese version.)

Depending on the future infection status of the COVID-19/Coronavirus disease, the admission exam may be taken place by the selection methods different from the ones described in this guideline.

If there are any changes to the announced application guidelines, the latest information will be posted on the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/admission/45>).

Please check the website at any time.

<<Contact information>>

▪ Application Procedure

Admission Division, Academic Affairs Support Department

4-4-37 Takeda, Kofu, Yamanashi, 400-8510 Japan

Phone : 055-220-8046 (from abroad, +81-55-220-8046)

E-mail : nyushi@yamanashi.ac.jp

▪ Selection Method

Faculty of Engineering Support Division, Office for Faculty of Engineering

4-3-11 Takeda, Kofu, Yamanashi, 400-8511 Japan

Phone : 055-220-8738 (from abroad, +81-55-220-8738)

E-mail : t-kyoumu2@yamanashi.ac.jp

Weekdays (Mon-Fri): Between 8:30 am and 5:00 pm

(Except school holidays, public holidays, August 12 to 16, and December 29 to January 3)

<<ADMISSION POLICY>>

Integrated Graduate School of Medicine, Engineering, and Agricultural Sciences

[Educational objectives]

We aim to nurture those who can contribute to society as technical engineers and researchers by acquiring their expertise, development ability, the ability to identify and solve problems, and international communication skills.

[Abilities and personality required]

We invite students with a basic academic knowledge in their field of specialization, who are motivated to seek further knowledge and to pursue advanced research and applications, and who have a desire to give their achievement back to society.

Department of Engineering

[Educational Objectives]

The department of engineering aims to nurture students who can succeed in the industrial field as core engineers having high expertise and advanced professional applicability, and utilizing various industrial technologies appropriately and effectively, as well as to guide students acquiring the analytical methods commonly required for highly skilled engineering professionals. In addition, we aim to cultivate professional engineers with highly specialized knowledge and exceptional practical skills by guiding students to learn related specialized fields extensively so that students can acquire a comprehensive perspective, communication skills and international point of view, can adapt to the rapid changes in society and industry, and can succeed in new industrial fields.

[Abilities and personality required]

Those who have fundamental field-specific knowledge and are judged capable of taking specialized subject courses, who are motivated to work in the industry as highly skilled engineering professionals after completing the course, or who aim to pursue a doctoral course and are research personnel currently. During the entrance examination, we will assess their fundamental specialized knowledge, research plan, and motivation to do this master's course.

▪ Mechanical Engineering Course

[Educational objectives]

We aim to train highly specialized professionals who have deepened specialized knowledge in the mechanical field such as control, processing, and materials, ability to understand other engineering fields as necessary, as well as communication skills and an international perspective.

[Abilities and personality required]

The mechanical engineering course, positioned as the foundation of engineering that supports “MONOZUKURI” (manufacturing), aims to educate exceptional professional engineers in the field of mechanical engineering. In order to achieve this objective, the course requires each admission applicant to possess a compelling motivation for learning as well as the following fundamental knowledge and abilities:

- (1) Those who have acquired fundamental expertise and basic mechanical engineering skills during the undergraduate course.
- (2) Those who have a compelling interest not only in mechanical engineering but also in the branch of engineering; furthermore, those who desire to contribute towards the diverse demands of society and create a new society by employing MONOZUKURI technology.
- (3) Those who can comprehensibly explain mechanical engineering details to others in Japanese or English, and who aim to improve their communication skills for more meaningful discussions.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of a written examination (mathematics), an oral examination, and evaluation of their undergraduate or equivalent university academic transcript.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ **Electrical and Electronic Engineering Course**

[Educational objectives]

We aim to train highly-skilled professionals with advanced specialized knowledge and problem-solving skills in the fields of electronic and optical devices, circuit design, power control, and information and communication, who can play an active role in all areas of engineering.

[Abilities and personality required]

To be eligible for admission to the electrical and electronic engineering course, applicants must meet the Following conditions:

Applicants must be determined to face the challenge of unknown subjects and expand academic research in electrical and electronic engineering, or work on solving problems in contemporary society by applying electrical and electronic engineering and related knowledge.

In addition, applicants must possess the following preliminary knowledge and skills:

- (1) Fundamental knowledge of electric and electronic circuits and electromagnetism theory
- (2) Basic skills to design and implement fundamental circuits.
- (3) Language skills (Japanese and/or English) to explain technical content accurately and distinctly, listen actively, and discuss comprehensively.
- (4) Requisite English communication skills as a graduate student in the field of electrical and electronic engineering.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of a written examination (specialized subjects), an oral examination and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ **Computer Science and Engineering Course**

[Educational objectives]

We aim to raise highly skilled professionals in the field of computer science and engineering. A graduate of this program should possess a panoramic view of the field as well as a deep understanding of theoretical and practical aspects of selected topics in the field. We also aim to nurture skills in logical thinking, problem solving, engineering design, and effective technical communication.

[Abilities and personality required]

Prospective applicants should aspire to become professionals with a broad perspective of the field of information science and engineering. Applicants are expected to endeavor to acquire advanced knowledge and skills in the field, become adept at analytical thinking, and improve their skills for problem solving and engineering design. Successful applicants should possess the following knowledge and skills:

- (1) Comprehensive knowledge and skills in computer science and engineering, including understanding of algorithms and data structures and programming skill.
- (2) Ability to effectively and logically communicate subjects in the field of computer science and engineering to the others in either Japanese or English.
- (3) Skill to communicate adequately using English as a graduate student in the field of computer science and engineering.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of a written examination (specialized subjects), an oral examination, and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ Mechatronics Course**[Educational objectives]**

We aim to develop human resources who will play a central role in "manufacturing" development by having comprehensive knowledge of machinery, electricity and information, joint development ability based on skills, and demonstrating problem finding ability, communication ability and technology utilization ability.

[Abilities and personality required]

Those who aim to apply for this course should possess the following abilities based on their knowledge and skill in the mechatronics engineering field including mechanical, electrical, and information engineering.

- (1) Collaborative development, problem-solving, communication, and utilization of skills.
- (2) Playing a central role in "Manufacturing" development.
- (3) Contributing to solving social problems.

Requirements:

- (1) Basic knowledge of Linear Algebra, Calculus, and Differential Equations.
- (2) Basic knowledge of at least two of the following five subjects: Material Mechanics, Mechanical Dynamics, Programming, Digital Circuit and Control Engineering.
- (3) Ability to explain and discuss their research field in Japanese / English.
- (4) Ability to communicate as required by a graduate student in the mechatronics engineering field.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on the total assessment of the results of a written examination (mathematics and specialized subjects), an oral examination, and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ Civil and Environmental Engineering Course**[Educational objectives]**

This program designed for students who intend to acquire expertise and research skills in civil and environmental engineering, and who actively want to solve social problems and to establish infrastructure that supports a safe and sustainable society in harmony with the environment, utilizing their management and design skills.

[Abilities and personality required]

We seek applicants who are interested in the engineering and social issues that civil and environmental engineering is currently facing, and who are willing to develop practical and academic research on technical development and deployment of civil and environmental engineering. In addition, we seek applicants with the following knowledge and skills:

- (1) Basic knowledge of structural engineering, hydraulics, soil mechanics, planning and management of land, infrastructure and project, construction materials, environmental system engineering, etc. that are the major academic fields of civil and environmental engineering.

- (2) Communication skills in Japanese or English to comprehensibly explain the subjects that they majored in and discuss the content in detail.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

▪ **Applied Chemistry Course**

[Educational objectives]

The Applied Chemistry Course aims to train highly specialized engineers with advanced expertise, applicability, outstanding skills in identifying/solving problems, and communication and presentation skills in the fields of organic chemistry, inorganic chemistry, analytical chemistry, physical chemistry, and polymer chemistry.

[Abilities and personality required]

We seek individuals who intend to contribute toward innovative social developments through creative research and studies based on comprehensive global perspectives, utilizing advanced knowledge and technological proficiency in applied chemistry fields such as organic chemistry, inorganic chemistry, analytical chemistry, physical chemistry, and polymer chemistry. Ideal candidates are:

- (1) Individuals who possess basic knowledge in the following areas: organic chemistry, inorganic chemistry, analytical chemistry, physical chemistry, and polymer chemistry.
- (2) Individuals who can organize, communicate, and discuss research topics based on scientific specialization in detail.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ **Advanced Material Science Course**

[Educational objectives]

Advanced Material Science Course aims to train highly specialized professionals with logical and purposeful thinking and expressive ability in the field of advanced devices and novel functional materials.

[Abilities and personality required]

We welcome applicants who aim to conduct basic or applied research on new materials for photonics and electronics, as well as quantum devices and novel functional devices themselves, with a passion to pursue multi-dimensional and comprehensive solutions. They should also possess sufficient knowledge, academic skills, intelligence, and sophistication. To be eligible for admission, applicants must meet the following minimum requirements:

- (1) Possess basic skills and knowledge in mathematics, physics, and chemistry at an undergraduate level.
- (2) Possess flexible, sophisticated notions regarding issues from a broad perspective.
- (3) Possess willingness and potential ability to express the essence of an issue and logically discuss it in Japanese or a foreign language based on a multifaceted understanding of the research topic.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ **Special Educational Program on River Basin Environmental Science**

[Educational objectives]

The program fosters human resources to understand the diversity of countries, regions and communities, identify area-specific environmental and water issues, and implement practical solutions.

[Abilities and personality required]

The program seeks applicants who have desire to tackle and solve various water and environmental issues such as flood and drought risk analyses, conservation and relocation of water resources, identification of pollution sources and processes, developing locally fitted treatments for drinking and wastewater, and evaluate health and socio-economic impact. (This program is cooperated with the “Environmental and Social System Science Course, River Basin Environmental Science Major in Doctoral Course (Department of Engineering)

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

Admission for Applicants with Recommendation

Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

▪ **Special Educational Program for Green Energy Conversion Science and Technology**

[Educational objectives]

In order to build a future energy system that is resilient to natural disasters, we aim to foster globally active leaders who fully understand the technical and economic advantages and disadvantages of various energy conversion devices, and who can realize the best mix of these devices from short, mid, and long-term perspectives.

[Abilities and personality required]

We seek applicants aspiring to become international scientists and engineers who can contribute to the realization of a low-carbon society by acquiring comprehensive green energy conversion and storage knowledge and technologies such as fuel cells, solar cells, hydrogen production, and thermoelectric conversion together with developing English communication and discussion skills.

The following abilities of the applicant will be examined:

- (1) Basic knowledge of either chemistry (physical chemistry, inorganic chemistry, etc.) as a fundamental of green energy conversion and storage.
- (2) Ability to distinctly discuss and explain the applicant's topic of expertise in either English or Japanese.
- (3) Undergraduate level English comprehension and communication skills.

[Basic policy for selection of entrants per examination classification]

Successful applicants, who match the content described in [Abilities and personality required] stated above, will be selected by the following method.

General Admission

Successful applicants will be selected based on an overall assessment of the results of written examinations (fundamental and specialized subjects and foreign language), an oral examination (interview regarding the research project plan, conducted in either English or Japanese), and evaluation of their undergraduate or equivalent university academic transcript.

Please apply for Admission for Applicants with Recommendation or General Admission if you are a foreign applicant (overseas student).

Examination Dates

【First Call for Applications (October 2022 and April 2023 enrollment)】

Please consult with the academic advisor of your preference before applying.		
Examination of Application Requirements		An examination of application requirements will be conducted in advance for applicants who apply under certain conditions. Refer to note regarding application requirements.
Application Period		June 20 (Monday) – June 27 (Monday), 2022 Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete and submit the application documents” using the online application site during the application period.
Examination Date		July 9 (Saturday), 2022
Announcement of Successful Applicants		July 22 (Friday), 2022
Entrance Procedures	Enrollment in October 2022	September 9 (Friday), 2022
	Enrollment in April 2023	March 7(Tuesday) – March 15 (Wednesday), 2023

【Second Call for Applications (April 2023 and October 2023 enrollment)】

Please consult with the academic advisor of your preference before applying.		
Examination of Application Requirements		An examination of application requirements will be conducted in advance for applicants who apply under certain conditions. Refer to note regarding application requirements.
Application Period		November 14 (Monday) – November 21 (Monday), 2022 Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete, and submit the application documents” using the online application site during the application period.
Examination Date		December 3 (Saturday), 2022
Announcement of Successful Applicants		December 16 (Friday), 2022
Entrance Procedures	Enrollment in April 2023	March 7(Tuesday) – March 15 (Wednesday), 2023
	Enrollment in October 2023	September 8 (Friday), 2023

All times shown in this application guidelines are in Japan Standard Time.

First Call for Applications

(October 2022 and April 2023 Enrollment)

Admission Application Guideline for Applicants with Recommendation

The development and growth of science technology are significant these days, and social demand calls for creation of new interdisciplinary research fields transcending the existing academic framework.

From this perspective, in our Master's program (Department of Engineering), Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

1. Number of Students to be Admitted

Course	Number of Students to be Admitted
Mechanical Engineering Course	18
Electrical and Electronic Engineering Course	15
Computer Science and Engineering Course	16
Mechatronics Course	15
Applied Chemistry Course	24
Advanced Material Science Course	15
Special Educational Program on River Basin Environmental Science	A few
Total	103

2. Application Requirements

Applicants who meet at least one of the following requirements, have obtained commendable results in their university or college, have been recommended by their academic advisor, and can assure entrance after the announcement of successful applicants. In case of applying for Special Educational Program on River Basin Environmental Science, it is required that applicants were recommended for MEXT Scholarship Students by our university.

- (1) Persons who have graduated or are expected to graduate from a university or college as designated by Article 83 of the School Education Law of Japan (Law #26, 1947) by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (2) Persons who have been awarded a Bachelor's degree according to Article 104, Paragraph 7 of the School Education Law of Japan, or who are expected to complete an advanced course of junior or technical college by March 2023 (or September 2022 for candidates desiring enrollment in October 2022) and be awarded a Bachelor's degree according to the law by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (3) Persons who have completed a 16-year school education program abroad or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (4) Persons who have completed a course or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022) at an educational institution abroad (a graduate of who must have completed a 16-year course in the school education system), which is assessed in Japan to have university courses in that education system, and is specifically designated by the Minister of Education, Culture, Sports, Science and Technology.
- (5) Persons who are recognized by the Minister of Education, Culture, Sports, Science and Technology as having academic ability equal to or higher than persons who are graduates of a university or college.
- (6) Persons who have completed specialized courses specifically designated by the Minister of Education, Culture, Sports, Science and Technology at a vocational school, whose minimum period required for graduation is 4 years or longer and which also satisfies other conditions specified by the Minister of Education, Culture, Sports, Science and Technology, on or after the date designated by the Minister of Education, Culture, Sports, Science and Technology, or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (7) Persons who have spent 3 years or more at a university, or who have completed a 15-year school education program abroad, and who are recognized by our graduate school as having obtained the designated credits with excellent results.

Note 1: An examination of application requirements will be conducted in advance for applicants who apply under the conditions of item (7). Please contact the Admission Division by May 16 (Monday), 2022.

Note 2: An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please read "3 Preparation before the Application Period" on page 9 of this guideline.

3. Preparation before the Application Period (if applicable)

(1) Examination of application requirements for overseas students

Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please send Required documents for the approval of application requirements to the Admission Division within the application period.

Applicants who apply under the conditions outlined in item (1) of the application requirements listed above will be exempted from the examination of application requirements (no distinction made between government-financed, government-dispatched, and private students).

In some cases, research students (government-financed, government-dispatched, and private) and applicants who took an examination of application requirements until and including last year are exempted from the examination.

Applicants who applied for Special Educational Program on River Basin Environmental Science and were recommended for MEXT Scholarship Students by our university are also exempted from the examination.

Please contact the Office for the Faculty of Engineering Education Group (Phone: 055-220-8738 (from abroad, +81-55-220-8738)).

Applicants will be informed of the results of the examination by June 3 (Friday), 2022. If the result of the examination is successful, please be sure to complete the application procedure in the application period.

【Required documents】

- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document, or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- Application documents cannot be returned or changed after the acceptance of application.

