

Application Guidelines for AY 2026

Integrated Graduate School of Medicine,
Engineering, and Agricultural Sciences

DOCTORAL COURSE

Department of Integrated Applied Life Science

Please note that this guideline is not for the person who are enrolled in the Master's Course at the University of Yamanashi and are expected to obtain a Master's degree in March 2026 and in September 2025.

For only those who plan to proceed to the Doctoral Course after completing the Master's Course at the University of Yamanashi should check the guideline [Admission for only those who plan to proceed to the Doctoral Course after completing the Master's Course at the University of Yamanashi]. It will be uploaded on CNS (Campus Networking System of University of Yamanashi) shortly.

For details, please contact the Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division or Educational Affairs Group, Academic Affairs Division.

UNIVERSITY OF YAMANASHI
Regional Core & Global Professionals

In the case of unforeseen circumstances (e.g., natural disasters), the admission exam may be taken place by the selection methods different from the ones described in this guideline.

If there are any changes to the announced application guidelines, the latest information will be posted on the website of the University of Yamanashi (https://www.yamanashi.ac.jp/examination_list). Please check the website at any time.

《Admission Policy》

◇Philosophy, Objectives, Educational Goals and Admission Policies at the University of Yamanashi Graduate School

[Philosophy and Objectives]

We provide educational and research opportunities designed to educate and train exceptional researchers and professionals with highly specialized knowledge and skills capable of creatively advancing academic research from an international perspective, which can be used to find solutions to problems faced by modern society and that also serves as the basis for such applied studies.

[Educational Goals]

Under the concept of “Regional Core & Global Professionals,” the University of Yamanashi Graduate School provides students with a broad education and general competencies, as well as knowledge and skills in specialized fields to shape them as professionals with a rich sense of humanity and expertise that can succeed on the international stage. The university has set out a “Diploma Policy,” “Curriculum Policy,” and “Admission Policy,” in order to enable the development of such professionals.

[Admission Policies]

The University of Yamanashi Graduate School actively seeks motivated individuals with the following abilities:

- Individuals who are intellectually curious and want to conduct their own research
- Individuals who want to acquire an even broader education and general competences, and acquire advanced specialized knowledge and practical skills.
- Individuals who possess logical intellect, a rich sense of humanity, and want to succeed as leaders in local and international society.
- Individuals who want to increase and deepen their knowledge and skills in their own professional experiences.

◇Admission Policies for Doctoral Courses in the Integrated Graduate School of Medicine, Engineering, and Agricultural Sciences

[Educational Goals]

We aim to foster capable researchers or advanced professionals who have the profound knowledge, advanced research capabilities, and high ethical standards required to conduct independent research activities as researchers or advanced professionals.

[Required Competencies and Personal Qualities]

We seek individuals with the motivation to contribute to present and future generations by promoting basic and original research.

Department of Integrated Applied Life Science

[Educational Goals]

The three courses offered in the Department of Integrated Applied Life Science (Agricultural Science Course in the field of agriculture, Biomedical Science Course in the field of medicine, and Bioengineering Course in the field of engineering) share an academic foundation in the life sciences and offer education in cooperation under the common keyword of “health.” We aim to develop highly specialized professionals and researchers capable of contributing to the development of society and the welfare of humanity by taking a panoramic view of the three fields of medicine, engineering, and agriculture, integrating and applying the knowledge and technical skills from each field to innovate technology, and discovering multiple solutions for issues related to health that have the greatest universal value for humanity.

[Required Competencies and Personal Qualities]

The three areas of agriculture, medicine, and bioengineering are based on life science as the foundation for academic research and are linked to provide education and conduct research on various issues in modern society, in particular “health,” which is the most universal issue for humanity. We seek individuals who share this philosophy and are willing to contribute to society as highly specialized professionals and researchers that have acquired the “ability to integrate” knowledge and technical expertise in medicine, engineering and agricultural science based on the latest knowledge in life science.

Agricultural Science Course

[Educational Goals]

The Agricultural Science Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, embryonic, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in both Japan and overseas in industrial fields related to food, health, and the environment with a panoramic view of the three fields of medicine, engineering, and agriculture, and insights into health-related issues. These professionals and researchers will be able to contribute to the revitalization of local industries with the knowledge and technical expertise learned in multiple disciplines related to “fermentation and food,” such as enology and viticulture, applied microbiology (ecology, research/classification, use), food sciences (analysis, processing, nutrition), and the development of plant functions, and the application of this knowledge and expertise to wine and food production, drug development, and environmental protection.

[Required Competencies and Personal Qualities]

We seek individuals who are motivated to explore the relationship between food and health and who are willing to contribute to the development of local communities and global society by expanding their knowledge and technical expertise in areas related to “fermentation and food,” such as enology and viticulture, applied microbiology (ecology, research/classification, use), food sciences (analysis, processing, nutrition), and the development of plant functions, and by applying this knowledge and expertise to food production, such as wine, drug development, and environmental protection.

[Basic Selection Policy for Applicants by Category]

In order to evaluate applicants to determine if they possess the capabilities specified in “Required Competencies and Personal Qualities” above, the selection process will be carried out as follows.

- General selection

Successful applicants will be identified on the basis of the results of an essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

- Special selection for adult students

This selection process is open to adult students (persons who work in public offices or private companies, have received a recommendation from the head of their department, and who will retain their employment status after enrollment) who possess a high level of expertise and a satisfactory level of research achievements. Successful applicants will be identified on the basis of the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master's thesis, other).

- Special selection for international students

This selection process is open to foreign nationals (international students, persons without Japanese citizenship) who possess a level of expertise and research achievements that adequately meet the requirements for doctoral students. Successful applicants will be identified on the basis of the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master's thesis, other).

Biomedical Science Course

[Educational Goals]

The Biomedical Science Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, tissue, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in medical institutions by taking a panoramic view of the three fields of medicine, engineering, and agriculture, gaining insights into health-related issues, and by acquiring advanced expertise and technical skills in academic fields, with a focus on epidemiology and neuroscience.

[Required Competencies and Personal Qualities]

We seek individuals who are motivated to explore the pathogenesis and prevention/treatment strategies of diseases and who are willing to contribute to the promotion of people's health in local communities and global society by expanding their knowledge and technical expertise in basic medicine, such as social medicine, pathological medical science, and neuroscience, with a multifaceted perspective in medicine, engineering, agriculture, and nursing that can be applied to various medical issues.

[Basic Selection Policy for Applicants by Category]

In order to evaluate applicants to determine if they possess the capabilities specified in “Required Competencies and Personal Qualities” above, the selection process will be carried out as follows.

- General selection

Successful applicants will be identified on the basis of the results of a written examination (in English), an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

- Special selection for international students

Successful applications will be identified on the basis of the results of a written examination (in English) or an external English test score, an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

Bioengineering Course

[Educational Goals]

The Bioengineering Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, embryonic, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in a wide range of bio-related industries, with particular focus on developmental engineering-related industries, such as assisted reproductive technology and regenerative medicine, by deepening their expertise with the acquisition of knowledge and technical skills in advanced bioengineering, including academic fields focusing on developmental engineering and related disciplines, and by taking a panoramic view of the three fields of medicine, engineering, and agriculture, as well as insights into health-related issues.