No.	Application document	Description
1	Examination Form for the Approval of Application Requirements	Please make “Examination Form for the Approval of Application Requirements (Form 4 [※])” on a computer and submit it.
2	Certificate of (Prospective) Graduation	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the President of your school.
3	Academic transcript	Submit a certificate prepared by the President of the university from which you received your degree.
4	Letter of Recommendation	Please submit the “Letter of Recommendation (Form 1 [※])” written by your academic advisor at your university.
5	Statement of Purpose	Please make “Statement of Purpose (Form 2 [※])” on a computer and submit it.
6	Research Project Plan	Please make “Research Project Plan (Form 3 [※])” on a computer and submit it.
7	TOEIC, TOEFL or IELTS Test Score	<p>Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after June 2020. (Even if the original certificate was submitted, we do not return it.) If you have not yet obtained those certificates, submit the state of reasons why you cannot submit it and be sure to submit a copy of either of them when applying or bring the original at the time of the examination.</p> <ul style="list-style-type: none"> ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)

8	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. Those who reside in foreign countries are required to submit a copy of page the passport ID page.
---	-------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

※ Form 1 - 4 can be downloaded from the following URL before the start of the application period.
Admissions > Graduate School Entrance Examination > Applicant Requirements
<https://www.yamanashi.ac.jp/admission/45>

【Application Period】

May 16 (Monday) – May 20 (Friday), 2022 4:30 pm (must arrive during the application period)

① Applicants in Japan

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② Overseas applicants

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

(2) Special measures for entrance examination

If you need special consideration in the entrance exam or in the course study, for such as physical disability, please consult us and submit documents by May 16 (Monday), 2022.

*We tell you what documents you have to submit when you consult us.

Mailing address / Inquiries:

Admission Division, Academic Affairs Support Department, University of Yamanashi
4-4-37 Takeda, Kofu, Yamanashi, 400-8510 Japan
Phone: 055-220-8046 (from abroad, +81-55-220-8046)

4. Application Procedure

(1) Application Method ※ Please refer to “Appendix : Online Application User Guide” on this guideline.

Online Application Site **<https://syutugan.yamanashi.ac.jp>**

The online application site is accessible from the above URL. Please follow the guidelines on the screen to register the application information, etc.

① Register the application information using the online application site

↓

② Pay the entrance examination fee

↓

③ Print, complete, and post the application documents (must arrive by the deadline)

(2) Payment of the Examination Fee

Examination fee JPY30,000

1. Please select the payment method from the examination fee payment site and complete the payment procedure.
The following payment methods are acceptable.

① Credit Card, ② Convenience Store, ③ ATM of a financial institution (Pay-easy), ④ Internet Banking

2. **Depending on the method of payment other than credit cards, it may take about two hours for your payment to be confirmed.** (If payment is not confirmed, the application documents cannot be printed.)

3. **The only payment method from the foreign countries is a Credit Card.**

4. For all payment methods, transfer fee will be charged separately.

5. **Once the application has been accepted, the paid examination fee will not be refunded for any reason.**

6. This fee is unnecessary for international students of the Japanese government (MEXT) scholarship. Please contact the Admission Division before the start of the application period.

【Exemption from the Entrance Examination Fee】

For those affected by the following disasters, the University of Yamanashi will take special measures to exempt the examination fee

The Great East Japan Earthquake / The Kumamoto Earthquake in 2016 / The heavy rain in July 2018 / The Hokkaido Eastern Iburi earthquake in 2018 / 2019 Typhoon Faxai / 2019 Typhoon Hagibis / The regions where the Disaster Relief Act is applied for the disaster which occurred in and after April 2020

Applicants who want to apply for this exemption should contact the Admission Division, Academic Affairs Support Department before the start of the application period.

Please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/examination/3787>) for details on application documents for this exemption.

(3) Application Documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- For No. 1 - 2 and No. 4 - 7 in the documents below, applicants who applied for Special Educational Program on River Basin Environmental Science and were recommended for MEXT Scholarship Students by our university can submit the copies of “Application documents for MEXT Scholarship Students”. (For No.7, applicants can submit the copies of the documents submitted as the evidence of ‘language proficiency (English)’ which are designated in the applicant requirements for MEXT Scholarship Students).
- If you pass the examination of application requirements, you do not need to send documents submitted at that time.

No.	Application document	Description
1	Certificate of (Prospective) Graduation * This is not necessary if you are expected to graduate from the University of Yamanashi	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the president of your school.
2	Academic transcript	Submit a certificate prepared by the President of the university from which You received your degree.
3	Personal Resume	Please submit your “Personal Resume” printed from the application documents print page on “My Page” from the online application site.
4	Letter of Recommendation	Please submit the “Letter of Recommendation (Form 1 [※])” written by your academic advisor at your university.
5	Statement of Purpose	Please make “Statement of Purpose (Form 2 [※])” on a computer and submit it.
6	Research Project Plan	Please make “Research Project Plan (Form 3 [※])” on a computer and submit it.
7	TOEIC, TOEFL or IELTS Test Score	<p>Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after June 2020. (Even if the original certificate was submitted, we do not return it.)</p> <p>If you have not yet obtained those certificates when applying, submit the state of reasons why you cannot submit it and be sure to bring the original of either of them at the time of the examination.</p> <ul style="list-style-type: none"> ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)

8	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. Those who reside in foreign countries are required to submit a copy of page your passport ID.
9	Extract of family register * Only applicable	If the applicant's name is different on each certificate or document because of a name change, please submit.

※ Form 1 - 3 can be downloaded from the following URL before the start of the application period.

Admissions > Graduate School Entrance Examination > Applicant Requirements

<https://www.yamanashi.ac.jp/admission/45>

(4) Application Period

June 20 (Monday) – June 27 (Monday), 2022 4:30 pm (must arrive by the deadline)

Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete, and submit the application documents” using the online application site during the application period. Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

(5) Method for submitting application documents

Please submit your application documents after checking that all documents are in order using the "Application Documents Checklist" from the application documents print page on “My Page” on the online application site.

① **Applicants in Japan**

Please print the Envelope Address Label from the application documents print page on “My Page” on the online application site and affix it to your own Kakugata 2-go size envelope (24 cm x 33.2 cm).

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② **Overseas applicants**

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

Those who submitted documents in electronic files with PDF format must also submit the original after enrollment. For the submission method, please see "10. Request for Submitting Application Documents(original) " on page 28 of this guideline.

(6) Mailing address / Inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Phone: 055-220-8046 (from abroad, +81-55-220-8046)

E-mail : nyushi@yamanashi.ac.jp

【Notes Regarding Applications】

1. Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

2. Please be careful when preparing your application documents since incomplete documents will not be accepted.

3. After the application is accepted, the contents of the application will not be changed for any reason. (Excluding changes in contact information such as address.) In addition, application documents cannot be returned.

4. Misrepresentation of any information contained in the application documents may result in the rejection of the application even after enrollment.

5. If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

5. Examination Admission Slip

Please print the Examination Admission Slip from the documents print page on the online application site and bring Examination Admission Slip on the exam day.

Within three days from the last day of the Application Period, we will notify your e-mail address registered on the online application site that the Examination Admission Slip can be printed.

If you have received the notification but cannot print it, please contact the Admission Division.

Notification of Printing : Three days after the last day of the Application Period (in the case of Saturday, Sunday, and public holidays, the weekday immediately after)

Printable period : From the date of receipt of the notification to March 31, 2023

How to print : Online Application Site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- The name registered on the online application site will be printed for the Examination Admission Slip.
- If you lose or stain your Examination Admission Slip, please print it again from the online application site.

6. Selection Method

Successful applicants will be chosen based on an overall assessment including the results of their oral examination and the examination of their application documents.

(1) Oral examination (Japanese / English)

Make a presentation based on the statement of purpose and research project plan.

Interview regarding the presentation, and some relevant basic academic skills and specialized knowledge.

Applicants should use a presentation software (such as MS PowerPoint) for the oral presentation and bring their own PC. Oral examination is available in Japanese or English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

※Mechanical Engineering Course

In an oral examination, questions are presented in Japanese but can be answered in English.

[Advanced Material Science Course]

All applicants are required to make presentation using a slide-presentation software such as MS PowerPoint or its alternative software. It is also required to bring their own laptop computer equipped with an analog RGB D-sub 15-Pin port. Please bring backup files saved on USB storage devices too. We will interview the issue related to the applicant's presentation and it will include physical and/or chemical fundamental issues.

[Oral examination duration]

Course or Program	Presentation	Interview
Mechanical Engineering Course	10 minutes	5 minutes
Electrical and Electronic Engineering Course	10 minutes	10 minutes
Computer Science and Engineering Course	10 minutes	15 minutes
Mechatronics Course	10 minutes	15 minutes
Applied Chemistry Course	5 minutes	7 minutes
Advanced Material Science Course	5 minutes	10 minutes
Special Educational Program on River Basin Environmental Science	10 minutes	10 minutes

Notes:

- ① For the Mechanical Engineering Course, Electrical and Electronic Engineering Course, and Mechatronics Course, the oral examination may be shortened depending on examination of application documents.
- ② For the Computer Science and Engineering Course, Special Educational Program on River Basin Environmental Science, preliminary interviews for those who wish to apply for this course from overseas may be conducted. Oral examination may be exempted for the applicants who had a preliminary interview overseas. The place, date, time and application documents for the preliminary interview will be advised at the time of prearrangement and discussion with your preferred supervisor.

(2) Examination of application documents

[Allocation of Marks]

Course or Program	Oral Examination	Application Documents	Total
Mechanical Engineering Course	100	Accepted / Rejected*	100
Electrical and Electronic Engineering Course	Accepted / Rejected	Accepted / Rejected*	
Computer Science and Engineering Course	Accepted / Rejected	Accepted / Rejected*	
Advanced Material Science Course	100	Accepted / Rejected*	100
Special Educational Program on River Basin Environmental Science	Accepted / Rejected	Accepted / Rejected*	

*Including TOEIC, TOEFL or IELTS Test Score.

Course	Oral Examination	Application Documents	TOEIC, TOEFL or IELTS	Total
Mechatronics Course	100	Accepted / Rejected	50	150
Applied Chemistry Course	50	(Academic Transcript) 50	Accepted / Rejected*	100

* TOEIC, TOEFL or IELTS Test Score is judged as Accepted/Rejected.

7. Date, Time, and Location of the Examination

Please arrive **20 minutes prior to the examination**.

If applicants arrive at the location of the examination within 30 minutes after the scheduled start time, they will be permitted to take the examination.

(1) Date and time

Date: July 9 (Saturday), 2022

Course	Time	Type of examination
Mechanical Engineering Course	Start at 1:30 pm	Oral examination
Electrical and Electronic Engineering Course	Start at 9:30 am	Oral examination
Computer Science and Engineering Course	Start at 9:30 am	Oral examination
Mechatronics Course	Start at 9:30 am	Oral examination
Applied Chemistry Course	Start at 9:30 am	Oral examination
Advanced Material Science Course	Start at 9:30 am	Oral examination
Special Educational Program on River Basin Environmental Science	Start at 9:30 am	Oral examination

(2) Location

Course or Program	Location	Examination Room
Mechanical Engineering Course	Entrance of Building A-1 (Kofu East Campus)	Meeting rooms in each course and others
Electrical and Electronic Engineering Course	Lounge, third floor of Building T-1 (Kofu East Campus)	
Computer Science and Engineering Course	Entrance of Building A-2 (Kofu East Campus)	
Mechatronics Course		
Advanced Material Science Course	Room T1-22, second floor of Building T-1 (Kofu East Campus)	
Special Educational Program on River Basin Environmental Science	Room B1-333, third floor of Building B-1 (Kofu East Campus)	
Applied Chemistry Course	Entrance of Integrated Research Building (Kofu West Campus)	Inside of Integrated Research Building

General Admission Application Guideline

1. Number of Students to be Admitted

Course or Program	Number of Students to be Admitted
Mechanical Engineering Course	5
Electrical and Electronic Engineering Course	8
Computer Science and Engineering Course	7
Mechatronics Course	8
Civil and Environmental Engineering Course	15
Applied Chemistry Course	12
Advanced Material Science Course	8
Special Educational Program on River Basin Environmental Sciences	10
Special Educational Program for Green Energy Conversion Science and Technology	5
Total	78

2. Application Requirements

Applicants must meet at least one of the following requirements:

- (1) Persons who have graduated or are expected to graduate from a university or college as designated by Article 83 of the School Education Law of Japan (Law #26, 1947) by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (2) Persons who have been awarded a Bachelor's degree according to Article 104, Paragraph 7 of the School Education Law of Japan, or who are expected to complete an advanced course of junior or technical college by March 2023 (or September 2022 for candidates desiring enrollment in October 2022) and be awarded a Bachelor's degree according to the law by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (3) Persons who have completed a 16-year school education program abroad or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).
- (4) Persons who have taken a correspondence course from an overseas educational institution while in Japan, and completed a 16-year school education program.
- (5) Persons who have completed a course or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022) at an educational institution abroad (a graduate who must have completed a 16-year course in the school education system), which is assessed in Japan to have university courses in that education system, and is specifically designated by the Minister of Education, Culture, Sports, Science and Technology.
- (6) Persons who have completed a 3-year program or a program of more than 3 years (The program shall include a correspondence course which enables students to study in Japan by a university or school which is approved by the educational system of the country and satisfy the above requirements.) and have been awarded a degree by an overseas university or school (The university or the school shall be evaluated by an organization approved by a relevant official institution in the country for their education and research activities or recognized as so by the Minister of Education, Culture, Sports, Science and Technology.) which is recognized as being equivalent to a bachelor's degree.
- (7) Persons who are recognized by the Minister of Education, Culture, Sports, Science and Technology as having academic ability equal to or higher than persons who are graduates of a university or college.
- (8) Persons who have completed specialized courses specifically designated by the Minister of Education, Culture, Sports, Science and Technology at a vocational school, whose minimum period required for graduation is 4 years or longer and which also satisfies other conditions specified by the Minister of Education, Culture, Sports, Science and Technology, on or after the date designated by the Minister of Education, Culture, Sports, Science and Technology, or are expected to do so by March 2023 (or September 2022 for candidates desiring enrollment in October 2022).

- (9) Persons who have spent 3 years or more at a university, or who have completed a 15-year school education program abroad, and who are recognized by our graduate school as having obtained the designated credits with excellent results.
- (10) Persons who are recognized by individual examination of entrance requirements by our graduate school as having equal to or higher academic ability than persons who are graduates of a university or college and will be at least 22 years of age at the time of enrollment.

Note 1: An examination of application requirements will be conducted in advance for applicants who apply under the conditions of item (9) or (10). Please contact the Admission Division by May 16 (Monday), 2022.

Note 2: An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please read "3 Preparation before the Application Period" on this page.

3. Preparation before the Application Period (if applicable)

- (1) Examination of application requirements for overseas students

Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please send Required documents for the approval of application requirements to the Admission Division within the application period.

Applicants who apply under the conditions outlined in item (1) of the application requirements listed above will be exempted from the examination of application requirements (no distinction made between government-financed, government-dispatched, and private students).

In some cases, research students (government-financed, government-dispatched, and private) and applicants who took an examination of application requirements until and including last year are exempted from the examination.

Please contact the Office for the Faculty of Engineering Education Group (Phone: 055-220-8738 (from abroad, +81-55-220-8738)).

Applicants will be informed of the results of the examination by June 3 (Friday), 2022. If the result of the examination is successful, please be sure to complete the application procedure in the application period.

【Required documents】

- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document, or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- Application documents cannot be returned or changed after the acceptance of application.

No.	Application document	Description
1	Examination Form for the Approval of Application Requirements	Please make "Examination Form for the Approval of Application Requirements (Form 4*)" on a computer and submit it.
2	Certificate of (Prospective) Graduation	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the President of your school.
3	Academic transcript	Submit a certificate prepared by the President of the university from which you received your degree.
4	Statement of Purpose	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make "Statement of Purpose (Form 2*)" on a computer and submit it.

5	Research Project Plan	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make “Research Project Plan (Form 3*)” on a computer and submit it.
6	TOEIC, TOEFL or IELTS Test Score *Except Special Educational program for Green Energy Conversion Science and Technology	Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after June 2020. (Even if the original certificate was submitted, we do not return it.) If you have not yet obtained those certificates, submit the state of reasons why you cannot submit it and be sure to submit a copy of either of them when applying or bring the original at the time of the examination. ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)
7	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. Those who reside in foreign countries are required to submit a copy of page your passport ID.

※ Form 2・3・5 can be downloaded from the following URL before the start of the application period.
Admissions > Graduate School Entrance Examination > Applicant Requirements
<https://www.yamanashi.ac.jp/admission/45>

【Application Period】

May 16 (Monday) – May 20 (Friday), 2022 4:30 pm (must arrive during the application period)

① Applicants in Japan

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② Overseas applicants

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

(2) Special measures for entrance examination

If you need special consideration in the entrance exam or in the course study, for such as physical disability, please consult us and submit documents by May 16 (Monday), 2022.

*We tell you what documents you have to submit when you consult us.