[Required Competencies and Personal Qualities]

We seek individuals who are motivated to explore life at the molecular, cellular, embryonic, and individual level and who are willing to contribute to the development of local communities and global society by deepening their knowledge and technical expertise in advanced bioengineering, such as developmental engineering, and by applying this to industries and related research areas, such as bio-related fields, especially reproductive medicine, regenerative medicine, and livestock.

[Basic Selection Policy for Applicants by Category]

In order to evaluate applicants to determine if they possess the capabilities specified in “Required Competencies and Personal Qualities” above, the selection process will be carried out as follows.

- General selection

Successful applicants will be identified on the basis of the results of an essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

- Special selection for adult students

This selection process is open to adult students (persons who work in public offices or private companies, have received a recommendation from the head of their department, and who will retain their employment status after enrollment) who possess a high level of expertise and a satisfactory level of research achievements. Successful applicants will be identified on the basis of the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master’s thesis, other).

- Special selection for international students

This selection process is open to foreign nationals (international students, persons without Japanese citizenship) who possess a level of expertise and research achievements that adequately meet the requirements for doctoral students. Successful applicants will be identified on the basis of the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master’s thesis, other).

Office hours : Weekdays (Mon-Fri) Between 8:30 am to 12:00 (noon) and 1:00 pm to 5:15 pm

* Excluding Saturdays, Sundays, public holidays, summer holidays (August 14 to 18) and New Year holidays (December 29 to January 3).

Online Application User Guide

Applicants must complete "Register the Application Information", "Pay the Examination Fee" and "Submit the Application Documents" using the online application site during the application period.
Please note that we cannot accept the application if any one of these procedures has not been completed by the application deadline.

① Advance Preparation for Online Application

- Computer, Smartphone, Tablet, other Connected to the Internet
- Application for Displaying PDF files ("Adobe Acrobat Reader" from Adobe Systems recommended.)
- Printer for Printing A4-sized Documents

A printer is needed to print out application documents. If you do not have a printer at home, please use a printer at a public facility, such as a school or library, or printing services at convenience stores.

- Accessible E-mail Address

Please change your settings to allow you to receive messages from "@yamanashi.ac.jp".

- Application Documents
- Kakugata 2-gou size Envelope *Not required for overseas applicants.
- Photo Data (Face Photo)

It will be used for identification on the examination.

Please prepare an unprocessed photo except for light and dark.

Please prepare a photograph taken while wearing glasses, if you will be wearing glasses during the examination.

- The photo must be taken within 3 months to the examination date by a single person.
- Photographs taken with a photo machine (that can download photo data) or digital camera, smartphone, tablet.
- The ratio of the face to the entire photo should be about the same as the dotted line in the example above on the top, bottom, left and right.
- Full color, front-facing, upper torso, without hat, no background, without frame.
- The image ratio is 4:3 (L:W) (over 800 pixels L x 600 pixels W). The file size is no larger than 3 MB.
- The file format is "JPEG". (Filename extension is jpg.)

Examples of photo Images

② Register your E-mail Address

Please access the Online Application Site (<https://syutugan.yamanashi.ac.jp>) and register your E-mail address by clicking on "New User Registration".

A message will arrive in your inbox after you register, so please proceed to the next step within 30 minutes of receipt using the URL included in the message.

③ Register User Information *You can register anytime.

Please register your personal information (name, address, telephone number, date of birth, etc.) following the instructions on the screen.

Please register an address, telephone number, e-mail address where you can receive notices from the University of Yamanashi from the application procedure to the completion of entrance procedures.

Please notify the Admission Division, Academic Affairs Support Department promptly if there are any changes to your contact information.

④ Register Application Information *Only during application period

Please register the application information following the instructions on the screen.

Online Application Site > My Page > Apply

⑤ Payment of the Examination Fee

Please proceed payment of the entrance examination fee following the instructions on the screen.

Online Application Site > My Page > Payment

⑥ Submit Application Documents

After the necessary documents have been made and printed, please submit to Admission Division, Academic Affairs Support Department. For details on how to submit, please refer to the application guidelines.

⑦ Acceptance of Application

The application process is complete after the application has been accepted.

Please wait for the Notification of printing the examination admission slip. (Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays))

Overview

First Call for Application

Category Item		General Selection	Special Selection for Adult Students *1	Special Selection for International Students
Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.				
Screening for Approval of Application Eligibility		Applicants may be required to undergo screening prior to applying depending on eligibility requirements. Please refer to “6. Screening and Certification of Qualification for Applicants” under Common Matters (First Call for Application) on page 19 to 20 in these guidelines.		
Application Period		June 30 (Mon) to July 7 (Mon), 2025 Until 4:30 pm (Applications must be received during this period) Applicants must register their information to apply online, pay the examination fees, and submit application documents during the application period.		
Examination Date	Agricultural Science Course Biomedical Science Course Bioengineering Course	July 16 (Wed), 2025		
Examination Result Announcement		July 25 (Fri), 2025 around 4:00 pm		

Second Call for Application *2

Category Item		General Selection	Special Selection for Adult Students *1	Special Selection for International Students
Before applying, be sure to contact the academic advisor of your preference and please consult your research plan and other details.				
Screening of Qualification for Applicants		Applicants may be required to undergo screening prior to applying depending on eligibility requirements. Please refer to “6. Screening and Certification of Qualification for Applicants” under Common Matters (Second Call for Application) on page 40 to 41 in these guidelines.		
Application Period		October 15 (Wed) to October 21 (Tue), 2025 Until 4:30 pm (Applications must be received during this period) Applicants must register their information to apply online, pay the examination fees, and submit application documents during the application period.		
Examination Date	Agricultural Science Course Bioengineering Course	November 12 (Wed), 2025		
	Biomedical Science Course	November 13 (Thu), 2025		
Examination Result Announcement		December 5 (Fri), 2025 around 4:00 pm		

*1 Special selection for adult students is only offered in the Agricultural Science Course and Bioengineering Course.

*2 The Biomedical Science Course will only be offered if spaces are still available after the first call for applications.

*3 All times shown in this application guidelines are Japan Standard Time.

Application Guidelines for General Selection

1. Capacity

Course Name	Capacity
Agricultural Science Course	2
Biomedical Science Course	6
Bioengineering Course	2

2. Qualification for Applicants

Applicants must meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, Paragraph 1 of the School Education Act (hereinafter referred to as "professional degree"), or a person who is expected to receive a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree, or a person who is expected to receive a degree equivalent to a Master's degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and had been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989).
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

[Note 1] Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

[Note 2] A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to "6. Screening and Certification of Qualification for Applicants" under Common Matters (First Call for Application) on page 19 to 20 in these guidelines.

Applicants for the Biomedical Science Course who are research students (government-financed, government-sponsored or privately-funded) may be exempted from this prequalification screening process.

Please check with the following section by May 23 (Fri), 2025.

- Agricultural Science Course and Bioengineering Course:
Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
Tel: 055-220-8807 (from abroad: +81-55-220-8807)
- Biomedical Science Course:
Graduate School Section, Educational Affairs Group, Academic Affairs Division
Tel: 055-273-9627 (from abroad: +81-55-273-9627)

3. Application Procedure

[Important] International student applicants

International student applicants should consult with their preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the "Online Application User Guide" on the page following the table of contents.

(2) Application period

June 30 (Mon) to July 7 (Mon), 2025, Until 4:30 pm **[Must arrive during the application period]**

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site to complete payment.
(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking
- Applicants are responsible for transaction fees for all payment methods.
- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**
(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)
- **Credit cards are the only acceptable form of payment for applications from overseas.**
- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**
- Japanese Government (MEXT) Scholarship Students are not required to pay the Examination Fee.
Once the MEXT scholarship results are announced, we will contact you with the examination fee waiver code through your preferred academic advisor. If you enrolled as a Japanese Government (MEXT) Scholarship Student at another university, please send the "Certificate of MEXT Scholarship Student" issued by that university as a PDF file to the Admission Division by email (nyushi@yamanashi.ac.jp).

[Exemption from Examination Fee]

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university's website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Individuals who have been recommended by this university for a Japanese government (MEXT) scholarship can submit copies of documents No.1 and 2.
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion (Expected Completion) * Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 2 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on page 2 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (1) to (6) on page 2 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on page 2 should submit academic transcripts from your graduating university's school or department.
3	Personal Resume	Please print and submit a "Personal Resume" from the application documents print page on "My Page" on the online application site.
4	Master's Degree Thesis, other	<ul style="list-style-type: none"> • Applicants who have a Master's degree should submit a copy or summary (about 2,000 Japanese characters (500 words in English)) of the dissertation. Applicants who have undergone an examination of the research outcomes on a particular subject should submit a summary of the research outcomes (2,000 Japanese characters (500 words in English)) or the equivalent. • Applicants other than those listed above should download and complete the "List of Research Achievements (Form 1*)" from the University of Yamanashi website. Please submit the form with documents certifying the contents described in the "List of Research Achievements (Form 1*)" (documents such as academic papers, research reports, patents, books, etc. Please submit no more than 10 selected publications.) If an applicant has no research achievements but is currently writing a Master's thesis, they should submit a summary of their Master's thesis when applying (approximately 2,000 characters (500 words in English)).
5	Research Project Plan	Please download and complete the "Research Project Plan (Form 2*)" from the university's website.

6	Letter of Approval * Only if applying to the Biomedical Science Course	Individuals who are employed when applying to the course should download the "Letter of Approval (Form 3*)" from the university's website and submit it with the approval of the head of the institution where you are employed (e.g., hospital director if employed there). If your place of work changes between the time you submit your application and enroll, please contact the Academic Affairs Division. (Tel: 055-273-9627, from abroad: +81-55-273-9627)
7	Resident Record, other * To be submitted by non-Japanese applicants only	<ul style="list-style-type: none"> Applicants residing in Japan Please submit the resident record (with your nationality, with the status of residence and period of stay clearly indicated) or a double-sided copy of the residence card issued by the head of the municipality where you reside. Applicants residing overseas Please submit a copy of your passport (page displaying a photo of your face).
8	Extract of family register * Only if applicable	Please submit this document if the applicant's name is different on each certificate or document as a result of a name change.

* Forms 1 to 3 can be downloaded from the university's website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the "Application Documents Checklist" (no submission required) on the application documents print page from "My Page" on the online application site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on "My Page" on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (First Call for Application) on pages 21 to 22 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Tel: 055-220-8046 (from abroad: +81-55-220-8046) Email: nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)

Printing period : From the date of receipt of the notification to March 31, 2026

How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method**<Agricultural Science Course>**

Successful applicants will be chosen based on an overall assessment including the results of a short essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	9:00 am – 10:00 am	Short essay
	10:15 am –	Oral examination

(Notes) Applicants will be permitted to take the short essay part of the examination only if they arrive within 30 minutes after it begins. Please note that the examination will still end at the scheduled time.

<Biomedical Science Course>

Successful applicants will be chosen based on an overall assessment including the results of a written examination (in English), an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	10:00 am – 12:00 (noon)	English (written examination)
	1:00 pm –	Oral examination

- (Notes) 1. Dictionaries may be used for the written English examination (except for electronic devices).
2. If applicants are late to the written English examination, they will be permitted to take the examination only if they arrive within 30 minutes from the start of the exam. Please note that the examination will still end at the scheduled time.

<Bioengineering Course>

Successful applicants will be chosen based on an overall assessment including the results of a short essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	9:00 am – 10:00 am	Short essay
	10:15 am –	Oral examination

(Notes) Applicants will be permitted to take the short essay part of the examination only if you arrive within 30 minutes after it begins. Please note that the examination will still end at the scheduled time.

6. Location of Examination

- **Agricultural Science Course and Bioengineering Course**

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

- **Biomedical Science Course**

Educational Research Building for School of Nursing, Faculty of Medicine Campus, University of Yamanashi

* Please check in at the entrance at least 10 minutes before the examination starts.

Application Guidelines for Special Selection of Adult Students

We aim to further deepen exchange between universities and society in terms of education and research by accepting adult students who are currently engaged in research and development at various research institutes and companies to graduate school as they continue to remain employed. With this intent, we make the special selection of adult students with a high level of expertise and substantial achievements in research.

1. Capacity

Course Name	Capacity
Agricultural Science Course	Several (not specified)
Bioengineering Course	Several (not specified)

2. Qualification for Applicants

Applicants must work for a government agency or company, be recommended by the head of their department, maintain their position even after the admission, and meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, paragraph 1 of the School Education Act (hereinafter referred to as "professional degree").
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries.
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree.
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree.
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree.
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and has been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989)
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after completing 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

【Note 1】 Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

【Note 2】 A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to “6. Screening and Certification of Qualification for Applicants” under Common Matters (First Call for Application) on pages 19 to 20 in these guidelines.

3. Application Procedure

【Important】 International student applicants

International student applicants should consult with their preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the “Online Application User Guide” on the page following the table of contents.

(2) Application period

June 30 (Mon) to July 7 (Mon), 2025, Until 4:30 pm **【Must arrive during the application period】**

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site.
(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking
- Applicants are responsible for transaction fees for all payment methods.
- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**
(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)
- **Credit cards are the only acceptable form of payment for applications from overseas.**
- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**

【Exemption from Examination Fee】

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university’s website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department before the start of the application period.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion *Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 8 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on page 8 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority of your graduating university. • Applicants applying under qualifications for applicants (1) to (6) on page 8 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on page 8 should submit academic transcripts from your graduating university's school or department.
3	Personal Resume	Please print and submit a "Personal Resume" from the application documents print page on "My Page" on the online application site.
4	Documents Certifying Research Achievements	Applicants should download and complete the "List of Research Achievements (Form 1*)" from the university's website. Please submit the form with documents certifying the contents described in the list (documents such as academic papers, research reports, patents, books, Master's thesis, etc. Please submit no more than 10 selected publications.)
5	Research Project Plan	Please download and complete the "Research Project Plan (Form 2*)" from the university's website.
6	Letter of Approval	Please download the "Letter of Approval (Form 3*)" from the university's website and submit it with the approval of the head of the institution where you are employed.
7	Resident Record, other * To be submitted by non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants residing in Japan Please submit the resident record (with your nationality, status of residence and period of stay clearly indicated) or a double-sided copy of the residence card issued by the head of the municipality where you reside. • Applicants residing overseas Please submit a copy of your passport (page displaying a photo of your face).
8	Extract of family register * Only if applicable	Please submit this document if the applicant's name is different on each certificate or document as a result of a name change.