Mailing address / Inquiries:

Admission Division, Academic Affairs Support Department, University of Yamanashi
4-4-37 Takeda, Kofu, Yamanashi, 400-8510 Japan
Phone: 055-220-8046 (from abroad, +81-55-220-8046)

4. Application Procedure

- (1) Application Method ※Please refer to “Appendix : Online Application User Guide” on this guideline.

Online Application Site <https://syutugan.yamanashi.ac.jp>

The online application site is accessible from the above URL. Please follow the guidelines on the screen to register the application information, etc.

- ① Register the application information using the online application site
↓
- ② Pay the entrance examination fee
↓
- ③ Print, complete, and post the application documents (must arrive by the deadline)

(2) Payment of the Examination Fee

Examination fee JPY30,000

1. Please select the payment method from the examination fee payment site and complete the payment procedure.
The following payment methods are acceptable.
① Credit Card, ② Convenience Store, ③ ATM of a financial institution (Pay-easy), ④ Internet Banking
2. **Depending on the method of payment other than credit cards, it may take about two hours for your payment to be confirmed.** (If payment is not confirmed, the application documents cannot be printed.)
3. **The only payment method from the foreign countries is a Credit Card.**
4. For all payment methods, transfer fee will be charged separately.
5. **Once the application has been accepted, the paid examination fee will not be refunded for any reason.**
6. This fee is unnecessary for international students of the Japanese government (MEXT) scholarship. Please contact the Admission Division before the start of the application period.

【Exemption from the Entrance Examination Fee】

For those affected by the following disasters, the University of Yamanashi will take special measures to exempt the examination fee

The Great East Japan Earthquake / The Kumamoto Earthquake in 2016 / The heavy rain in July 2018 / The Hokkaido Eastern Iburi earthquake in 2018 / 2019 Typhoon Faxai / 2019 Typhoon Hagibis / The regions where the Disaster Relief Act is applied for the disaster which occurred in and after April 2020

Applicants who want to apply for this exemption should contact the Admission Division, Academic Affairs Support Department before the start of the application period.

Please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/examination/3787>) for details on application documents for this exemption.

(3) Application Documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- If you pass the examination of application requirements, you do not need to send documents submitted at that time.

No.	Application document	Description
1	Certificate of (Prospective) Graduation * This is not necessary if you are expected to graduate from the University of Yamanashi	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the president of your school.
2	Academic transcript	Submit a certificate prepared by the President of the university from which You received your degree.
3	Personal Resume	Please submit the “Personal Resume” after printing the form from the application documents print page.
4	Statement of Purpose	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make “Statement of Purpose (Form 2 ^{**})” on a computer and submit it.
5	Research Project Plan	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make “Research Project Plan (Form 3 ^{**})” on a computer and submit it.

6	TOEIC, TOEFL or IELTS Test Score *Except Special Educational program for Green Energy Conversion Science and Technology	Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after June 2020. (Even if the original certificate was submitted, we do not return it.) If you have not yet obtained those certificates when applying, submit the state of reasons why you cannot submit it and be sure to bring the original of either of them at the time of the examination. ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)
7	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. Those who reside in foreign countries are required to submit a copy of page your passport ID.
8	Extract of family register * Only applicable	If the applicant's name is different on each certificate or document because of a name change, please submit.

※ Form 2 and Form 3 can be downloaded from the following URL before the start of the application period.

Admissions > Graduate School Entrance Examination > Applicant Requirements

<https://www.yamanashi.ac.jp/admission/45>

(4) Application Period

June 20 (Monday) – June 27 (Monday), 2022 4:30 pm (must arrive by the deadline)

Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete, and submit the application documents” using the online application site during the application period. Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

(5) Method for submitting application documents

Please submit your application documents after checking that all documents are in order using the "Application Documents Checklist" from the application documents print page on “My Page” on the online application site.

① Applicants in Japan

Please print the Envelope Address Label from the application documents print page on “My Page” on the online application site and affix it to your own Kakugata 2-go size envelope (24 cm x 33.2 cm).

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② Overseas applicants

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

Those who submitted documents in electronic files with PDF format must also submit the original after enrollment. For the submission method, please see "10. Request for Submitting Application Documents(original) " on page 28 of this guideline.

(6) Mailing address / Inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi

【Notes Regarding Applications】

1. Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

2. Please be careful when preparing your application documents since incomplete documents will not be accepted.
3. After the application is accepted, the contents of the application will not be changed for any reason. (Excluding changes in contact information such as address.) In addition, application documents cannot be returned.
4. Misrepresentation of any information contained in the application documents may result in the rejection of the application even after enrollment.
5. If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

5. Examination Admission Slip

Please print the Examination Admission Slip from the documents print page on the online application site and bring Examination Admission Slip on the exam day.

Within three days from the last day of the Application Period, we will notify your e-mail address registered on the online application site that the Examination Admission Slip can be printed.

If you have received the notification but cannot print it, please contact the Admission Division.

Notification of Printing : Three days after the last day of the Application Period (in the case of Saturday, Sunday, and public holidays, the weekday immediately after)
 Printable period : From the date of receipt of the notification to March 31, 2023
 How to print : Online Application Site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- The name registered on the online application site will be printed for the Examination Admission Slip.
- If you lose or stain your Examination Admission Slip, please print it again from the online application site.

6. Selection Method

- (1) After the application documents are received, no changes to the desired course or program or to the selection of subjects will be permitted.
- (2) It is not permitted to bring a dictionaries or reference books in the examination room.
- (3) For information on allocation of marks, refer to page 24.

[Mechanical Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination, and evaluation of their undergraduate or equivalent university academic transcript. In a written and an oral examination, questions are presented in Japanese but can be answered in English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

- (1) Written examination (mathematics)

Linear Algebra, Calculus, Differential Equations.

- (2) Oral examination (10 minutes)

Interview regarding mechanical engineering, etc.

- (3) Examination of application documents

[Electrical and Electronic Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination and evaluation of their application documents.

The written exam questions are officially provided in Japanese. You can answer the written exam questions in either Japanese or English. The oral examination is also given in English or Japanese.

If you need an English translation of the written exam questions, please inform the academic adviser of your preference before applying and send the request letter to the academic adviser of your preference by mail by the application deadline.

If you live overseas, you may send a PDF file of the request letter by e-mail. There is no specific format of the request letter, but please include your name, the date, a sentence stating that you need an English translation of the written exam questions, and your signature.

- (1) Written examination (specialized subjects: 120 minutes)

Electric Circuits, Electronic Circuits and Electromagnetics.

(2) Oral examination (presentation: 10 minutes; interview: 10 minutes)

10-minute presentation regarding the applicant's reason for applying and research project plan.
 Interview regarding the presentation, and some relevant basic academic skills and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for the oral presentation and bring their own PC.

(3) Examination of application documents

[Computer Science and Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination, and evaluation of their application documents. Applicants may be exempted from the oral examination, depending on examination of their application documents. Whether the exemption applies to you or not will be notified by an e-mail. Please check your email diligently.

The written exam questions are officially provided in Japanese. You can answer the written exam questions in either Japanese or English. The oral examination is also given in English or Japanese.

If you need an English translation of the written exam questions, please inform the academic adviser of your preference before applying and send the request letter to the academic adviser of your preference by mail by the application deadline.

If you live overseas, you may send a PDF file of the request letter by e-mail. There is no specific format of the request letter, but please include your name, the date, a sentence stating that you need an English translation of the written exam questions, and your signature.

(1) Written examination (specialized subjects)

Algorithms and data structures, programming.

(2) Oral examination (presentation: 10 minutes; interview: 15 minutes)

Interview regarding the application's presentation on their statement of purpose and research project plan, which should be described logically from an engineering viewpoint.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(3) Examination of application documents

[Mechatronics Course]

Successful applicants will be selected based on the total assessment of the results of a written examination, an oral examination, and the evaluation of their application documents. The duration of the oral examination may be shortened, depending on the examination of application documents.

Questions in the written examination are presented in Japanese only. Answers, however, may be given in either English or Japanese. Oral examination is available in Japanese or English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

(1) Written examination (mathematics)

Linear Algebra, Calculus, Differential Equations.

(2) Written examination (specialized subjects)

Choose two from the following: Mechanics of Materials, Mechanical Dynamics, Programming, Digital Circuits, and Control Engineering.

(Important Notes) Applicants are not permitted to use any scale, compass, and calculator. Only pencils (including mechanical pencil) and eraser can be used.

(3) Oral examination (interview: 15 minutes)

Interview regarding the applicant's purpose and research plans, and some related matters.

(4) An examination of application documents

[Civil and Environmental Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 10 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Applied Chemistry Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 5 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Advanced Material Science Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 5 minutes; interview: 15 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

All applicants are required to make presentation using a slide-presentation software such as MS PowerPoint or its alternative software. It is also required to bring their own laptop computer equipped with an analog RGB D-sub 15-Pin port. Please bring backup files saved on USB storage devices too.
 The presentation must include the issues mentioned below: (1) The reason why you chose this graduate school and this course. (2) Future research plan. (Both 1 and 2 must be included.)
 We will interview the issue related to the applicant's presentation and it will include physical and/or chemical fundamental issues.

(2) Examination of application documents

[Special Educational Program on River Basin Environmental Sciences]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

We may conduct preliminary interviews for those who wish to apply from overseas. The oral examination may be exempted for applicants who had a preliminary interview overseas and submitted a letter of recommendation from the academic advisor (or equivalents) of the universities or institutions. The place, date and time for a preliminary interview will be advised at the time of prearrangement and discussion with your preferred master's course supervisor.

(1) Oral examination in Japanese or English (presentation: 10 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Special Educational Program for Green Energy Conversion Science and Technology]

Successful applicants will be selected based on an overall assessment of the results of written examinations (fundamental and specialized subjects and foreign language), an oral examination (interview regarding the research project plan, conducted in either English or Japanese), and evaluation of their undergraduate or equivalent university academic transcript. Written examination questions, including fundamental and specialized subjects and foreign language, can be presented also in Japanese. Please notify the academic advisor of your preference if you wish to have the written examination questions provided in Japanese.

(1) Written examination (fundamental and specialized subjects)

Chemistry A, Chemistry B Bring a scientific calculator. Contents of examination: 1. Chemistry A : Thermodynamics, Phase Equilibria, Chemical Kinetics, Electronic Structure of Atoms and Molecules, etc. 2. Chemistry B : Spectroscopy and Diffraction, Crystal Structure, Electronic Structure and Properties of Inorganic Materials, Electrolyte Solutions, Chemical Batteries, etc.

(2) Written examination (foreign language)

English in the specialized field. For foreign applicants (overseas students), Japanese or English will appear on the test.

(3) Oral examination (presentation: 10 minutes; interview: 10 minutes)

Presentation based on the applicant's statement of purpose and research project plan. Interview regarding the presentation. Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(4) Examination of application documents

[Allocation of Marks]

Course or Program	Written Examination		Oral Examination	Application Documents	Total
Electrical and Electronic Engineering Course	(Specialized Subjects) 300		Accepted / Rejected	(Academic Transcript) Accepted / Rejected*	300
Special Educational Program for Green Energy Conversion Science and Technology	(Fundamental and Specialized subjects) 200	(Foreign Language) 100	100	(Academic Transcript) Accepted / Rejected	400

*Including TOEIC, TOEFL or IELTS Test Score.

Course	Oral Examination	Application Documents	Total
Applied Chemistry Course	100	Accepted / Rejected*	100
Advanced Material Science Course	100	Accepted / Rejected*	100

*Including TOEIC, TOEFL or IELTS Test Score.

Course or Program	Written Examination		Oral Examination	Application Documents	TOEIC, TOEFL or IELTS	Total
Mechanical Engineering Course	(Mathematics) 150		Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	70	220
Computer Science and Engineering Course	(Specialized Subjects) 140		Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	40	180
Mechatronics Course	(Mathematics) 100	(Specialized Subjects) 100※	Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	50	250
Civil and Environmental Engineering Course			60	30	10	100
Special Educational Program on River Basin Environmental Sciences			60	30	10	100

※50 points for each (The total is 100 points.)

7. Date, Time, and Location of the Examination

Please arrive **20 minutes prior to the examination**.

If applicants arrive at the location of the examination within 30 minutes after the scheduled start time, they will be permitted to take the examination.

(1) Date and time

Date: July 9 (Saturday), 2022

Course or Program	Time	Type of examination
Mechanical Engineering Course	9:30 am to 10:30 am	Written examination (mathematics)
	Start at 11:00 am	Oral examination
Electrical and Electronic Engineering Course	9:30 am to 11:30 am	Written examination (specialized subjects)
	Start at 1:30 pm	Oral examination
Computer Science and Engineering Course	9:30 am to 11:00 am	Written examination (specialized subjects)
	Start at 12:10 pm	Oral examination
Mechatronics Course	9:30 am to 11:30 am	Written examination (mathematics and specialized subjects)
	Start at 1:30 pm	Oral examination
Civil and Environmental Engineering Course	Start at 9:30 am	Oral examination
Applied Chemistry Course	Start at 9:30 am	Oral examination
Advanced Material Science Course	Start at 9:30 am	Oral examination
Special Educational Program on River Basin Environmental Sciences	Start at 9:30 am	Oral examination
Special Educational Program for Green Energy Conversion Science and Technology	9:30 am to 11:30 am	Written examination (fundamental and specialized subjects)
	11:40 am to 12:30 pm	Written examination (foreign language)
	Start at 1:30 pm	Oral examination

(2) Examination location

Course or Program	Location
Mechanical Engineering Course	Room A1-11, first floor of Building A-1 (Kofu East Campus)
Electrical and Electronic Engineering Course	Lounge, third floor of Building T-1 (Kofu East Campus)
Computer Science and Engineering Course	Room A2-12, first floor of Building A-2 (Kofu East Campus)
Mechatronics Course	Room A2-11, first floor of Building A-2 (Kofu East Campus)

Civil and Environmental Engineering Course	Civil and Environmental Engineering Course Room T-69, second floor of Building B-3 (Kofu East Campus)
Applied Chemistry Course	Integrated Research Building (Kofu West Campus) *Come to the entrance of the Integrated Research Building
Advanced Material Science Course	Room T1-22, second floor of Building T-1 (Kofu East Campus)
Special Educational Program on River Basin Environmental Sciences	Room B1-336 *Come to Room B1-333, third floor of Building B-1 (Kofu East Campus)
Special Educational Program for Green Energy Conversion Science and Technology	Room B2-11, first floor of Building B-2 (Kofu East Campus)

8. Other

Previous years' examination questions are published on our website (<https://www.yamanashi.ac.jp/admission/297>).

General Information

1. Announcement of Successful Applicants

Date and Time : **July 22 (Friday), 2022 around 5:00 pm**

How to announce : Announcement of successful applicants will be made on the bulletin board at the front entrance of Building A-2. The examinee numbers of successful applicants will additionally be published on the website of University of Yamanashi (https://www.yamanashi.ac.jp/en/examination_list). Information regarding results will not be given out over the telephone. A letter of acceptance will also be sent to successful applicants.

2. Enrollment Period

Applicants applying in this examination may select a period of enrollment. When applying, select either the October 2022 (Second Semester) or April 2023 (First Semester) enrollment period. Note that changes cannot be made to your selection once the application has been received by our office. If you have any questions about enrollment in October 2022 (Second Semester), please contact the Admission Division.

3. Entrance Procedures

(1) Scheduled enrollment period

Enrollment Period	Enrollment Applications
October 2022 Enrollment	September 9 (Friday), 2022
April 2023 Enrollment	March 7 (Tuesday)— March 15 (Wednesday), 2023

Notes:

- Details of the Entrance Procedure will be notified separately.
- If you fail to complete entrance procedures by the designated date, you will be assumed to have decided against entering our university, and your enrollment will be canceled.

(2) Payment for enrollment

The enrollment fee is JPY282,000 (tentative).

The enrollment fee stated above may be revised at the time of enrollment. Received enrollment fees will not be returned under any circumstances.

4. Tuition

Tuition for the Second period for those students enrolling in October 2022 is JPY267,900.

Tuition for the First period for those students enrolling in April 2023 is JPY267,900 (totaling JPY535,800 per year).

- Tuition fees listed are tentative. If revisions to this fee are made at the time of enrollment or during classes, the new fee will be applicable after it is set.
- Tuition is typically withdrawn automatically from the student's account. Information will be made available later with regard to procedures.

5. Other Expenditures

Student Research Accident Insurance expenditures are required.

6. Admission Fee Exemption System for Successful Applicants with Excellent Academic Achievements

The Division of Engineering master's program recognizes a certain ratio of successful applicants with excellent academic achievements and personality as honor students and exempts him/her from paying an admission fee in full or half. Successful applicants with recommendation are prioritized.

7. Extended Credit System

The Division of Engineering master's program offers an extended credit system.

This system enables students whose hours of study are restricted by employment to obtain credits for a planned educational program over a fixed period (maximum of 4 years), exceeding the standard training year limit (2years) to complete the program. Because the units required for credit are the same as those required by the 2-year program, the yearly course load required is dramatically reduced.

For details on this system and the procedures, contact the Office for the Faculty of Engineering Education Group (Graduate School) by about one month before of the due date of application of this system below:

Phone: 055-220-8730 (from abroad, +81-55-220-8730).

【Due Date of Application of this System】

(1) Enrollment in October (Second Semester): Last day of August

(2) Enrollment in April (First Semester): Last day of February

8. Handling Personal Information

In university of Yamanashi will handle personal information from applicants as follows based on “the Act on the Protection of Personal Information Held by Incorporated Administrative Agencies” and “the University of Yamanashi’s Regulations on the Protection of Personal Information”.

- (1) Personal information (including information on grade judgment) described in application documents is as follows:
 (a) Selection of applicants (application process, selection), (b) examination result announcement, (c) admission procedures, and (d) statistical studies, (e) Future admissions selection method It is used for examination, analysis of application trends, and research on improvement of university education.

When publishing the results of these research and analysis, we will process them in such a way that no individual is identified.

- (2) Personal information of enrollees obtained in applications will be used for the following: (a) Academic affairs (student registration, instruction and guidance, etc.), (b) student support (health care, employment support, tuition waivers, scholarship applications, etc.), and (c) collecting tuition.

Please note that in the execution of the above, some tasks may be outsourced to a contractor that has been contracted by the university to carry out these tasks (hereinafter referred to as "contractor"). In this case, the contractor may be provided with all or part of the personal information we have obtained to the extent that it is required to carry out the contracted work.

※ In order to protect personal information and privacy information, the personal information acquired in the final selection will be strictly concealed in any form of the documents and data itself in which it is described, and will not be used for any purpose other than the above. In addition, we will not disclose it to third parties except when disclosure is required by law.

9. Response to infectious disease regarding the entrance examination

In University of Yamanashi, the examinees who were affected by the infectious disease such as COVID-19/Coronavirus, influenza, measles, and chickenpox, for which suspension of attendance is specified by the School Health and Safety Act, and have not been recovered from it yet must not take the entrance examination due to possibility of infection to other examinees and supervisors on the day of the entrance examination.

In case examinees must not take the entrance examination, special measures such as taking a supplementary examination, reexamination, and examination in a separate room will not be conducted, and their entrance examination fee will not be returned. Therefore, please be fully cautious about managing your physical condition by taking all possible measures so that you can take the entrance examination in perfect condition.

Regarding the response to COVID-19/coronavirus disease, please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/admission/45>).

10. Request for Submitting Application Documents (original)

Those who submitted documents in electronic files with PDF format should submit the Original paper documents as well by the due date mentioned below. Please note that your enrollment and registration may be canceled and deleted, in case that false entry such as falsification is detected in your PDF documents data.

Documents for submission : Documents for eligibility screening and application documents (original)

Submit to : Student counter of Faculty of Engineering Office (2F, A-2, Kofu East Campus)

(8:30 am to 5:15 pm, excluding the lunch time from 12:00(noon) to 1:00 pm)

Submission due date : Within a week counting from the first date of attending school

11. Security Export Control

In University of Yamanashi, the “Regulation of Security Export Control” based on the “Foreign Exchange and Foreign Trade Act” is established, and strict examination for accepting international students is conducted. In case of being applicable to the regulatory concerns, the international student might not be able to receive desired education and research.

12. Others

- (1) When registering on the online application site, please enter the address and telephone number and e-mail address where you can receive inquiries and notices from the university from the time that you apply until the completion of admission procedures.
Please notify the Admission Division, Academic Affairs Support Department promptly if there are any changes to your contact information after you have submitted your application.
- (2) Applicants wishing to obtain a scholarship should contact the Academic Affairs Support Department, Office of Student Support (Phone: 055-220-8053 (from abroad, +81-55-220-8053)), for information after announcement of successful applicants.
- (3) All times shown in this application guidelines are in Japan Standard Time.

Second Call for Applications

(April 2023 Enrollment and October 2023)

Admission Application Guideline for Applicants with Recommendation

The development and growth of science technology are significant these days, and social demand calls for creation of new interdisciplinary research fields transcending the existing academic framework.

From this perspective, in our Master's program (Department of Engineering), Aiming to offer distinctive opportunities for education and research for those who actively undertake academic study and research in their specialized field or beyond, special selection will be held by way of an overall assessment of the results of an oral examination and evaluation of application documents.

1. Number of Students to be Admitted

Course	Number of Students to be Admitted
Computer Science and Engineering Course	A few

2. Application Requirements

Applicants who meet at least one of the following requirements, have obtained commendable results in their university or college, have been recommended by their academic advisor, and can assure entrance after the announcement of successful applicants.

- (1) Persons who have graduated or are expected to graduate from a university or college as designated by Article 83 of the School Education Law of Japan (Law #26, 1947) by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (2) Persons who have been awarded a Bachelor's degree according to Article 104, Paragraph 7 of the School Education Law of Japan, or who are expected to complete an advanced course of junior or technical college by March 2023 (or September 2023 for candidates desiring enrollment in October 2023) and be awarded a Bachelor's degree according to the law by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (3) Persons who have completed a 16-year school education program abroad or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (4) Persons who have completed a course or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023) at an educational institution abroad (a graduate who must have completed a 16-year course in the school education system), which is assessed in Japan to have university courses in that education system, and is specifically designated by the Minister of Education, Culture, Sports, Science and Technology.
- (5) Persons who are recognized by the Minister of Education, Culture, Sports, Science and Technology as having academic ability equal to or higher than persons who are graduates of a university or college.
- (6) Persons who have completed specialized courses specifically designated by the Minister of Education, Culture, Sports, Science and Technology at a vocational school, whose minimum period required for graduation is 4 years or longer and which also satisfies other conditions specified by the Minister of Education, Culture, Sports, Science and Technology, on or after the date designated by the Minister of Education, Culture, Sports, Science and Technology, or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (7) Persons who have spent 3 years or more at a university, or who have completed a 15-year school education program abroad, and who are recognized by our graduate school as having obtained the designated credits with excellent results.

Note 1: An examination of application requirements will be conducted in advance for applicants who apply under the conditions of item (7). Please contact the Admission Division by October 7 (Friday), 2022.

Note 2: An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please read "3 Preparation before the Application Period" on this page.

3. Preparation before the Application Period (if applicable)

- (1) Examination of application requirements for overseas students

Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please send Required documents for the approval of application requirements to the Admission Division within the application period.

Applicants who apply under the conditions outlined in item (1) of the application requirements listed above will be exempted from the examination of application requirements (no distinction made between government-financed, government-dispatched, and private students).

In some cases, research students (government-financed, government-dispatched, and private) and applicants who took an examination of application requirements until and including First Call for Applications (October 2022 and April 2023 enrollment) are exempted from the examination. Please contact the Office for the Faculty of Engineering Education Group (Phone: 055-220-8738 (from abroad, +81-55-220-8738)).

Applicants will be informed of the results of the examination by October 28 (Friday), 2022. If the results of the examination is successful, please be sure to complete the application procedure in the application period.

【Required documents】

- Please submit the original document, except for the documents that allow you to submit a copy. (Excluding those living overseas). If you cannot submit an original document, or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- Application documents cannot be returned or changed after the acceptance of application.

No.	Application document	Description
1	Examination Form for the Approval of Application Requirements	Please make “Examination Form for the Approval of Application Requirements (Form 4※)” on a computer and submit it.
2	Certificate of (Prospective) Graduation	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the President of your school.
3	Academic transcript	Submit a certificate prepared by the President of the university from which you received your degree.
4	Letter of Recommendation	Please submit the “Letter of Recommendation (Form 1※)” written by your academic advisor at your university.
5	Statement of Purpose	Please make “Statement of Purpose (Form 2※)” on a computer and submit it.
6	Research Project Plan	Please make “Research Project Plan (Form 3※)” on a computer and submit it.
7	TOEIC, TOEFL or IELTS Test Score	<p>Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after November 2020. (Even if the original certificate was submitted, we do not return it.)</p> <p>If you have not yet obtained those certificates, submit the state of reasons why you cannot submit it and be sure to submit a copy of either of them when applying or bring the original at the time of the examination.</p> <ul style="list-style-type: none"> ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)
8	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. • Those who reside in foreign countries are required to submit a copy of page the passport ID page

※ Form 1 - 4 can be downloaded from the following URL before the start of the application period.

Admissions > Graduate School Entrance Examination > Applicant Requirements

<https://www.yamanashi.ac.jp/admission/45>

【Application Period】

October 7 (Friday) – October 14 (Friday), 2022 4:30 pm (must arrive during the application period)

① Applicants in Japan

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② Overseas applicants

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

(2) Special measures for entrance examination

If you need special consideration in the entrance exam or in the course study, for such as physical disability, please consult us and submit documents by October 7 (Friday), 2022.

*We tell you what documents you have to submit when you consult us.

Mailing address / Inquiries:

Admission Division, Academic Affairs Support Department, University of Yamanashi
4-4-37 Takeda, Kofu, Yamanashi, 400-8510 Japan
Phone: 055-220-8046 (from abroad, +81-55-220-8046)

4. Application Procedure

(1) Application Method ※ Please refer to “Appendix : Online Application User Guide” on this guideline.

Online Application Site <https://syutugan.yamanashi.ac.jp>

The online application site is accessible from the above URL. Please follow the guidelines on the screen to register the application information, etc.

① Register the application information using the online application site

② Pay the entrance examination fee

③ Print, complete, and post the application documents (must arrive by the deadline)

(2) Payment of the Examination Fee

Examination fee JPY30,000

1. Please select the payment method from the examination fee payment site and complete the payment procedure.

The following payment methods are acceptable.

① Credit Card, ② Convenience Store, ③ ATM of a financial institution (Pay-easy), ④ Internet Banking

2. **Depending on the method of payment other than credit cards, it may take about two hours for your payment to be confirmed.** (If payment is not confirmed, the application documents cannot be printed.)

3. **The only payment method from the foreign countries is a Credit Card.**

4. For all payment methods, transfer fee will be charged separately.

5. **Once the application has been accepted, the paid examination fee will not be refunded for any reason.**

6. This fee is unnecessary for international students of the Japanese government (MEXT) scholarship. Please contact the Admission Division before the start of the application period.

【Exemption from the Entrance Examination Fee】

For those affected by the following disasters, the University of Yamanashi will take special measures to exempt the examination fee

The Great East Japan Earthquake / The Kumamoto Earthquake in 2016 / The heavy rain in July 2018 / The Hokkaido Eastern Iburi earthquake in 2018 / 2019 Typhoon Faxai / 2019 Typhoon Hagibis / The regions where the Disaster Relief Act is applied for the disaster which occurred in and after April 2020

Applicants who want to apply for this exemption should contact the Admission Division, Academic Affairs Support Department before the start of the application period.

Please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/examination/3787>) for details on application documents for this exemption.

(3) Application Documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- If you pass the examination of application requirements, you do not need to send documents submitted at that time.

No.	Application document	Description
1	Certificate of (Prospective) Graduation * This is not necessary if you are expected to graduate from the university of Yamanashi	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the president of your school.
2	Academic transcript	Submit a certificate prepared by the President of the university from which You received your degree.
3	Personal Resume	Please submit your “Personal Resume” printed from the application documents print page on “My Page” from the online application site.
4	Letter of Recommendation	Please submit the “Letter of Recommendation (Form 1*)” written by your academic advisor at your university.
5	Statement of Purpose	Please make “Statement of Purpose (Form 2*)” on a computer and submit it.
6	Research Project Plan	Please make “Research Project Plan (Form 3*)” on a computer and submit it.
7	TOEIC, TOEFL or IELTS Test Score	<p>Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after November 2020. (Even if the original certificate was submitted, we do not return it.)</p> <p>If you have not yet obtained those certificates when applying, submit the state of reasons why you cannot submit it and be sure to bring the original of either of them at the time of the examination.</p> <p>① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)</p>
8	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. • Those who reside in foreign countries are required to submit a copy of page your passport ID.
9	Extract of family register *Only applicable	If the applicant’s name is different on each certificate or document because of a name change, please submit.

※ Form 1 – 3 can be downloaded from the following URL before the start of the application period.

Admissions > Graduate School Entrance Examination > Applicant Requirements

<https://www.yamanashi.ac.jp/admission/45>

(4) Application Period

November 14 (Monday) – November 21 (Monday), 2022 4:30 pm (must arrive by the deadline)

Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete, and submit the application documents” using the online application site during the application period.

Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

(5) Method for submitting application documents

Please submit your application documents after checking that all documents are in order using the "Application Documents Checklist" from the application documents print page on "My Page" on the online application site.

① **Applicants in Japan**

Please print the Envelope Address Label from the application documents print page on "My Page" on the online application site and affix it to your own Kakugata 2-go size envelope (24 cm x 33.2 cm).

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② **Overseas applicants**

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

Those who submitted documents in electronic files with PDF format must also submit the original after enrollment. For the submission method, please see "10. Request for Submitting Application Documents(original) " on page 48 of this guideline.

(6) Mailing address / Inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Phone: 055-220-8046 (from abroad, +81-55-220-8046)

E-mail : nyushi@yamanashi.ac.jp

【Notes Regarding Applications】**1. Please consult with the academic advisor of your preference before applying.**

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

2. Please be careful when preparing your application documents since incomplete documents will not be accepted.**3. After the application is accepted, the contents of the application will not be changed for any reason. (Excluding changes in contact information such as address.) In addition, application documents cannot be returned.****4. Misrepresentation of any information contained in the application documents may result in the rejection of the application even after enrollment.****5. If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.****5. Examination Admission Slip**

Please print the Examination Admission Slip from the documents print page on the online application site and bring Examination Admission Slip on the exam day.

Within three days from the last day of the Application Period, we will notify your e-mail address registered on the online application site that the Examination Admission Slip can be printed.

If you have received the notification but cannot print it, please contact the Admission Division.

Notification of Printing : Three days after the last day of the Application Period (in the case of Saturday, Sunday, and public holidays, the weekday immediately after)

Printable period : From the date of receipt of the notification to March 31, 2023

How to print : Online Application Site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- The name registered on the online application site will be printed for the Examination Admission Slip.
- If you lose or stain your Examination Admission Slip, please print it again from the online application site.

6. Selection Method

Successful applicants will be chosen based on an overall assessment including the results of their oral examination and the examination of their application documents.

(1) Oral examination (Japanese / English)

Make a presentation based on the statement of purpose and research project plan.

Interview regarding the presentation, and some relevant basic academic skills and specialized knowledge.

Applicants should use presentation software (such as MS PowerPoint) for the oral presentation and bring their own PC. Oral examination is available in Japanese or English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

[Oral examination duration]

Course or Program	Presentation	Interview
Computer Science and Engineering Course	10 minutes	15 minutes

Notes: For the Computer Science and Engineering Course, preliminary interviews for those who wish to apply for this course from overseas may be conducted.

Oral examination may be exempted for the applicants who had a preliminary interview overseas. The place, date, time and application documents for the preliminary interview will be advised at the time of prearrangement and discussion with your preferred supervisor.

(2) Examination of application documents

[Allocation of Marks]

Course or Program	Oral Examination	Application Documents
Computer Science and Engineering Course	Accepted / Rejected	Accepted / Rejected*

*Including TOEIC, TOEFL or IELTS Test Score.

7. Date, Time, and Location of the Examination

Please arrive **20 minutes prior to the examination**.

If applicants arrive at the location of the examination within 30 minutes after the scheduled start time, they will be permitted to take the examination.