* Forms 1 to 3 can be downloaded from the university's website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the "Application Documents Checklist" (no submission required) on the application documents print page from "My Page" on the online application

site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on "My Page" on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (First Call for Application) on pages 21 to 22 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Tel : 055-220-8046 (from abroad: +81-55-220-8046) Email : nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)

Printing period : From the date of receipt of the notification to March 31, 2026

How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method

Successful applicants will be chosen based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university, etc. and research output (academic papers, research reports, patents, books, Master's thesis, etc.).

During the oral examination, the applicant will be asked questions about their research achievement in their duties as professionals and their research plan for the doctoral course.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	9:00 am –	Oral examination

6. Location of Examination

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

Application Guidelines for Special Selection of International Students

We aim to further raise the level of internationalization and international academic cooperation in studies by actively accepting international students (individuals who intend to enter Japan or have already entered Japan for the purpose of studying in doctoral courses). With this intent, we make the special selection of international students who have expertise and research achievements that are at a level appropriate to that of doctoral students.

1. Capacity

Course Name	Capacity
Agricultural Science Course	Several (not specified)
Biomedical Science Course	Several (not specified)
Bioengineering Course	Several (not specified)

2. Qualification for Applicants

Applicants must not have Japanese nationality and meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, Paragraph 1 of the School Education Act (hereinafter referred to as "professional degree"), or a person who is expected to receive a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree, or a person who is expected to receive a degree equivalent to a Master's degree by March 2026 (or September 2025 for a person who wants to enter the course from October 2025).
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and had been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989).
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.

- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

[Note 1] Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

[Note 2] A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to "6. Screening and Certification of Qualification for Applicants" under Common Matters (First Call for Application) on page 19 to 20 in these guidelines.

Applicants for the Biomedical Science Course who are research students (government-financed, government-sponsored or privately-funded) may be exempted from this prequalification screening process. Please contact the following section by May 23 (Fri), 2025.

- Agricultural Science Course and Bioengineering Course:
Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
Tel: 055-220-8807 (from abroad: +81-55-220-8807)
- Biomedical Science Course:
Graduate School Section, Educational Affairs Group, Academic Affairs Division
Tel: 055-273-9627 (from abroad: +81-55-273-9627)

3. Application Procedure

[Important] Please consult with your preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the "Online Application User Guide" on the page following the table of contents.

(2) Application period

June 30 (Mon) to July 7 (Mon), 2025, Until 4:30 pm [Must arrive during the application period]

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site.
(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking
- Applicants are responsible for transaction fees for all payment methods.
- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**
(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)
- **Credit cards are the only acceptable form of payment for applications from overseas.**
- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**
- Japanese Government (MEXT) Scholarship Students are not required to pay the Examination Fee.
Once the MEXT scholarship results are announced, we will contact you with the examination fee waiver code through your preferred academic advisor. If you enrolled as a Japanese Government (MEXT) Scholarship Student at another university, please send the "Certificate of MEXT Scholarship Student" issued by that university as a PDF file to the Admission Division by email (nyushi@yamanashi.ac.jp).

【Exemption from Examination Fee】

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university's website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Individuals who have been recommended by the university for a Japanese government (MEXT) scholarship can submit copies of documents No.1 and 2.
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion (Expected Completion) * Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 13 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on page 13 to 14 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (1) to (6) on page 13 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on page 13 to 14 should academic submit transcripts from your graduating university's school or department.

* Forms 1, 2 and 4 can be downloaded from the university’s website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the “Application Documents Checklist” (no submission required) on the application documents print page from “My Page” on the online application site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on “My Page” on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (First Call for Application) on pages 21 to 22 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)
4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan
Tel : 055-220-8046 (from abroad: +81-55-220-8046) Email : nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)
Printing period : From the date of receipt of the notification to March 31, 2026
How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method

<Agricultural Science Course>

Successful applicants will be chosen based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university, etc. and research output (academic papers, research reports, patents, books, Master's thesis, etc.).

In this application process, preliminary interviews will be conducted with prospective applicants who can submit a letter of recommendation from their academic advisor at their graduating university or supervisor. Applicants who have been through the process of a preliminary interview may be exempt from the oral examination. Applicants will be informed of the location, date, time, method and documents required for this fiscal year's preliminary interview process at a preliminary meeting with their preferred academic advisor.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	1:10 pm –	Oral examination

(Note) Applicants will be permitted to take the examination only if they arrive within 30 minutes after it begins.

<Biomedical Science Course>

Successful applicants will be selected based on an overall assessment including the results of a written examination (in English) or an external English test score, an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

Additionally, applicants who live or are in residence for an extended period of time abroad may submit an external English test score and take the oral examination (online). Applicants who are interested in this option should contact the Academic Affairs Section for the Biomedical Science Course by June 23 (Mon), 2024.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	10:00 am – 12:00 (noon)	English (written examination)
	1:00 pm –	Oral examination

(Notes) 1. Dictionaries may be used for the written English examination (except for electronic devices).

2. If applicants are late to the written English examination, they will be permitted to take the examination only if they arrive within 30 minutes from the start of the exam. Please note that the ending time for the examination will not change.

<Bioengineering Course>

Successful applicants will be selected based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master's thesis, other).

In this application process, preliminary interviews will be conducted with prospective applicants who can submit a letter of recommendation from their academic advisor at their graduating university or supervisor. Applicants who have been through the process of a preliminary interview may be exempt from the oral examination. Applicants will be informed of the location, date, time, method and documents required for this fiscal year's preliminary interview process at a preliminary meeting with their preferred academic advisor.

Examination schedule

Date & Time		Type of Examination
July 16 (Wed), 2025	1:10 pm –	Oral examination

(Note) Applicants will be permitted to take the examination only if they arrive within 30 minutes after it begins.

6. Location of Examination

• Agricultural Science Course and Bioengineering Course

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

• Biomedical Science Course

Educational Research Building for School of Nursing, Faculty of Medicine Campus, University of Yamanashi

* Please check in at the entrance at least 10 minutes before the examination starts.

Common Matters (First Call for Application)

1. Examination Result Announcement

Date and Time : **July 25 (Fri), 2025** around 4:00 pm

- The examinee numbers of successful applicants will be posted on the university's website (https://www.yamanashi.ac.jp/examination_list).
- The university will not accept inquiries by telephone or other means about the results of the examination.
- The university will send a notification of acceptance to successful applicants on the day that the results are announced. A notification of acceptance will include the name registered on the Online Application Site.