(1) Date and time

Date: December 3 (Saturday), 2022

Course	Time	Type of examination
Computer Science and Engineering Course	Start at 9:30 am	Oral examination

(2) Location

Course	Location
Computer Science and Engineering Course	Entrance of Building A-2 (Kofu East Campus)

General Admission Application Guideline

1. Number of Students to be Admitted

Course or Program	Number of Students to be Admitted
Mechanical Engineering Course	A few
Electrical and Electronic Engineering Course	
Computer Science and Engineering Course	
Mechatronics Course	
Civil and Environmental Engineering Course	
Applied Chemistry Course	
Advanced Material Science Course	
Special Educational Program on River Basin Environmental Sciences	
Special Educational Program for Green Energy Conversion Science and Technology	

2. Application Requirements

Applicants must meet at least one of the following requirements:

- (1) Persons who have graduated or are expected to graduate from a university or college as designated by Article 83 of the School Education Law of Japan (Law #26, 1947) by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (2) Persons who have been awarded a Bachelor's degree according to Article 104, Paragraph 7 of the School Education Law of Japan, or who are expected to complete an advanced course of junior or technical college by March 2023 (or September 2023 for candidates desiring enrollment in October 2023) and be awarded a Bachelor's degree according to the law by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (3) Persons who have completed a 16-year school education program abroad or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (4) Persons who have taken a correspondence course from an overseas educational institution while in Japan, and completed a 16-year school education program.
- (5) Persons who have completed a course or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023) at an educational institution abroad (a graduate of which must have completed a 16-year course in the school education system), which is assessed in Japan to have university courses in that education system, and is specifically designated by the Minister of Education, Culture, Sports, Science and Technology.
- (6) Persons who have completed a 3-year program or a program of more than 3 years (The program shall include a correspondence course which enables students to study in Japan by a university or school which is approved by the educational system of the country and satisfy the above requirements.) and have been awarded a degree by an overseas university or school (The university or the school shall be evaluated by an organization approved by a relevant official institution in the country for their education and research activities or recognized as so by the Minister of Education, Culture, Sports, Science and Technology.) which is recognized as being equivalent to a bachelor's degree.
- (7) Persons who are recognized by the Minister of Education, Culture, Sports, Science and Technology as having academic ability equal to or higher than persons who are graduates of a university or college.
- (8) Persons who have completed specialized courses specifically designated by the Minister of Education, Culture, Sports, Science and Technology at a vocational school, whose minimum period required for graduation is 4 years or longer and which also satisfies other conditions specified by the Minister of Education, Culture, Sports, Science and Technology, on or after the date designated by the Minister of Education, Culture, Sports, Science and Technology, or are expected to do so by March 2023 (or September 2023 for candidates desiring enrollment in October 2023).
- (9) Persons who have spent 3 years or more at a university, or who have completed a 15-year school education program abroad, and who are recognized by our graduate school as having obtained the designated credits with excellent results.

- (10) Persons who are recognized by individual examination of entrance requirements by our graduate school as having equal to or higher academic ability than persons who are graduates of a university or college and will be at least 22 years of age at the time of enrollment.

Note 1: An examination of application requirements will be conducted in advance for applicants who apply under the conditions of item (9) or (10). Please contact the Admission Division by October 7 (Friday), 2022.

Note 2: An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please read "3 Preparation before the Application Period" on this page.

3. Preparation before the Application Period (if applicable)

- (1) Examination of application requirements for overseas students

Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

An examination of application requirements will be conducted in advance for foreign applicants (overseas students). Please send Required documents for the approval of application requirements to the Admission Division within the application period.

Applicants who apply under the conditions outlined in item (1) of the application requirements listed above will be exempted from the examination of application requirements (no distinction made between government-financed, government-dispatched, and private students).

In some cases, research students (government-financed, government-dispatched, and private) and applicants who took an examination of application requirements until and including First Call for Applications (October 2022 and April 2023 enrollment) are exempted from the examination. Please contact the Office for the Faculty of Engineering Education Group (Phone: 055-220-8738 (from abroad, +81-55-220-8738)).

Applicants will be informed of the results of the examination by October 28 (Friday), 2022. If the results of the examination is successful, please be sure to complete the application procedure in the application period.

【Required documents】

- Please submit the original document, except for the documents that allow you to submit a copy. (Excluding those living overseas). If you cannot submit an original document, or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- Application documents cannot be returned or changed after the acceptance of application.

No.	Application document	Description
1	Examination Form for the Approval of Application Requirements	Please make "Examination Form for the Approval of Application Requirements (Form 4*)" on a computer and submit it.
2	Certificate of (Prospective) Graduation	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the President of your school.
3	Academic transcript	Submit a certificate prepared by the President of the university from which you received your degree.
4	Statement of Purpose	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make "Statement of Purpose (Form 2*)" on a computer and submit it.
5	Research Project Plan	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make "Research Project Plan (Form 3*)" on a computer and submit it.

6	TOEIC, TOEFL or IELTS Test Score *Except Special Educational program for Green Energy Conversion Science and Technology	Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after November 2020. (Even if the original certificate was submitted, we do not return it.) If you have not yet obtained those certificates, submit the state of reasons why you cannot submit it and be sure to submit a copy of either of them when applying or bring the original at the time of the examination. ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)
7	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. • Those who reside in foreign countries are required to submit a copy of page your passport ID.

※ Form 2 – 4 can be downloaded from the following URL before the start of the application period.
Admissions > Graduate School Entrance Examination > Applicant Requirements
<https://www.yamanashi.ac.jp/admission/45>

【Application Period】

October 7 (Friday) – October 14 (Friday), 2022 4:30 pm (must arrive during the application period)

① Applicants in Japan

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00(noon) and 1:00 pm).

② Overseas applicants

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

(2) Special measures for entrance examination

If you need special consideration in the entrance exam or in the course study, for such as physical disability, please consult us and submit documents by October 7 (Friday), 2022.

*We tell you what documents you have to submit when you consult us.

Mailing address / Inquiries:

Admission Division, Academic Affairs Support Department, University of Yamanashi
4-4-37 Takeda, Kofu, Yamanashi, 400-8510 Japan
Phone: 055-220-8046 (from abroad, +81-55-220-8046)

4. Application Procedure

- (1) Application Method ※ Please refer to “Appendix : Online Application User Guide” on this guideline.

Online Application Site **<https://syutugan.yamanashi.ac.jp>**

The online application site is accessible from the above URL. Please follow the guidelines on the screen to register the application information, etc.

- ① Register the application information using the online application site
↓
- ② Pay the entrance examination fee
↓
- ③ Print, complete, and post the application documents (must arrive by the deadline)

(2) Payment of the Examination Fee

Examination fee JPY30,000

1. Please select the payment method from the examination fee payment site and complete the payment procedure.
The following payment methods are acceptable.
① Credit Card, ② Convenience Store, ③ ATM of a financial institution (Pay-easy), ④ Internet Banking
2. **Depending on the method of payment other than credit cards, it may take about two hours for your payment to be confirmed.** (If payment is not confirmed, the application documents cannot be printed.)
3. **The only payment method from the foreign countries is a Credit Card.**
4. For all payment methods, transfer fee will be charged separately.
5. **Once the application has been accepted, the paid examination fee will not be refunded for any reason.**
6. This fee is unnecessary for international students of the Japanese government (MEXT) scholarship. Please contact the Admission Division before the start of the application period.

【Exemption from the Entrance Examination Fee】

For those affected by the following disasters, the University of Yamanashi will take special measures to exempt the examination fee

The Great East Japan Earthquake / The Kumamoto Earthquake in 2016 / The heavy rain in July 2018 / The Hokkaido Eastern Iburi earthquake in 2018 / 2019 Typhoon Faxai / 2019 Typhoon Hagibis / The regions where the Disaster Relief Act is applied for the disaster which occurred in and after April 2020

Applicants who want to apply for this exemption should contact the Admission Division, Academic Affairs Support Department before the start of the application period.

Please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/examination/3787>) for details on application documents for this exemption.

(3) Application Documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit the original documents, except for the documents that allow you to submit a copy. (Excluding those living overseas).** If you cannot submit an original document or if you only have one original certificate, please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- Please attach the English or Japanese translation to the certificates written by a foreign language besides English.
- If you pass the examination of application requirements, you do not need to send documents submitted at that time

No.	Application document	Description
1	Certificate of (Prospective) Graduation * This is not necessary if you are expected to graduate from the university of Yamanashi	<ul style="list-style-type: none"> • Submit a certificate prepared by the President of the university from which you received your degree. • If you apply under the conditions specified in item (2) of the application requirements, submit a certificate of the awarded degree, a certificate of acceptance of application for an awarded degree presented by the National Institution for Academic Degrees and University Evaluation, or a certificate of expected application for an awarded degree prepared by the President of your school.
2	Academic transcript	Submit a certificate prepared by the President of the university from which You received your degree.
3	Personal Resume	Please submit the “Personal Resume” after printing the form from the application documents print page.
4	Statement of Purpose	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make “Statement of Purpose (Form 2*)” on a computer and submit it.
5	Research Project Plan	Those who apply for the Courses of Electrical and Electronic Engineering, Computer Science and Engineering, Mechatronics, Civil and Environmental Engineering, Applied Chemistry, Advanced Material Science, Special Educational Program on River Basin Environmental Sciences, and Special Educational Program for Green Energy Conversion Science and Technology must make “Research Project Plan (Form 3*)” on a computer and submit it.

6	TOEIC, TOEFL or IELTS Test Score *Except Special Educational program for Green Energy Conversion Science and Technology	Submit a copy of either of the following documents. The test score is acceptable only if the test was taken after November 2020. (Even if the original certificate was submitted, we do not return it.) If you have not yet obtained those certificates when applying, submit the state of reasons why you cannot submit it and be sure to bring the original of either of them at the time of the examination. ① TOEIC Listening & Reading Official Score Report ② TOEIC Listening & Reading IP Score Report ③ TOEFL-iBT Test Taker Score Report ※(Special) Home Edition is acceptable. ④ TOEFL-ITP Score Report (only Level 1 test) ⑤ INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) Test Report Form (only Academic module)
7	Double-sided copy of Residence Card or Copy of Passport *Non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants who reside in Japan are required to submit a double-sided copy of their Residence Card so that Personal identification, Status of residence and Period of stay can be confirmed. • Those who reside in foreign countries are required to submit a copy of page your passport ID.
8	Extract of family register *Only applicable	If the applicant's name is different on each certificate or document because of a name change, please submit.

※ Form 2 and Form 3 can be downloaded from the following URL before the start of the application period.

Admissions > Graduate School Entrance Examination > Applicant Requirements

<https://www.yamanashi.ac.jp/admission/45>

(4) Application Period

November 14 (Monday) – November 21 (Monday), 2022 4:30 pm (must arrive by the deadline)

Applicants must complete “Register the application information”, “Pay the entrance examination fee” and “Print out, complete, and submit the application documents” using the online application site during the application period. Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

(5) Method for submitting application documents

Please submit your application documents after checking that all documents are in order using the "Application Documents Checklist" from the application documents print page on “My Page” on the online application site.

① **Applicants in Japan**

Please print the Envelope Address Label from the application documents print page on “My Page” on the online application site and affix it to your own Kakugata 2-go size envelope (24 cm x 33.2 cm).

If sending your application documents by post, please bring them to a post office counter to send by registered express mail and make sure that they will arrive at the university during the application period.

If you want to deliver your application documents in person, please submit them to the Admission Division, Academic Affairs Support Department between 9:00 am and 4:30 pm on weekdays during the application period (Except school holidays, public holidays, and between 12:00 (noon) and 1:00 pm).

② **Overseas applicants**

Please send the required documents in electronic files with PDF format to the Admission division by E-mail (nyushi@yamanashi.ac.jp) during the application period.

Those who submitted documents in electronic files with PDF format must also submit the original after enrollment. For the submission method, please see "10. Request for Submitting Application Documents(original) " on page 48 of this guideline.

(6) Mailing address / Inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Phone: 055-220-8046 (from abroad, +81-55-220-8046)

E-mail : nyushi@yamanashi.ac.jp

[Notes Regarding Applications]

1. Please consult with the academic advisor of your preference before applying.

*Please contact the academic advisor of your preference with sufficient time to spare.

*In case that you cannot consult with the academic advisor of your preference in advance, your application might be unacceptable.

2. Please be careful when preparing your application documents since incomplete documents will not be accepted.
3. After the application is accepted, the contents of the application will not be changed for any reason. (Excluding changes in contact information such as address.) In addition, application documents cannot be returned.
4. Misrepresentation of any information contained in the application documents may result in the rejection of the application even after enrollment.
5. If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

5. Examination Admission Slip

Please print the Examination Admission Slip from the documents print page on the online application site and bring Examination Admission Slip on the exam day.

Within three days from the last day of the Application Period, we will notify your e-mail address registered on the online application site that the Examination Admission Slip can be printed.

If you have received the notification but cannot print it, please contact the Admission Division.

Notification of Printing : Three days after the last day of the Application Period (in the case of Saturday, Sunday, and public holidays, the weekday immediately after)
 Printable period : From the date of receipt of the notification to March 31, 2023
 How to print : Online Application Site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- The name registered on the online application site will be printed for the Examination Admission Slip.
- If you lose or stain your Examination Admission Slip, please print it again from the online application site.

6. Selection Method

- (1) After the application documents are received, no changes to the desired course or program or to the selection of subjects will be permitted.
- (2) It is not permitted to bring a dictionaries or reference books in the examination room.
- (3) For information on allocation of marks, refer to page 44.

[Mechanical Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination, and evaluation of their undergraduate or equivalent university academic transcript. In a written and an oral examination, questions are presented in Japanese but can be answered in English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

- (1) Written examination (mathematics)

Linear Algebra, Calculus, Differential Equations.

- (2) Oral examination (10 minutes)

Interview regarding mechanical engineering, etc.

- (3) Examination of application documents

[Electrical and Electronic Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination and evaluation of their application documents.

The written exam questions are officially provided in Japanese. You can answer the written exam questions in either Japanese or English. The oral examination is also given in English or Japanese.

If you need an English translation of the written exam questions, please inform the academic adviser of your preference before applying and send the request letter to the academic adviser of your preference by mail by the application deadline.

If you live overseas, you may send a PDF file of the request letter by e-mail. There is no specific format of the request letter, but please include your name, the date, a sentence stating that you need an English translation of the written exam questions, and your signature.

- (1) Written examination (specialized subjects: 120 minutes)

Electric Circuits, Electronic Circuits and Electromagnetics.

(2) Oral examination (presentation: 10 minutes; interview: 10 minutes)

10-minute presentation regarding the applicant's reason for applying and research project plan.
Interview regarding the presentation, and some relevant basic academic skills and specialized knowledge.
Applicants should prepare an MS PowerPoint file for the oral presentation and bring their own PC.

(3) Examination of application documents

[Computer Science and Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of a written examination, an oral examination, and evaluation of their application documents. Applicants may be exempted from the oral examination, depending on examination of their application documents. Whether the exemption applies to you or not will be notified by an e-mail. Please check your email diligently.

The written exam questions are officially provided in Japanese. You can answer the written exam questions in either Japanese or English. The oral examination is also given in English or Japanese.

If you need an English translation of the written exam questions, please inform the academic adviser of your preference before applying and send the request letter to the academic adviser of your preference by mail by the application deadline.

If you live overseas, you may send a PDF file of the request letter by e-mail. There is no specific format of the request letter, but please include your name, the date, a sentence stating that you need an English translation of the written exam questions, and your signature.

(1) Written examination (specialized subjects)

Algorithms and data structures, programming.

(2) Oral examination (presentation: 10 minutes; interview: 15 minutes)

Interview regarding the application's presentation on their statement of purpose and research project plan, which should be described logically from an engineering viewpoint.
Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(3) Examination of application documents

[Mechatronics Course]

Successful applicants will be selected based on the total assessment of the results of a written examination, an oral examination, and the evaluation of their application documents. The duration of the oral examination may be shortened, depending on the examination of application documents.

Questions in the written examination are presented in Japanese only. Answers, however, may be given in either English or Japanese. Oral examination is available in Japanese or English. In case the applicant prefers to use English for an oral examination, please notify when you contact with the academic adviser of your preference before applying.

(1) Written examination (mathematics)

Linear Algebra, Calculus, Differential Equations.

(2) Written examination (specialized subjects)

Choose two from the following: Mechanics of Materials, Mechanical Dynamics, Programming, Digital Circuits, and Control Engineering.

(Important Notes) Applicants are not permitted to use any scale, compass, and calculator. Only pencils (including mechanical pencil) and eraser can be used.

(3) Oral examination (interview: 15 minutes)

Interview regarding the applicant's purpose and research plans, and some related matters.

(4) An examination of application documents

[Civil and Environmental Engineering Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 10 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Applied Chemistry Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 5 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Advanced Material Science Course]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

(1) Oral examination in Japanese or English (presentation: 5 minutes; interview: 15 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

All applicants are required to make presentation using a slide-presentation software such as MS PowerPoint or its alternative software. It is also required to bring their own laptop computer equipped with an analog RGB D-sub 15-Pin port. Please bring backup files saved on USB storage devices too.
 The presentation must include the issues mentioned below: (1) The reason why you chose this graduate school and this course. (2) Future research plan. (Both 1 and 2 must be included.)
 We will interview the issue related to the applicant's presentation and it will include physical and/or chemical fundamental issues.

(2) Examination of application documents

[Special Educational Program on River Basin Environmental Sciences]

Successful applicants will be selected based on an overall assessment of the results of an oral examination and evaluation of their application documents.