2. Admission Period

- Applicants may select their preferred date of admission. Please select your preferred date of admission from either October 2025 (second semester) or April 2026 (first semester) when you submit your application online.
- Please note that changes cannot be made to your selected date of admission once the application has been accepted.
- If you have any questions about admission procedures for October (second semester), please contact the Admission Division, Academic Affairs Support Department.

3. Admission Procedures

(1) Admission procedure period

Admission Period	Course	Admission Procedure Period
Admission in October 2025	Agricultural Science Course, Bioengineering Course	September 12 (Fri), 2025
	Biomedical Science Course	August 18 (Mon) to August 20 (Wed), 2025
Admission in April 2026	Agricultural Science Course, Bioengineering Course	March 7 (Sat) to March 15 (Sun), 2026
	Biomedical Science Course	August 18 (Mon) to August 20 (Wed), 2025

【Points to Note】

- Details on enrollment procedures will be notified separately. (For successful applicants in the Biomedical Science Course, documents will be sent with a letter of acceptance.)
- Applicants who fail to complete the admission procedures by the abovementioned deadline will be assumed to have decided against entering this university and your admission will be cancelled.

(2) Payment for admission

The admission fee is ¥282,000.

- This is the estimated fee and is subject to change.
- Admission fees that have been paid will not be refunded for any reason.

4. Tuition Fees

Students enrolling in October 2025: ¥267,900 (second semester)

Students enrolling in April 2026: ¥267,900 (first semester), ¥535,800 (both semesters)

- This is the estimated fee and is subject to change.
- In principle, tuition fees will be withdrawn from the student's account. Information about procedures will be made available later.

5. Other Expenses

Other fees such as for Personal Accidents Insurance for Students Pursuing Education and Research are required.

6. Screening and Certification of Qualification for Applicants

Applicants applying for admission under qualifications (2), (3), (7) or (8) in 2. Qualification for Applicants in these

guidelines should submit the required documents for the prequalification screening to the Admission Division, Academic Affairs Support Department during the application period.

Applicants should contact their preferred academic advisor to discuss their research plan in detail before submitting their application.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 “Research Areas and Faculty Members” (on pages 49 to 50 in these guidelines).

(1) Submission documents

- (a) Form for the Approval of Application Requirements (Form 6 (Japanese students), Form 9 (International students))
- (b) Certificate of Graduation/Expected Graduation
- (c) Academic Transcript
- (d) Certificate of work period and work contents (Form 7) *To be submitted by applicants with work experience. This form does not need to be submitted by International students.
- (e) Certificate for research students *To be submitted by applicants who have experience as research students at university.
- (f) List of Research Achievements (Form 1) *To be submitted by applicants with research achievements
- (g) Documents certifying the contents of research achievements included in the List of Research Achievements (Form 1) (documents such as reprints of academic papers, books, society meeting programs, etc. (Copies will be accepted.))
- (h) External English test score *To be submitted by applicants for Special Selection Process for International Students for the Biomedical Science Course only
- (i) Extract of family register *To be submitted by applicants with a different name listed on each certificate or document because of a name change
- (j) Copy of resident record or residence card (for applicants residing in Japan) or copy of passport (for applicants residing overseas) *To be submitted by International students only
- (k) Checklist of documents to be submitted for approval of eligibility (Form 5 (Japanese students), Form 8 (International students))

* Please download all forms from the university's website (<https://www.yamanashi.ac.jp/admission/45>).

(2) Application period:

Until May 30 (Fri), 2025 4:30 pm [Must arrive during the application period]

(3) Submission methods

(a) Applicants residing in Japan

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send all required documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

(4) Points to Note

- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate (completion) of graduation and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- After the application documents have been received, no changes to the content of the application will be accepted. Application documents will not be returned.

(5) Address for submission of application documents and inquiries

Admissions Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)
4-4-37, Takeda, Kofu City, 400-8510 Japan

(6) Applicants will be notified by June 20 (Fri), 2025 about the results of the screening.

7. Preliminary Consultation for Applicants with Disabilities

If you are applying to our university and require special accommodations for the entrance examination due to illness, injury, or disability, please consult with us before submitting your application.

For consultation methods and other details, please refer to the University of Yamanashi's website (<https://www.yamanashi.ac.jp/examination/3794>).

Consultation period : Until May 30 (Fri), 2025

* Some types of consultations may require additional time to consider, so we encourage you to contact us as soon as possible. Please note that we may not be able to accommodate all requests.

* We will accept requests even after the consultation period has ended, but depending on the nature of the inquiry, we may not be able to respond before the deadline or to accommodate the request.

The university has set up an Accessibility & Communication Support Office (AC Office) to support students with disabilities. The AC Office handles consultation inquiries from applicants who want to request academic accommodations after enrollment.

8. Handling Personal Information

The university will handle personal information from applicants as follows based on the "Act on the Protection of Personal Information" and the "Regulations on the Protection of Personal Information of the University of Yamanashi University."

- (1) Personal information obtained during the selection process will be used for the following purposes: (a) selecting applicants (processing and selection of applications), (b) announcing examination results, (c) implementing admission procedures, (d) conducting statistical studies, (e) analyzing application trends and future admission methods, research and analysis on improving university education, (f) organizing education and events for successful applicants prior to admission, and (g) security export control (for international students only). When the results of this research and analysis are published, the data will be processed so that individuals cannot be identified.
- (2) Personal information of enrollees obtained in applications will be used for the following: (a) Academic affairs (student registration, instruction and guidance, etc.), (b) student support (health care, employment support, tuition waivers, scholarship applications, etc.), and (c) collecting tuition.
- (3) Please note that in the execution of the above, some tasks may be outsourced to a contractor that has been contracted by the university to carry out these tasks (hereinafter referred to as "contractor"). In this case, the contractor may be provided with all or part of the personal information we have obtained to the extent that it is required to carry out the contracted work.
- (4) In order to protect personal data and private information, the personal information acquired in the process of selection, whether in the form of documents in which it is contained or in data itself, will be kept strictly confidential and will not be used for any purpose other than those described above. Personal information will not be disclosed to third parties, except as required by law.

9. Infectious Disease Control Measures for Entrance Examinations

If an applicant has contracted and not recovered from an infectious disease (COVID-19, influenza, measles, chicken pox, etc.) on the day of the entrance exam for the university for which a mandatory suspension period has been stipulated by the School Health and Safety Act, the applicant will not be permitted to take the examination due to the risk of infecting other examinees or test proctors.

In the event that an applicant is unable to take the exam, the university will be unable to implement special measures, including allowing the applicant to retake the examination or take the exam in a separate room, and cannot refund the entrance examination fee. Please stay healthy so that you are well-prepared for the day of the examination.

10. Submission of Original Application Documents

Successful applicants who have submitted application documents as electronic files (PDFs) must submit the original documents after enrollment.

If any information in the PDF document data is found to have been falsified or misrepresented, the applicant's offer of enrollment will be canceled.

Documents for submission : Originals of documents for qualification screening and application

Place of submission : Agricultural Science Course and Bioengineering Course

Office of the Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
(1F, Faculty of Life and Environmental Sciences offices, Kofu West Campus)
(Weekdays (Mon-Fri) Between 8:30 am and 5:15 pm (closed 12:00 (noon) -1:00 pm)

Biomedical Science Course

Office of the Educational Affairs Group, Academic Affairs Division

(1F, Administration Building, Medical Campus)

(Weekdays (Mon-Fri) Between 8:30 am and 5:15 pm (closed 12:00 (noon) -1:00 pm)

Date of submission : Within one week of arriving on campus (strictly enforced)

11. Security Export Control

The University of Yamanashi has established "Security Export Control Regulations" in accordance with the "Foreign Exchange and Foreign Trade Act" and carries out strict screening when accepting international students. If an applicant falls under any of the restrictions described, they may not be able to receive the desired level of education or conduct research.

12. Other

- (1) Please enter an address, telephone number and email address in the contact information section on the online application site where you can reliably receive information and notifications from the university from the time you apply until the process is complete. Please contact the Admission Division, Academic Affairs Support Department if there are any changes to your contact information after you have submitted your application.
- (2) Applicants wishing to obtain a scholarship should contact the following after the examination result announcement.
 - Agricultural Science Course and Bioengineering Course
Student Supporting Division, Academic Affairs Support Department, Tel: 055-220-8053 (from abroad: +81-55-220-8053)
 - Biomedical Science Course
Students Group, Academic Affairs Division Tel: 055-273-9346 (from abroad: +81-55-273-9346)

Application Guidelines for General Selection

1. Capacity

Course Name	Capacity
Agricultural Science Course	Several (not specified)
Biomedical Science Course*	Several (not specified)
Bioengineering Course	Several (not specified)

* The Biomedical Science Course will only be offered if spaces are still available after the first call for applications.

2. Qualification for Applicants

Applicants must meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, Paragraph 1 of the School Education Act (hereinafter referred to as "professional degree"), or a person who is expected to receive a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree, or a person who is expected to receive a degree equivalent to a Master's degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and had been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989).
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

[Note 1] Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

[Note 2] A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to "6. Screening and Certification of Qualification for Applicants" under Common Matters (Second Call for Application) on pages 40 to 41 in these guidelines.

Applicants for the Biomedical Science Course who are research students (government-financed, government-sponsored or privately-funded) may be exempted from this prequalification screening process.

Please contact the following section by September 19 (Fri), 2025.

- Agricultural Science Course and Bioengineering Course:
Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
Tel: 055-220-8807 (from abroad: +81-55-220-8807)
- Biomedical Science Course:
Graduate School Section, Educational Affairs Group, Academic Affairs Division
Tel: 055-273-9627 (from abroad: +81-55-273-9627)

3. Application Procedure

[Important] International applicants

International applicants should consult with their preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the "Online Application User Guide" on the page following the table of contents.

(2) Application period

October 15 (Wed) to October 21 (Tue), 2025, Until 4:30 pm **[Must arrive during the application period]**

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site to complete payment.

(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking

- Applicants are responsible for transaction fees for all payment methods.

- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**

(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)

- **Credit cards are the only acceptable form of payment for applications from overseas.**

- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**

- Japanese Government (MEXT) Scholarship Students are not required to pay the Examination Fee.

Once the MEXT scholarship results are announced, we will contact you with the examination fee waiver code through your preferred academic advisor. If you enrolled as a Japanese Government (MEXT) Scholarship Student at another university, please send the "Certificate of MEXT Scholarship Student" issued by that university as a PDF file to the Admission Division by email (nyushi@yamanashi.ac.jp).

[Exemption from Examination Fee]

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university's website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Individuals who have been recommended by the university for a Japanese government (MEXT) scholarship can submit copies of documents No.1 and 2.
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion (Expected Completion) * Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 23 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on page 23 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (1) to (6) on page 23 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on page 23 should submit academic transcripts from your graduating university's school or department.
3	Personal Resume	Please print and submit a "Personal Resume" from the application documents print page on "My Page" on the online application site.
4	Master's Degree Thesis, other	<ul style="list-style-type: none"> • Applicants who have a Master's degree should submit a copy or summary (about 2,000 Japanese characters (500 words in English)) of the dissertation. Applicants who have undergone an examination of the research outcomes on a particular subject should submit a summary of the research outcomes (2,000 Japanese characters (500 words in English)) or the equivalent. • Applicants other than those listed above should download and complete the "List of Research Achievements (Form 1*)" from the University of Yamanashi website. Please submit the form with documents certifying the contents described in the list (documents such as academic papers, research reports, patents, books, etc. Please submit no more than 10 selected publications.) If an applicant has no research achievements but is currently writing a Master's thesis, they should submit a summary of their Master's thesis when applying (approximately 2,000 characters (500 words in English)).
5	Research Project Plan	Please download and complete the "Research Project Plan (Form 2*)" from the university's website.
6	Letter of Approval	Individuals who are employed when applying to the course should download the "Letter of Approval (Form 3*)" from the university's website

	* Only if applying to the Biomedical Science Course	and submit it with the approval of the head of the institution where you are employed (e.g., hospital director if employed there). If your place of work changes between the time you submit your application and enroll, please contact the Academic Affairs Division. (Tel: 055-273-9627, from abroad: +81-55-273-9627)
7	Resident Record, other * To be submitted by non-Japanese applicants only	<ul style="list-style-type: none"> Applicants residing in Japan Please submit the resident record (with your nationality, status of residence and period of stay clearly indicated) or a double-sided copy of the residence card issued by the head of the municipality where you reside. Applicants residing overseas Please submit a copy of your passport (page displaying a photo of your face).
8	Extract of family register * Only if applicable	Please submit this document only if the applicant's name is different on each certificate or document as a result of a name change.

* Forms 1 to 3 can be downloaded from the university's website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the "Application Documents Checklist" (no submission required) on the application documents print page from "My Page" on the online application site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on "My Page" on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (Second Call for Application) on pages 42 to 43 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)

4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Tel: 055-220-8046 (from abroad: +81-55-220-8046) Email: nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)

Printing period : From the date of receipt of the notification to March 31, 2026

How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method

<Agricultural Science Course>

Successful applicants will be chosen based on an overall assessment including the results of a short essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
November 12 (Wed), 2025	9:00 am – 10:00 am	Short essay
	10:15 am –	Oral examination

(Notes) Applicants will be permitted to take the short essay part of the examination only if they arrive within 30 minutes after it begins. Please note that the examination will still end at the scheduled time.

<Biomedical Science Course>

Successful applicants will be chosen based on an overall assessment including the results of a written examination (in English), an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
November 13 (Thu), 2025	10:00 am – 12:00 (noon)	English (written examination)
	1:00 pm –	Oral examination

(Notes) 1. Dictionaries may be used for the written English examination (except for electronic devices).