We may conduct preliminary interviews for those who wish to apply from overseas. The oral examination may be exempted for applicants who had a preliminary interview overseas and submitted a letter of recommendation from the academic advisor (or equivalents) of the universities or institutions. The place, date and time for a preliminary interview will be advised at the time of prearrangement and discussion with your preferred master's course supervisor.

(1) Oral examination in Japanese or English (presentation: 10 minutes; interview: 10 minutes)

* Please notify the academic advisor of your preference if you wish to use English for an oral examination before applying.

Presentation on the applicant's statement of purpose and research project plan.
 Interview regarding the presentation and specialized knowledge.
 Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(2) Examination of application documents

[Special Educational Program for Green Energy Conversion Science and Technology]

Successful applicants will be selected based on an overall assessment of the results of written examinations (fundamental and specialized subjects and foreign language), an oral examination (interview regarding the research project plan, conducted in either English or Japanese), and evaluation of their undergraduate or equivalent university academic transcript. Written examination questions, including fundamental and specialized subjects and foreign language, can be presented also in Japanese. Please notify the academic advisor of your preference if you wish to have the written examination questions provided in Japanese.

(1) Written examination (fundamental and specialized subjects)

Chemistry A, Chemistry B

Bring a scientific calculator.

Contents of examination:

1. Chemistry A: Thermodynamics, Phase Equilibria, Chemical Kinetics, Electronic Structure of Atoms and Molecules, etc.
2. Chemistry B: Spectroscopy and Diffraction, Crystal Structure, Electronic Structure and Properties of Inorganic Materials, Electrolyte Solutions, Chemical Batteries, etc.

(2) Written examination (foreign language)

English in the specialized field.

For foreign applicants (overseas students), Japanese or English will appear on the test.

(3) Oral examination (presentation: 10 minutes; interview: 10 minutes)

Presentation based on the applicant's statement of purpose and research project plan.

Interview regarding the presentation.

Applicants should prepare an MS PowerPoint file for their oral presentation and bring their own PC.

(4) Examination of application documents

[Allocation of Marks]

Course or Program	Written Examination		Oral Examination	Application Documents	Total
Electrical and Electronic Engineering Course	(Specialized Subjects) 300		Accepted / Rejected	(Academic Transcript) Accepted / Rejected*	300
Special Educational Program for Green Energy Conversion Science and Technology	(Fundamental and Specialized subjects) 200	(Foreign Language) 100	100	(Academic Transcript) Accepted / Rejected	400

*Including TOEIC, TOEFL or IELTS Test Score.

Course	Oral Examination	Application Documents	Total
Applied Chemistry Course	100	Accepted / Rejected*	100
Advanced Material Science Course	100	Accepted / Rejected*	100

*Including TOEIC, TOEFL or IELTS Test Score.

Course or Program	Written Examination		Oral Examination	Application Documents	TOEIC, TOEFL or IELTS	Total
Mechanical Engineering Course	(Mathematics) 150		Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	70	220
Computer Science and Engineering Course	(Specialized Subjects) 140		Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	40	180
Mechatronics Course	(Mathematics) 100	(Specialized Subjects) 100※	Accepted/ Rejected	(Academic Transcript) Accepted / Rejected	50	250
Civil and Environmental Engineering Course			60	30	10	100
Special Educational Program on River Basin Environmental Sciences			60	30	10	100

※50 points for each (The total is 100 points.)

7. Date, Time, and Location of the Examination

Please arrive **20 minutes prior to the examination**.

If applicants arrive at the location of the examination within 30 minutes after the scheduled start time, they will be permitted to take the examination.

(1) Date and time

Date: December 3 (Saturday), 2022

Course or Program	Time	Type of examination
Mechanical Engineering Course	9:30 am to 10:30 am	Written examination (mathematics)
	Start at 11:00 am	Oral examination
Electrical and Electronic Engineering Course	9:30 am to 11:30 am	Written examination (specialized subjects)
	Start at 1:30 pm	Oral examination
Computer Science and Engineering Course	9:30 am to 11:00 am	Written examination (specialized subjects)
	Start at 12:10 pm	Oral examination
Mechatronics Course	9:30 am to 11:30 am	Written examination (mathematics and specialized subjects)
	Start at 1:30 pm	Oral examination
Civil and Environmental Engineering Course	Start at 9:30 am	Oral examination
Applied Chemistry Course	Start at 9:30 am	Oral examination
Advanced Material Science Course	Start at 9:30 am	Oral examination
Special Educational Program on River Basin Environmental Sciences	Start at 9:30 am	Oral examination
Special Educational Program for Green Energy Conversion Science and Technology	9:30 am to 11:30 am	Written examination (fundamental and specialized subjects)
	11:40 am to 12:30 pm	Written examination (foreign language)
	Start at 1:30 pm	Oral examination

(2) Examination location

Course or Program	Location
Mechanical Engineering Course	Room A1-11, first floor of Building A-1 (Kofu East Campus)
Electrical and Electronic Engineering Course	Lounge, third floor of Building T-1 (Kofu East Campus)
Computer Science and Engineering Course	Room A2-12, first floor of Building A-2 (Kofu East Campus)
Mechatronics Course	Room A2-11, first floor of Building A-2 (Kofu East Campus)

Civil and Environmental Engineering Course	Civil and Environmental Engineering Course Room T-69, second floor of Building B-3 (Kofu East Campus)
Applied Chemistry Course	Integrated Research Building (Kofu West Campus) *Come to the entrance of the Integrated Research Building
Advanced Material Science Course	Room T1-22, second floor of Building T-1 (Kofu East Campus)
Special Educational Program on River Basin Environmental Sciences	Room B1-336 *Come to Room B1-333, third floor of Building B-1 (Kofu East Campus)
Special Educational Program for Green Energy Conversion Science and Technology	Room B2-11, first floor of Building B-2 (Kofu East Campus)

8. Other

Previous years' examination questions are published on our website (<https://www.yamanashi.ac.jp/admission/297>).

General Information

1. Announcement of Successful Applicants

Date and Time : **December 16 (Friday), 2022 around 5:00 pm**

How to announce : Announcement of successful applicants will be made on the bulletin board at the front entrance of Building A-2. The examinee numbers of successful applicants will additionally be published on the website of University of Yamanashi (https://www.yamanashi.ac.jp/en/examination_list). Information regarding results will not be given out over the telephone. A letter of acceptance will also be sent to successful applicants.

2. Enrollment Period

Applicants applying in this examination may select a period of enrollment. When applying, select either the April 2023 (First Semester) or October 2023 (Second Semester) enrollment period. Note that changes cannot be made to your selection once the application has been received by our office. If you have any questions about enrollment in October 2023 (Second Semester), please contact the Admission Division.

3. Entrance Procedures

(1) Scheduled enrollment period

Enrollment Period	Enrollment Applications
April 2023 Enrollment	March 7 (Tuesday)— March 15 (Wednesday), 2023
October 2023 Enrollment	September 8 (Friday), 2023

Notes:

- Details of the Entrance Procedure will be notified separately.
- If you fail to complete entrance procedures by the designated date, you will be assumed to have decided against entering our university, and your enrollment will be canceled.

(2) Payment for enrollment

The enrollment fee is JPY282,000 (tentative).

The enrollment fee stated above may be revised at the time of enrollment. Received enrollment fees will not be returned under any circumstances.

4. Tuition

Tuition for the First period for those students enrolling in April 2023 is JPY267,900 (totaling JPY535,800 per year).

Tuition for the Second period for those students enrolling in October 2023 is JPY267,900.

- Tuition fees listed are tentative. If revisions to this fee are made at the time of enrollment or during classes, the new fee will be applicable after it is set.
- Tuition is typically withdrawn automatically from the student's account. Information will be made available later with regard to procedures.

5. Other Expenditures

Student Research Accident Insurance expenditures are required.

6. Admission Fee Exemption System for Successful Applicants with Excellent Academic Achievements

The Division of Engineering master's program recognizes a certain ratio of successful applicants with excellent academic achievements and personality as honor students and exempts him/her from paying an admission fee in full or half. Successful applicants with recommendation are prioritized.

7. Extended Credit System

The Division of Engineering master's program offers an extended credit system.

This system enables students whose hours of study are restricted by employment to obtain credits for a planned educational program over a fixed period (maximum of 4 years), exceeding the standard training year limit (2years) to complete the program. Because the units required for credit are the same as those required by the 2-year program, the yearly course load required is dramatically reduced.

For details on this system and the procedures, contact the Office for the Faculty of Engineering Education Group (Graduate School) by about one month before of the due date of application of this system below:

Phone: 055-220-8730 (from abroad, +81-55-220-8730).

【Due Date of Application of this System】

- (1) Enrollment in April (First Semester): Last day of February
- (2) Enrollment in October (Second Semester): Last day of August

8. Handling Personal Information

In university of Yamanashi will handle personal information from applicants as follows based on “the Act on the Protection of Personal Information Held by Incorporated Administrative Agencies” and “the University of Yamanashi’s Regulations on the Protection of Personal Information”.

- (1) Personal information (including information on grade judgment) described in application documents is as follows:
 - (a) Selection of applicants (application process, selection), (b) examination result announcement, (c) admission procedures, and (d) statistical studies, (e) Future admissions selection method It is used for examination, analysis of application trends, and research on improvement of university education.

When publishing the results of these research and analysis, we will process them in such a way that no individual is identified.

- (2) Personal information of enrollees obtained in applications will be used for the following: (a) Academic affairs (student registration, instruction and guidance, etc.), (b) student support (health care, employment support, tuition waivers, scholarship applications, etc.), and (c) collecting tuition.

Please note that in the execution of the above, some tasks may be outsourced to a contractor that has been contracted by the university to carry out these tasks (hereinafter referred to as "contractor"). In this case, the contractor may be provided with all or part of the personal information we have obtained to the extent that it is required to carry out the contracted work.

※ In order to protect personal information and privacy information, the personal information acquired in the final selection will be strictly concealed in any form of the documents and data itself in which it is described, and will not be used for any purpose other than the above. In addition, we will not disclose it to third parties except when disclosure is required by law.

9. Response to infectious disease regarding the entrance examination

In University of Yamanashi, the examinees who were affected by the infectious disease such as COVID-19/Coronavirus, influenza, measles, and chickenpox, for which suspension of attendance is specified by the School Health and Safety Act, and have not been recovered from it yet must not take the entrance examination due to possibility of infection to other examinees and supervisors on the day of the entrance examination.

In case examinees must not take the entrance examination, special measures such as taking a supplementary examination, reexamination, and examination in a separate room will not be conducted, and their entrance examination fee will not be returned. Therefore, please be fully cautious about managing your physical condition by taking all possible measures so that you can take the entrance examination in perfect condition.

Regarding the response to COVID-19/coronavirus disease, please check the website of the University of Yamanashi (<https://www.yamanashi.ac.jp/admission/45>).

10. Request for Submitting Application Documents (original)

Those who submitted documents in electronic files with PDF format should submit the Original paper documents as well by the due date mentioned below. Please note that your enrollment and registration may be canceled and deleted, in case that false entry such as falsification is detected in your PDF documents data.

Documents for submission : Documents for eligibility screening and application documents (original)

Submit to : Student counter of Faculty of Engineering Office (2F, A-2, Kofu East Campus)

(8:30 am to 5:15 pm, excluding the lunch time from 12:00(noon) to 1:00 pm)

Submission due date : Within a week counting from the first date of attending school

11. Security Export Control

In University of Yamanashi, the “Regulation of Security Export Control” based on the “Foreign Exchange and Foreign Trade Act” is established, and strict examination for accepting international students is conducted. In case of being applicable to the regulatory concerns, the international student might not be able to receive desired education and research.

12. Others

- (1) When registering on the online application site, please enter the address and telephone number and E-mail address where you can receive inquiries and notices from the university from the time that you apply until the completion of admission procedures.
Please notify the Admission Division, Academic Affairs Support Department promptly if there are any changes to your contact information after you have submitted your application.
- (2) Applicants wishing to obtain a scholarship should contact the Academic Affairs Support Department, Office of Student Support (Phone: 055-220-8053 (from abroad, +81-55-220-8053)), for information after announcement of successful applicants.
- (3) All times shown in this application guidelines are in Japan Standard Time.

Course Descriptions

Course Descriptions from the Master's Course (Department of Engineering) of the Integrated Graduate School of Medicine, Engineering, and Agricultural Sciences

• Mechanical Engineering Course

Supervisors		Main topics of research	Leading subjects
Professor	FUJIMORI Atsushi	Modeling and control design of mechanical systems, navigation of mobile robots	Advanced thermal engineering Advanced mechanical dynamics and control Advanced fluid mechanics Advanced strength of materials Advanced material processing Advanced mechanical materials engineering Advanced mechanical systems engineering
Professor	TAKEDA Tetsuaki	Heat and mass transport phenomena	
Professor	NAKAYAMA Yoshihiro	Mechanical properties and microstructure of metallic materials	
Professor	OKAZAWA Shigenobu	Computational mechanics and its application to automobile engineering	
Professor	ITO Yasumi	Medical and welfare engineering, forensic engineering	
Professor	NODA Yoshiyuki	Analysis and control of dynamical systems	
Associate Professor	TSUNODA Hiroyuki	Experimental and numerical studies on diffusion of passive scalars in a turbulent flow	
Associate Professor	YAMAMOTO Yoshinobu	Computational fluid dynamics, multiphase flow engineering magnetohydrodynamics	
Associate Professor	TORIYAMA Koji	Effective use of thermal energy and accelerated methods of numerical simulation using GPU	
Associate Professor	AOYAGI Junichiro	Evaluation and improvement of space propulsion systems	
Associate Professor	HARAMIISHI Yasutake	Machining and profile measurement using image processing	
Associate Professor	FUNATANI Shumpei	Flow visualization of combustion phenomena	
Associate Professor	KAGIYAMA Yoshiyuki	Surgical assistant research for biomedical analysis and pre-operative planning manipulation	
Associate Professor	UKITA Yoshiaki	Development of microsystems and applications to nano-micro analytical methods	

• Electrical and Electronic Engineering Course

Supervisors		Main topics of research	Leading subjects
Professor	UCHIYAMA Chikako	Quantum statistical research on quantum transport and microscopic heat engines	Advanced optical and acoustic waves engineering Advanced quantum engineering Advanced electronic device engineering Advanced crystal engineering Advanced signal and systems engineering Advanced electronic circuits engineering Advanced measuring engineering Advanced electrical power engineering Advanced power semiconductor modules engineering
Professor	OHKI Makoto	Signal processing, especially theory and application of multidimensional and adaptive signal processing	
Professor	KAKIO Shoji	Surface acoustic wave devices, optical guided wave devices	
Professor	SATO Takahide	Design of Integrated circuit and power supply circuit	
Professor	HANAWA Masanori	Optical fiber/wireless communication systems, optical devices, optical signal processing, medical signal processing	
Professor	YANO Koji	Design and fabrication of power semiconductor devices	
Professor	NABETANI Yoichi	Crystal growth and characterization of compound semiconductors	
Associate Professor	UNO Kazuyuki	Laser device, laser processing and laser medicine, discharge plasma and pulse power technology	
Associate Professor	ONOJIMA Norio	Fabrication of high-performance organic transistors and organic solar cells	
Associate Professor	SHIRAKI Ichiro	Physical property measurements and structure analysis of nanomaterials by scanning probe microscopy	
Associate Professor	SEKIYA Naoto	Development of superconducting high frequency devices	
Associate Professor	CHEN Lee Chuin	Development of new ionization methods for mass spectrometry	
Associate Professor	NINOMIYA Satoshi	Development of novel ion beams for surface analysis	
Associate Professor	HONMA Satoshi	Development and application of optical functional devices, optical switches and memory	
Associate Professor	MURANAKA Tsutomu	Design, growth, fabrication, and characterization of semiconductor nanostructures for applications in nanoelectronics	
Associate Professor	YAMAMOTO Masayuki	Sic semiconductor devices	
Associate Professor	ITO Hironori	Laser pulse shaping for electron transport and biomedical applications	
Associate Professor	SAKUMA Keita	Fabrication of thin film superconductors and its application to high frequency devices	
Assistant Professor	SUZUKI Masashi	Growth and characterization of piezoelectric thin films for applications in acoustic wave devices	
Assistant Professor	NAKAMURA Kazuhiko	Wireless communication systems, signal processing for communications	
Assistant Professor	HASHIMOTO Kazunari	Theoretical study of quantum transport in nano systems	