2. If applicants are late to the written English examination, they will be permitted to take the examination only if they arrive within 30 minutes from the start of the exam. Please note that the examination will still end at the scheduled time.

<Bioengineering Course>

Successful applicants will be chosen based on an overall assessment including the results of a short essay, an oral examination, and a screening of academic transcript from the graduate school of their graduating university, etc.

Examination schedule

Date & Time		Type of Examination
November 12 (Wed), 2025	9:00 am – 10:00 am	Short essay
	10:15 am –	Oral examination

(Notes) Applicants will be permitted to take the short essay part of the examination only if they arrive within 30 minutes after it begins. Please note that the examination will still end at the scheduled time.

6. Location of Examination

- **Agricultural Science Course and Bioengineering Course**

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

- **Biomedical Science Course**

Educational Research Building for School of Nursing, Faculty of Medicine Campus, University of Yamanashi

* Please check in at the entrance at least 10 minutes before the examination starts

Application Guidelines for Special Selection of Adult Students

We aim to further deepen exchange between universities and society in terms of education and research by accepting adult students who are currently engaged in research and development at various research institutes and companies to graduate school as they continue to remain employed. With this intent, we make the special selection of adult students with a high level of expertise and substantial achievements in research.

1. Capacity

Course Name	Capacity
Agricultural Science Course	Several (not specified)
Bioengineering Course	Several (not specified)

2. Qualification for Applicants

Applicants must work for a government agency or company, be recommended by the head of their department, maintain their position even after the admission, and meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, paragraph 1 of the School Education Act (hereinafter referred to as "professional degree").
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries.
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree.
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree.
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree.
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and has been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989)
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after completing 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

[Note 1] Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

【Note 2】 A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to “6. Screening and Certification of Qualification for Applicants” under Common Matters (Second Call for Application) on pages 40 to 41 in these guidelines.

3. Application Procedure

【Important】 International student applicants

International applicants should consult with their preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the “Online Application User Guide” on the page following the table of contents.

(2) Application period

October 15 (Wed) to October 21 (Tue), 2025, Until 4:30 pm **【Must arrive during the application period】**

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site.
(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking
- Applicants are responsible for transaction fees for all payment methods.
- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**
(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)
- **Credit cards are the only acceptable form of payment for applications from overseas.**
- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**

【Exemption from Examination Fee】

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university’s website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion * Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 29 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on page 29 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority of your graduating university. • Applicants applying under qualifications for applicants (1) to (6) on page 29 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on page 29 should submit academic transcripts from your graduating university's school or department.
3	Personal Resume	Please print and submit a "Personal Resume" from the application documents print page on "My Page" on the online application site.
4	Documents Certifying Research Achievements	Applicants should download and complete the "List of Research Achievements (Form 1*)" from the university's website. Please submit the form with documents certifying the contents described in the list (documents such as academic papers, research reports, patents, books, Master's thesis, etc. Please submit no more than 10 selected publications.)
5	Research Project Plan	Please download and complete the "Research Project Plan (Form 2*)" from the university's website.
6	Letter of Approval	Please download the "Letter of Approval (Form 3*)" from the university's website and submit it with the approval of the head of the institution where you are employed.
7	Resident Record, other * To be submitted by non-Japanese applicants only	<ul style="list-style-type: none"> • Applicants residing in Japan Please submit the resident record (with your nationality, status of residence and period of stay clearly indicated) or a double-sided copy of the residence card issued by the head of the municipality where you reside. • Applicants residing overseas Please submit a copy of your passport (page displaying a photo of your face).
8	Extract of family register * Only if applicable	Please submit this document if the applicant's name is different on each certificate or document as a result of a name change.

* Forms 1 to 3 can be downloaded from the university's website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the "Application Documents

Checklist" (no submission required) on the application documents print page from "My Page" on the online application site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on "My Page" on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (Second Call for Application) on pages 42 to 43 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, Kofu Campus, University of Yamanashi (Kofu Campus)
4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan

Tel: 055-220-8046 (from abroad: +81-55-220-8046) Email: nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)

Printing period : From the date of receipt of the notification to March 31, 2026

How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method

Successful applicants will be chosen based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university, etc. and research output (academic papers, research reports, patents, books, Master's thesis, etc.).

During the oral examination, the applicant will be asked questions about their research achievement in their duties as professionals and their research plan for the doctoral course.

Examination schedule

Date & Time		Type of Examination
November 12 (Wed), 2025	9:00 am –	Oral examination

(Note) Applicants will be permitted to take the examination only if they arrive within 30 minutes after it begins.

6. Location of Examination

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

Application Guidelines for Special Selection of International Students

We aim to further raise the level of internationalization and international academic cooperation in studies by actively accepting international students (individuals who intend to enter Japan or have already entered Japan for the purpose of studying in doctoral courses). With this intent, we make the special selection of international students who have expertise and research achievements that are at a level appropriate to that of doctoral students.

1. Capacity

Course Name	Capacity
Agricultural Science Course	Several (not specified)
Biomedical Science Course	Several (not specified)
Bioengineering Course	Several (not specified)

* The Biomedical Science Course will only be offered if spaces are still available after the first call for applications.

2. Qualification for Applicants

Applicants must not have Japanese nationality and meet at least one of the following requirements.

- (1) A person who has a Master's degree or a degree specified by the Minister of Education, Culture, Sports, Science and Technology that has been awarded to those who have completed the professional graduate school courses outlined in Article 104, Paragraph 1 of the School Education Act (hereinafter referred to as "professional degree"), or a person who is expected to receive a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (2) A person who has a degree equivalent to a Master's degree or professional degree in other countries, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (3) A person who has completed correspondence courses of an overseas school in Japan and received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (4) A person who has completed an overseas graduate school course at an educational facility that is positioned in Japan as a school that offers such courses in the school educational system of that country and is designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has received a degree equivalent to a Master's degree or professional degree, or a person who is expected to receive a degree equivalent to a Master's degree or professional degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (5) A person who has completed courses at the United Nations University (hereinafter referred to as "UNU") which was established by a resolution at the United Nations General Assembly on December 11, 1972, as prescribed in Article 1, paragraph 2 of the Act on Special Measures Incidental to Enforcement of the "Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University" (Act No. 72 of 1976), and has received a degree equivalent to a Master's degree, or a person who is expected to receive a degree equivalent to a Master's degree by March 2026 (or September 2026 for a person who wants to enter the course from October 2026).
- (6) A person who has passed the equivalent of an examination or screening prescribed in Article 16, paragraph 2 of the Standards for Establishment of Graduate Schools after completing educational courses at an overseas school, an educational facility described in (4) above, or UNU, and had been recognized as having an academic ability equal to or higher than that of a person with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118 of the Ministry of Education, 1989).
 - (a) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating from university, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person with a Master's degree.
 - (b) A person who has engaged in at least two years of research at a university, research institute, or other equivalent institution after graduating 16 years of education on an overseas curriculum, or completing 16 years of education at an educational institution overseas by completing course subjects on a correspondence course in Japan offered by an overseas school, and has been recognized by this graduate school after an examination of the results of his or her research as having an academic ability that is equal to or higher than that of a person

with a Master's degree.