• Computer Science and Engineering Course

Supervisors		Main topics of research	Leading subjects
Professor	ANDOH Hidetoshi	Distributed and collaborative systems, interactive multimedia technology	Large-scale discrete structure processing Parallel computing Software engineering Machine learning User-centered design methodology Digital speech processing Natural language and image media processing Computer vision
Professor	IWANUMA Koji	Discrete data mining, automated theorem proving, artificial intelligence	
Professor	OHBUCHI Ryutarou	2D image and 3D shape analysis, recognition and retrieval, cognitive visual information processing	
Professor	OZAWA Kenji	Acoustic signal processing, auditory information processing, audio-visual perceptive computing	
Professor	GO Kentaro	Interactive systems design methodology	
Professor	SUZUKI Tomohiro	High-performance computing	
Professor	TAKAHASHI Masakazu	Software engineering, reliable software	
Professor	FUKUMOTO Fumiyo	Natural language processing, computational linguistics, information retrieval	
Professor	HATTORI Motonobu	Neural networks	
Professor	MAO Xiaoyang	Image processing, computer graphics, virtual reality/augment reality, visualization	
Professor	WATANABE Yoshimichi	Software development techniques	
Associate Professor	OMATA Masaki	Human-computer interaction	
Associate Professor	KINOSHITA Yuichiro	Affective information processing, human-computer interaction	
Associate Professor	TOYOURA Masahiro	Image and video processing, design by AI and IoT	
Associate Professor	NABESHIMA Hidetomo	Artificial intelligence, knowledge representation and reasoning, constraint satisfaction systems	
Assistant Professor	FURUYA Takahiko	3D shape and 2D image analysis, recognition and retrieval, machine learning	

• Mechatronics Course

Supervisors		Main topics of research	Leading subjects
Professor	ISHII Takaaki	Research on actuators using high power ultrasonics	Advanced mechatronics engineering Advanced robotics engineering Advanced human engineering Advanced embedded systems design Advanced materials engineering Advanced actuator engineering Advanced electromagnetic engineering Advanced communication-controlling networks Advanced medical and welfare instruments
Professor	JIN Lianhua	Optical measurement, optoelectronics	
Professor	KOTANI Shinji	Autonomous mobile robot navigation and environmental understanding by robot vision	
Professor	SUZUKI Yoshimi	Information retrieval, natural language processing, spoken language understanding	
Professor	TERADA Hidetsugu	Robotics and actuator engineering	
Professor	NISHIZAKI Hiromitsu	Intelligent information processing for multimedia such as sound and images using machine learning	
Professor	MORISAWA Masayuki	Intelligent sensors using plastic optical fiber	
Associate Professor	ISHIDA Kazuyoshi	Friction, wear, and lubrication	
Associate Professor	OKAMURA Miyoshi	Universal design, design science	
Associate Professor	KITAMURA Toshiya	Study of sound emission from air-flow and low-frequency noise	
Associate Professor	SHIMIZU Tsuyoshi	Profile measurement and application of image processing	
Associate Professor	TANZAWA Tsutomu	Environment recognition using stereo vision	
Associate Professor	HIRA Shinichiro	Micromachining for fabrication of micro fluidic chips	
Associate Professor	MAKINO Koji	Human-robot cooperative control	
Associate Professor	WATANABE Hiromi	Wearable travel AID based on image processing	
Assistant Professor	KITANO Yudai	Development of wearable arm assist robot	
Assistant Professor	SUN Xiao	Intelligent robotic control	

• Civil and Environmental Engineering Course

Courses	Supervisors		Main topics of research	Leading subjects
Civil Management Engineering	Professor	SAITO Shigehiko	Life cycle simulation of concrete structures	Disaster management and engineering Continuum mechanics of solids for civil engineers Infrastructure maintenance engineering Environmental preservation engineering Practical urban planning
	Professor	KOSUDA Masashi	Study on data science for logistics	
	Professor	MUTO Shinichi	Projects and public policy evaluation of urban planning	
	Professor	MORI Kazuhiro	Bioenvironmental engineering for water treatment, remediation and resource use	
	Associate Professor	GOTO Satoshi	Geotechnical engineering for disaster mitigation and rehabilitation	
	Associate Professor	ISHII Nobuyuki	Landscape design, aesthetical structure design, and urban planning and design	
	Associate Professor	HADA Yasunori	Measures and strategies for disaster risk reduction and a resilient society	
	Associate Professor	YAEHASHI Sakiko	DNA-based environmental assessment and monitoring of freshwater ecosystems	
	Associate Professor	YOSHIDA Junji	Dynamics of structures, mechanics of solids and health monitoring of structures	
	Associate Professor	MIYAMOTO Takashi	Earthquake engineering and application of data science	
	Associate Professor	YAMAURA Kota	Representation theory of algebras	
	Assistant Professor	OHTSUKI Kazuaki	River and watershed management, Green infrastructure	
	Assistant Professor	SATO Kennosuke	Materials science of cement and concrete	
	Assistant Professor	MIYAHARA Hiroki	Noncommutative noetherian rings	

• Applied Chemistry Course

Supervisors		Main topics of research	Leading subjects
Professor	INUKAI Junji	Analysis of surface structure and electronic state of energy conversion materials	Advanced organic chemistry Advanced inorganic chemistry I Advanced inorganic chemistry II Advanced analytical chemistry Advanced physical chemistry Advanced polymer chemistry Advanced quantum chemistry for energy conversion Advanced course in materials design for fuel cells
Professor	IRIE Hiroshi	Development of materials for energy and environmental preservation	
Professor	UCHIDA Makoto	Design of high-performance membrane electrode assemblies for fuel cells	
Professor	OKUZAKI Hidenori	Plastic electronics with conductive polymers	
Professor	OBATA Makoto	Synthesis and application of functional polymers	
Professor	KUWABARA Tetsuo	Development of functional dyes and supramolecular materials	
Professor	TAKEI Takahiro	Synthesis of functional inorganic porous materials	
Professor	NOHARA Shinji	Design of electrode materials for supercapacitors	
Professor	MIYATAKE Kenji	Synthesis and characterization of polymer electrolyte membranes for fuel cells	
Professor	YANAGI Hiroshi	Exploration of new functional oxide semiconductors	
Professor	YONEYAMA Naoki	Single crystal growth and physical properties of organic conductors	
Professor	WADA Satoshi	Development of environmentally friendly electroceramics with high performance by nanostructure control	
Professor	WATAUCHI Satoshi	Development of techniques for crystal growth using infrared convergent heating systems	
Research Professor	KAKINUMA Katsuyoshi	Synthesis and analysis of nanomaterials for fuel cells	
Research Professor	MIYAO Toshihiro	Nanostructured catalysts for hydrogen production	
Associate Professor	INOUE Kumi	Electrochemical biosensors and biosensing methods	
Associate Professor	UETA Ikuo	Analysis of trace volatile organic compounds	
Associate Professor	UENO Shintaro	Development of high-performance ceramic composites by microstructural control	
Associate Professor	KUZUME Akiyoshi	Analysis of nano-interfacial electrochemistry	
Associate Professor	SAKANE Hideto	Analysis of local structure and character of inorganic compounds	
Associate Professor	TAKASHIMA Toshihiro	Design of multi-electron transfer catalysts for artificial photosynthesis	
Associate Professor	FUJII Ichiro	Fabrication and characterization of ferroelectric ceramics	
Associate Professor	MIYAJIMA Naoya	Surface modification and applications of porous carbon materials	
Associate Professor	YONEZAKI Yoshinori	Synthesis and structure analysis of inorganic photofunctional material	

Note: Some professors affiliated with this course are also in charge of the Advanced Materials Science Course or Special Educational Program for Green Energy Conversion Science and Technology

• Advanced Material Science Course

Supervisors		Main topics of research	Leading subjects
Professor	KONDOH Eiichi	Processing and evaluation of micro- and nanomaterials	Advanced condensed matter physics Advanced quantum devices Advanced photonics Lectures on advanced electronics Advanced functional materials Advanced quantum material science Structure and chemistry of crystalline solids
Professor	TAKEI Takahiro	Soft chemical synthesis of new functional inorganic material	
Professor	HARIMOTO Tetsuo	Nonlinear optical effects with ultrahigh intensity and ultrashort laser pulses	
Professor	WATAUCHI Satoshi	Development of techniques for crystal growth using infrared convergent heating systems	
Associate Professor	ARIMOTO Keisuke	Electronic properties of group IV semiconductor heterostructures	
Associate Professor	ISHIKAWA Akira	Theory of quantum optics in open nanosystems	
Associate Professor	IJIMA Kaoru	Cosmic ray muon radiography, Spin-polarized electron microscopy	
Associate Professor	UCHIYAMA Kazuharu	Scanning probe microscopy for development of nano-optoelectronic functional device	
Associate Professor	KATOH Hatsuhiro	Physics and technologies for designing electronic devices	
Associate Professor	SAKAI Masaru	Nanophotonics, optical properties of nanomaterials	
Associate Professor	SATO Tetsuya	Low temperature synthesis and application of functional thin films by plasma excitation of condensed gas layer	
Associate Professor	SYOUJI Atsushi	Optical properties of condensed matter and semiconductors	
Associate Professor	NAGAO Masanori	Single crystal growth and characterization of superconducting (and functional) materials	
Associate Professor	HARA Kosuke	Thin film growth and photovoltaic applications of silicide-related semiconductors	
Associate Professor	YAMANAKA Junji	Transmission electron microscopy of semiconductors, metallic alloys, and other inorganic materials	
Associate Professor	YONEZAKI Yoshinori	Synthesis and structure analysis of inorganic photofunctional materials	
Assistant Professor	NORITAKE Fumiya.	Molecular simulations of oxides	
Assistant Professor	MARUYAMA Yuki	Growth and characterization of functional materials single crystals	

Note: Some professors affiliated with this course are also in charge of the Applied Chemistry Course or Special Educational Program for Green Energy Conversion Science and Technology.

• Special Educational Program on River Basin Environmental Sciences

Supervisors		Main topics of research	Leading subjects
Professor	NISHIDA Kei	Environmental modelling for wellbeing and sustainable development system	International Partnership Environmental Statistics Geographic Information Systems Life and Health River Basin Planning and Design Advanced Hydraulics and Hydrology Advanced Water Quality Assessment Advanced Environmental Treatment Technology
Professor	ISHIDAIRA Hiroshi	Development of Hydrological model, Hydrology in Cryosphere	
Professor	HARAMOTO Eiji	Fate of health-related water microorganisms in aquatic environments	
Professor	TOYAMA Tadashi	Environmental purification, waste/wastewater treatment, re-production of energy/material from waste/wastewater	
Associate Professor	SOUMA Kazuyoshi	Meteorological and hydrological modeling, including human activities/prediction of water disasters	
Associate Professor	MAGOME Jun	Modeling, remote sensing and geographical analysis in hydrology and water resources	
Associate Professor	NAKAMURA Takashi	Hydrological analysis and water quality assessment using environmental isotopes	
Assistant Professor	KAMEI Tatsuru	Environmental load reduction and remediation technology, decentralized water/wastewater treatment system	

Note: Some professors affiliated with this course are also in charge of other courses and majors. Some professors affiliated with other course and majors are also in charge of this course.

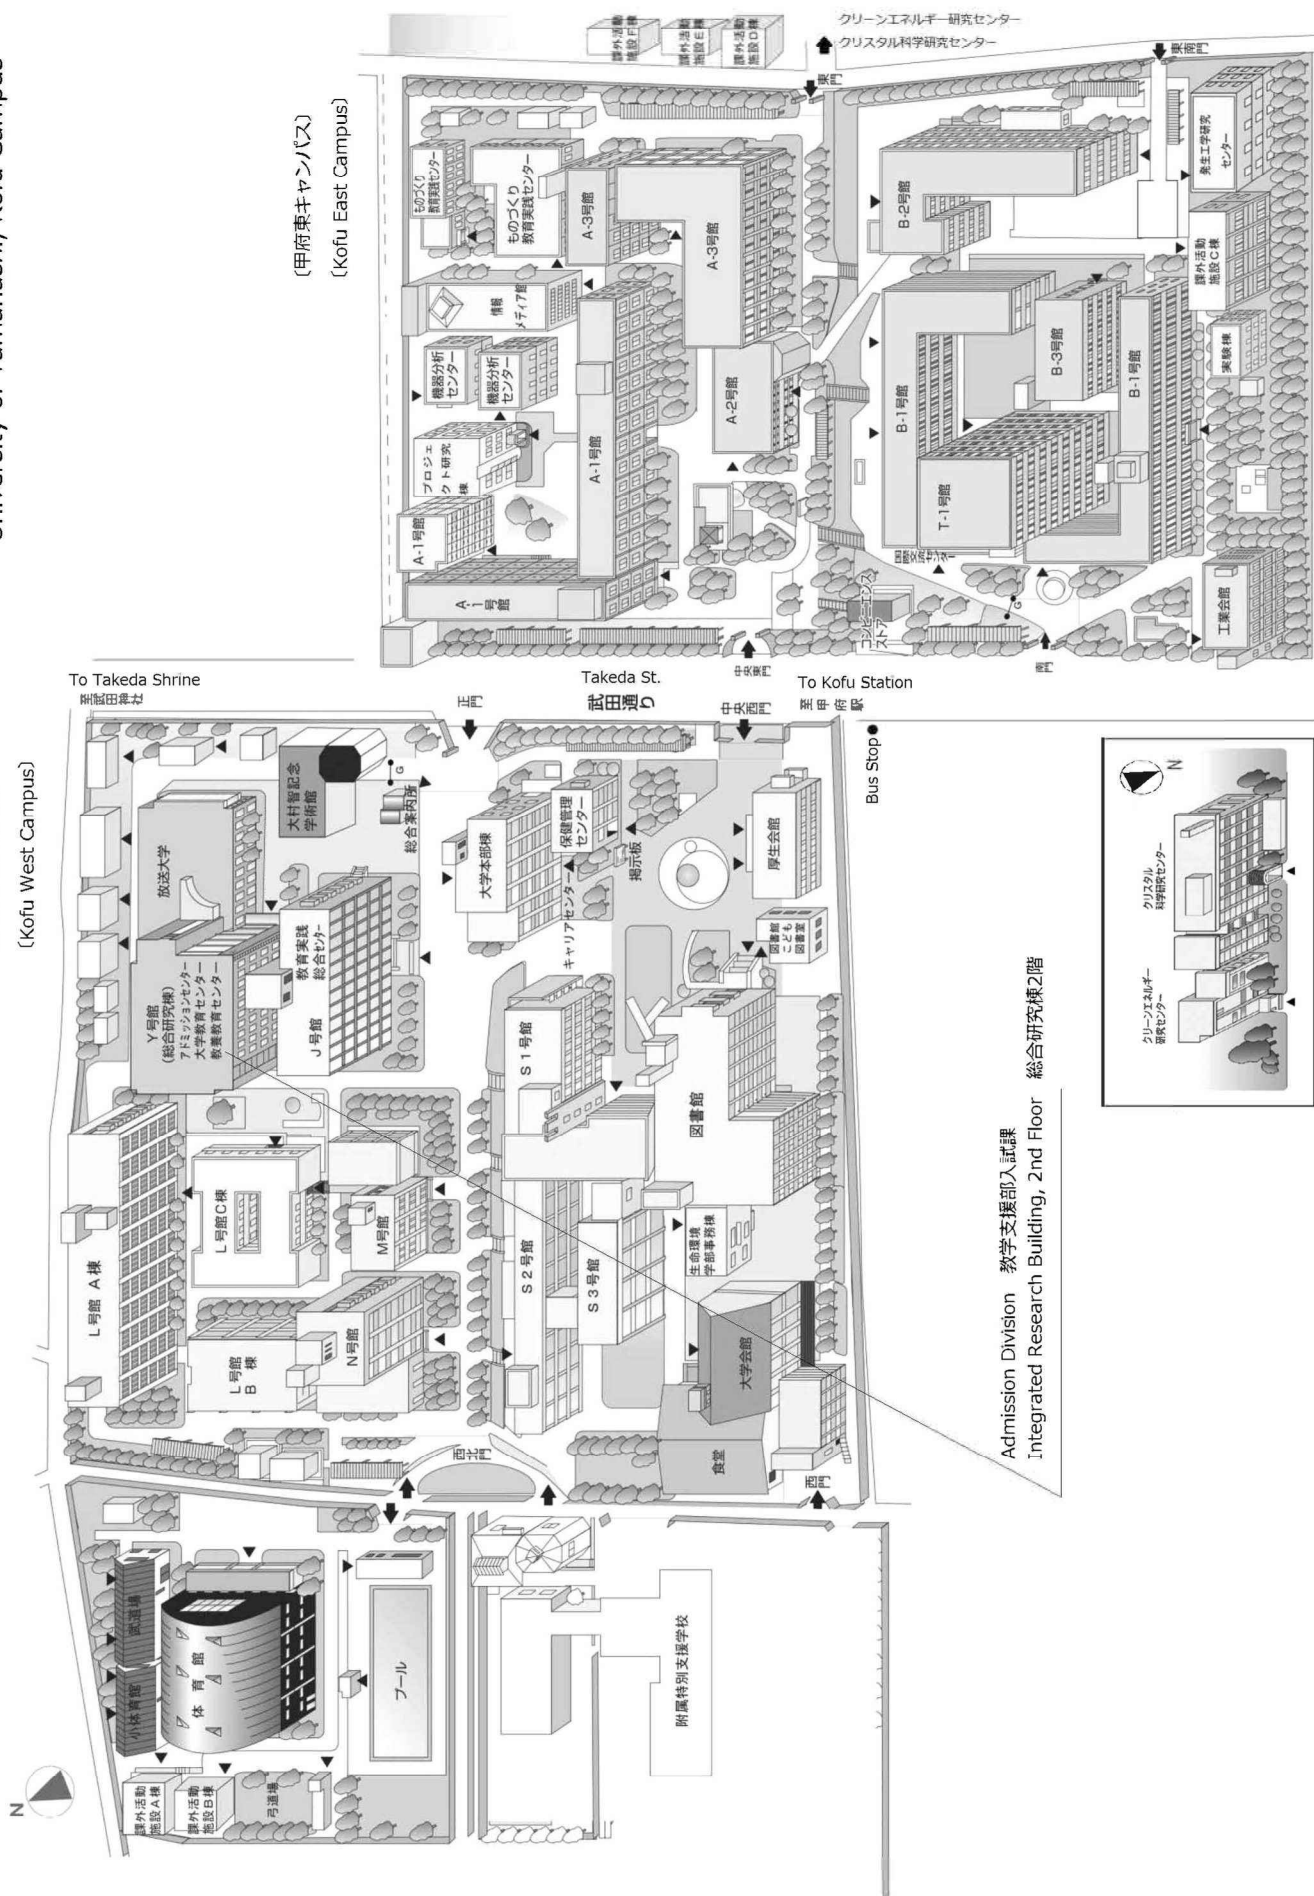

• Special Educational Program for Green Energy Conversion Science and Technology

Supervisors		Main topics of research	Leading subjects
Professor	INUKAI Junji	Analysis of surface structure and electronic state of energy conversion materials	Advanced course in materials design for fuel cells Advanced physical chemistry Advanced inorganic chemistry Advanced materials chemistry Advanced course in engineering for solar energy conversion Advanced course in polymer materials chemistry Advanced course in surface and interface science
Professor	IRIE Hiroshi	Creation and evaluation of solar energy conversion and environmental materials	
Professor	UCHIDA Makoto	Design of high-performance membrane electrode assemblies for fuel cells	
Professor	OKUZAKI Hidenori	Plastic electronics with conductive polymers	
Professor	KONDOH Eiichi	Processing and evaluation of micro- and nanomaterials	
Professor	TAKEI Takahiro	Preparation and characterization of functional organic-inorganic composites	
Professor	NOHARA Shinji	Preparation and characterization of electrode materials for supercapacitors	
Professor	MIYATAKE Kenji	Synthesis and characterization of polymer electrolyte membranes for fuel cells	
Professor	YANAGI Hiroshi	Synthesis and characterization of oxide semiconductors for solar energy conversion	
Professor	WADA Satoshi	Creation and characterization of environmentally compatible piezoelectric ceramics	
Research Professor	IYAMA Akihiro	Polymer electrolyte fuel cells for advanced vehicles	
Research Professor	KAKINUMA Katsuyoshi	Synthesis and analysis of nanomaterials for fuel cells	
Research Professor	MIYAO Toshihiro	Nanostructured catalysts for hydrogen production	
Associate professor	KUZUME Akiyoshi	Analysis of nano-interfacial electrochemistry	
Associate Professor	TAKASHIMA Toshihiro	Design of multi-electron transfer catalysts for artificial photosynthesis	
Associate Professor	MIYAKE Junpei	Design of polymer electrolytes for fuel cells	

Note: Some professors affiliated with this course are also in charge of other courses.

山梨大学 (甲府キャンパス) 建物配置図
University of Yamanashi, Kofu Campus

(甲府西キャンパス)
(Kofu West Campus)

山梨大学甲府キャンパス周辺図

University of Yamanashi, Kofu Campus Location Map

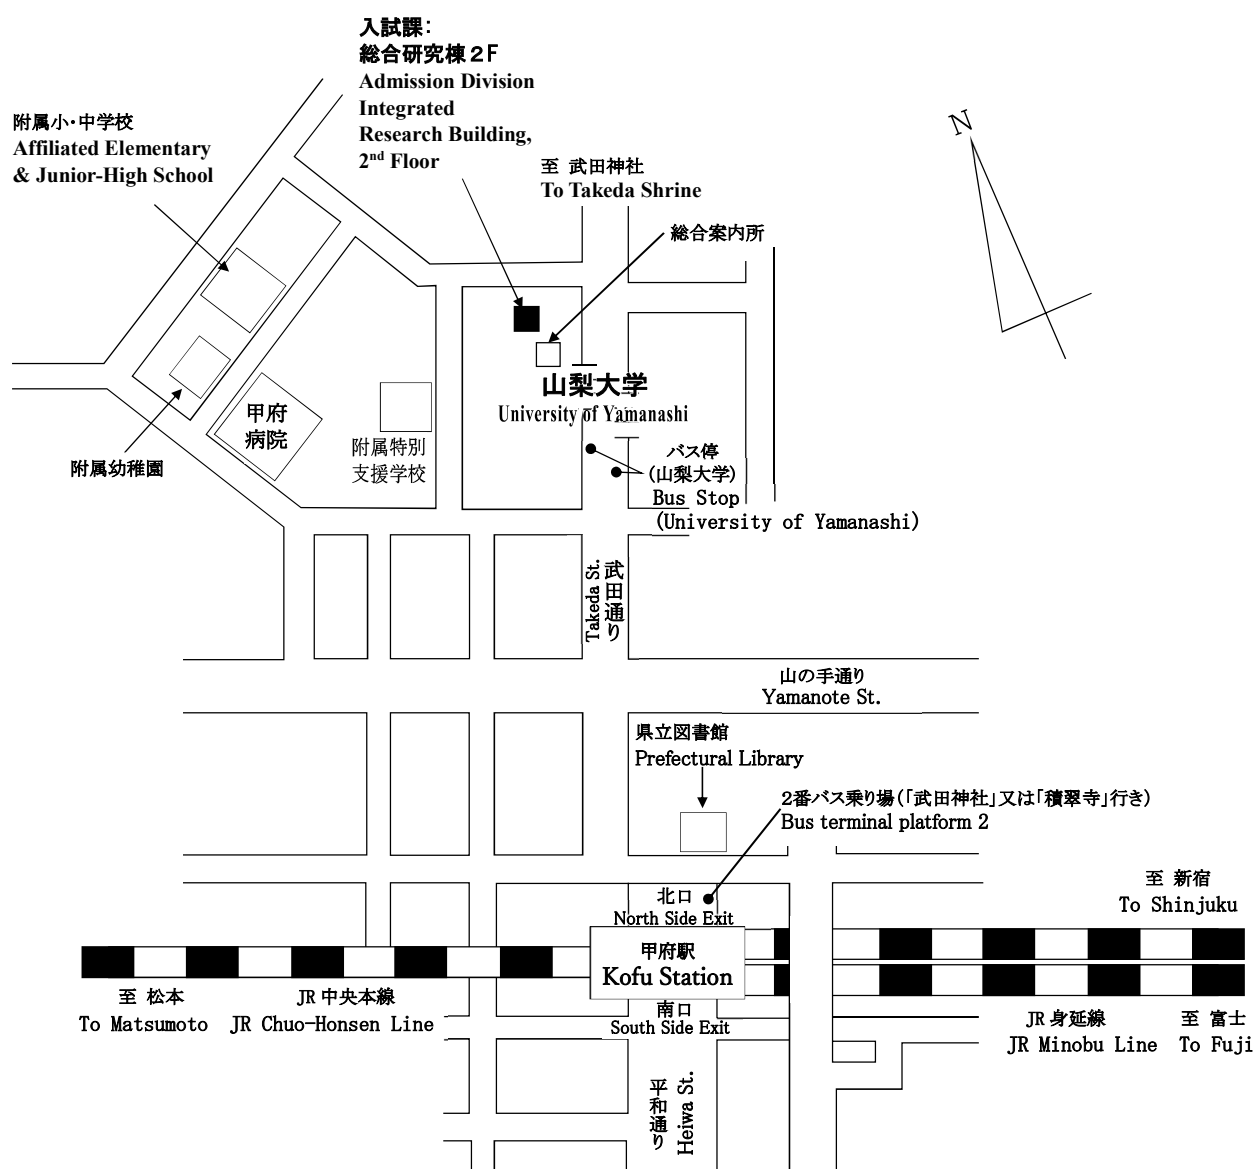

甲府駅下車、北口から徒歩約 15 分

甲府駅下車、北口からバス(「武田神社」又は「積翠寺」行き)で約5分「山梨大学」下車

Take the JR train to Kofu Station and follow the signs to the North Exit.

The campus is about a 15 minutes walk from Kofu Station.

Take the JR train to Kofu Station. From the bus terminal at the North Exit, take a bus at platform 2 bound either for “Takeda Shrine,” or “Sekisuiji Temple”. After about 5 minutes, get off at the University of Yamanashi Bus Stop.

構内には駐車場がありませんので、電車、バス等の公共交通機関を利用してください。
As there is no parking area available on the campus property, please use public transportation.

Online Application User Guide

Applicants must complete "Register the application information", "Pay the entrance examination fee" and "Print out, complete, and submit the application documents" using the online application site during the application period.

Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

STEP 1

Advance Preparation for Online Application

1. Computer, smartphone, tablet, other connected to the Internet

2. Application for displaying PDF files

"Adobe Reader" from Adobe Systems recommended.

3. Printer for printing A4-sized documents

A printer is needed to print out application documents. If you do not have a printer at home, please use a printer at a public facility, such as a school or library, or printing services at convenience stores.

4. Accessible email address

Please be sure to have an email address that can be used on a personal computer, smartphone or other device. Please change your settings to allow you to receive messages from "@yamanashi.ac.jp" so that messages from the university do not end up marked as spam.

5. Application documents to prepare in advance

You may need time to receive a certificate of (prospective) graduation, academic transcripts, grades from external English examinations, and other required documents.

Please apply early to your graduating university and each issuing institution.

Forms, such as "Statement of Purpose", can be downloaded from the university of Yamanashi's website before the application period.

6. Kakugata 2-go size envelope *Not required for overseas applicants

7. Face Photo

Please prepare a photo (JPEG) taken within the last three months, full front face, half-length without hat, plain background, full color, over 800 x 600 pixels or higher, file size is no larger than 3 MB

[Examples of Acceptable photo Images]

STEP 2

Register your E-mail address

Please access the Online Application Site (<https://syutugan.yamanashi.ac.jp>) and register your E-mail address by clicking on "New User Registration".

A message will arrive in your inbox immediately after you register, so please proceed to the next step within 30 minutes of receipt using the URL included in the message.

Online Application Site

STEP 3

Register user information *You can register anytime.

Please register your personal information (name, address, telephone number, date of birth, etc.) following the instructions on the screen.

STEP 4

Register application information *Only during application period

Please register the application information (entrance examination type, preferred course, examination subject, face photo, etc.) following the instructions on the screen.

STEP 5

Pay the entrance examination fee

Please select the payment method (① credit card, ② Convenience stores, ③ ATMs at financial institutions (Pay-easy), ④ Internet banking) from the examination fee payment site and complete the payment procedure. Depending on the method of payment other than credit cards, it may take about two hours for your payment to be confirmed. (If payment is not confirmed, the application documents cannot be printed.)

* The only payment method from the foreign countries is a credit card.

STEP 6

Print, complete and submit application documents

Click on "My Page" at the upper right side of the screen on the online application site. You can print and complete the necessary documents from "Print application documents".

Please submit your application documents after checking that all documents are in order using the "Application Documents Checklist" from the application documents print page on "My page" on the online application site.

* For details on how to submit application documents, please refer to the application guidelines.

The application process is complete after the application has been accepted.

Please wait for the Notification of printing the examination admission slip.

RESEARCH PROJECT PLAN

Course or Program		Name		Notes	
-------------------	--	------	--	-------	--

Make a Research Project Plan including figures based on this form on a computer.

[Mechanical Engineering Course]

Within four pages, describe *what you will research after enrollment* and *how much your research has prepared you and progressed*.

[Electrical and Electronic Engineering Course]

Within four pages, describe *how do you plan to proceed your research after enrollment. Support your plan with its motive, course and how is your current progress and preparation of your mentioned research*.

[Computer Science and Engineering Course]

Within four pages, describe *what kind of technics you are interested in* and *what you will research after enrollment*.

[Mechatronics Course]

Within four pages, describe *what you will research after enrollment* and *how much your research has prepared you and progressed*.

[Applied Chemistry Course]

Within two pages, describe *your present study and your research plan after enrollment*.

[Advanced Materials Science Course]

Within two pages, describe *what you hope to learn and accomplish through your research after enrollment* and *to what extent you are currently preparing for it*.

RESEARCH PROJECT PLAN

Course or Program		Name		Notes	
-------------------	--	------	--	-------	--

Make a Research Project Plan including figures based on this form on a computer.

[Electrical and Electronic Engineering Course]

Within four pages, describe *how do you plan to proceed your research after enrollment. Support your plan with its motive, course and how is your current progress and preparation of your mentioned research.*

[Computer Science and Engineering Course]

Within four pages, describe *what kind of technics you are interested in* and *what you will research after enrollment.*

[Mechatronics Course, Civil and Environmental Engineering Course, Special Educational Program on River Basin Environmental Science]

Within four pages, describe *what you will research after enrollment* and *how much your research has prepared you and progressed.*

[Applied Chemistry Course]

Within two pages, describe *your present study and your research plan after enrollment.*

[Advanced Material Science Course]

Within four pages, describe *what you hope to learn and accomplish through your research after enrollment and to what extent you are currently preparing for it.*

[Special Education Program for Green Energy Conversion Science and Technology]

Within four pages, describe *what you will research after enrollment* and *the content of your graduation work.*

2023

Examination Form for the Approval of Application RequirementsIntegrated Graduate School of Medicine, Engineering, and Agricultural Sciences
Master's Course (Department of Engineering)

		※ Examinee No.	
Name	(FAMILY)	(MIDDLE)	(FIRST)
Date of Birth	(YEAR)	(MONTH)	(DAY)
Nationality	Age:		
Classification	First Call for Application	Second Call for Application	
Selection	Admission for Applicants with Recommendation	General Admission	
Desired Course or Program			
Name of Academic Advisor			
Contact Information	Address:		
	E-mail : @		
	Phone No.	Mobile Phone No.	
University Education	(UNIVERSITY)	(DEPARTMENT)	(MAJOR)
Date of Graduation / Expected Date of Graduation	(MONTH AND YEAR)		
Desired Enrollment Date (Circle one)	First Call for Application	October 2022	April 2023
	Second Call for Application	April 2023	October 2023

[Notes for filling out the form]

1. The blank marked ※ is to be filled in by the Admission Division.
2. Please circle the appropriate Classification and Selection.
3. Please circle your desired enrollment date.

RESUME		
Section	Description	
Educational History Describe your educational history from elementary on. If you attended a university, etc., as a research student, indicate that period as well.	Primary Education (Elementary School)	Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
	Lower Secondary Education (Middle School / Junior High School)	Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
	Upper Secondary Education (Senior High School)	Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
	Tertiary (Higher) Education (University / College)	Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
		Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
		Name and Location of School
		Period required for graduation From ~ To (Month/Year) (Month/Year)
Occupational History	From To	Name of Employer, Type of Work, Position, etc.
	From To	Name of Employer, Type of Work, Position, etc.
	From To	Name of Employer, Type of Work, Position, etc.
	From To	Name of Employer, Type of Work, Position, etc.
	From To	Name of Employer, Type of Work, Position, etc.
Qualifications or Licenses	Month Year	(No.)
	Month Year	(No.)
Awards/Disciplinary Actions		(No.)

Note 1 : Please be sure to write including the expected graduation date or expected complete date in the Educational History section on the form.

Note 2 : Misrepresentation of any information submitted in the application procedure may result in rejection of the application even after the applicant has entered the university.