- (8) A person who has been recognized as having an academic ability equal to or higher than a person who has received a Master's degree or professional degree through an individual entrance examination at this graduate school, and will be at least 24 years old at the time of admission.

【Note 1】 Before applying, be sure to contact your preferred academic advisor regarding your research plan and other related matters.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

【Note 2】 A prequalification screening of eligibility requirements will be conducted for applicants who apply under items (2), (3), (7) and (8) above. Please refer to "6. Screening and Certification of Qualification for Applicants" under Common Matters (Second Call for Application) on pages 40 to 41 in these guidelines.

Applicants for the Biomedical Science Course who are research students (government-financed, government-sponsored or privately-funded) may be exempted from this prequalification screening process.

Please contact the following section by September 19 (Fri), 2025.

- Agricultural Science Course and Bioengineering Course:
Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
Tel: 055-220-8807 (from abroad: +81-55-220-8807)
- Biomedical Science Course:
Graduate School Section, Educational Affairs Group, Academic Affairs Division
Tel: 055-273-9627 (from abroad: +81-55-273-9627)

3. Application Procedure

【Important】 Please consult with your preferred academic advisor for detailed information on how to register information online and application procedures.

(1) Application method

Please access the online application site (<https://syutugan.yamanashi.ac.jp>) and follow the instructions on the screen to register your application information. For details, please refer to the "Online Application User Guide" on the page following the table of contents.

(2) Application period

October 15 (Wed) to October 21 (Tue), 2025, Until 4:30 pm 【Must arrive during the application period】

Applicants must register their information to apply online, pay the examination fees, and submit the application documents during the application period. Please note that applications will not be accepted if any one of the procedures is not completed during the application period.

(3) Payment of examination fee

Examination fee : ¥30,000

- Please select a payment method from the following options ((a) to (d)) on the online application site.
(a) Credit card, (b) Convenience store, (c) ATM of a financial institution (Pay-easy), (d) Internet banking
- Applicants are responsible for transaction fees for all payment methods.
- **It may take up to two hours for payment to be confirmed if using a method other than a credit card.**
(Please note that you will not be able to proceed to the next step to print your application documents until payment is confirmed.)
- **Credit cards are the only acceptable form of payment for applications from overseas.**
- **Once an application has been accepted, any examination fees that have already been paid will not be refunded for any reason.**
- Japanese Government (MEXT) Scholarship Students are not required to pay the Examination Fee.
Once the MEXT scholarship results are announced, we will contact you with the examination fee waiver code through your preferred academic advisor. If you enrolled as a Japanese Government (MEXT) Scholarship Student at another university, please send the "Certificate of MEXT Scholarship Student" issued by that university as a PDF file to the Admission Division by email (nyushi@yamanashi.ac.jp).

【Exemption from Examination Fee】

- Eligibility : The University of Yamanashi takes special measures to waive entrance examination fees for persons affected by the following disasters.

The Great East Japan Earthquake, Kumamoto Earthquake in 2016, heavy rains in July 2018, Hokkaido Eastern Iburi Earthquake in 2018, Typhoons No.15 (Faxai) and No.19 (Hagibis) in 2019, and disasters that occurred on or after April 2020 and fall under the Disaster Relief Act.

- Required documents : Please check the university's website (<https://www.yamanashi.ac.jp/examination/3787>).
- Application period : Starts one month before the application period opens (Note that applications must be received before the start of the application period.)

(4) Application documents

- The application documents include documents to be prepared by the applicant and documents to be printed from the online application site.
- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- Individuals who have been recommended by the university for a Japanese government (MEXT) scholarship can submit copies of items No.1 and 2 from the following documents.
- Applicants who have already been screened for eligibility do not need to resubmit the same documents presented for that screening.

No.	Application document	Notes
1	Certificate of Completion (Expected Completion) * Not required for applicants who have completed a Master's course at the University of Yamanashi.	<ul style="list-style-type: none"> • Please submit a certificate prepared by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (2) or (3) on page 34 should submit a certificate of the degree conferred. • Applicants applying under qualifications for applicants (7) or (8) on pages 34 to 35 should submit a certificate of graduation from a school or department.
2	Academic Transcript	<ul style="list-style-type: none"> • Please submit a transcript issued by the president or similar authority from your graduating university, or equivalent. • Applicants applying under qualifications for applicants (1) to (6) on page 34 should submit academic transcripts from Master's course which you have completed. • Applicants applying under qualifications for applicants (7) or (8) on pages 34 to 35 should academic submit transcripts from your graduating university's school or department.
3	Personal Resume	Please print and submit a "Personal Resume" from the application documents print page on "My Page" on the online application site.
4	Documents Certifying Research Achievements	<p>Applicants should download and complete the "List of Research Achievements (Form 1*)" from the University of Yamanashi website. Please submit the form with documents certifying the contents described in the list (documents such as academic papers, research reports, patents, books, Master's thesis, etc. Please submit no more than 10 selected publications.)</p> <p>If the applicant has no research achievements but is currently writing a Master's thesis, they should submit a summary of their Master's thesis when applying (approximately 2,000 characters (500 words in English))</p>
5	Research Project Plan	Please download and complete the "Research Project Plan (Form 2*)" from the university's website.

6	Examination Type Confirmation *To be submitted by applicants for the Biomedical Science Course only	Please download and complete the “Examination Type Confirmation (Form 4*)” from the university’s website.
7	External English Test Score *To be submitted by applicants for the Biomedical Science Course only	Applicants who have requested Type B on the “Examination Type Confirmation (Form 4)” should submit originals for either (a) or (b). (Original documents will be returned on the day of the examination.) Please note that either test must have been taken in November 2023 or later. (a) TOEFL-iBT Test Taker Score Report *TOEFL-iBT Home Edition is also acceptable. (b) IELTS Test Report Form (Academic module only)
8	Resident Record, other	<ul style="list-style-type: none"> Applicants residing in Japan Please submit the resident record (with your nationality, status of residence and period of stay clearly indicated) or a double-sided copy of the residence card issued by the head of the municipality where you reside. Applicants residing overseas Please submit a copy of your passport (page displaying a photo of your face).

* Forms 1, 2 and 4 can be downloaded from the university’s website (<https://www.yamanashi.ac.jp/admission/45>) before the start of the application period.

【The Use of Generative AI in Admissions】

University of Yamanashi warns students about the use of generative AI such as ChatGPT.

Generative AI does not always provide correct answers to user queries. Additionally, since generative AI generates text by learning from data available on the internet, treating the generated text as your own work poses risks of plagiarism and copyright infringement. Furthermore, information input into generative AI may be used for AI learning, potentially leading to unintended leaks of personal or research information.

In the context of admission selection, documents those applicants create and submit themselves (such as statements of purpose and research plans) are extremely important for assessing their suitability and capabilities for our university.

Therefore, the use of text generated by generative AI is strictly prohibited. If such use is discovered, it will be considered an act of misconduct, and acceptance will be revoked.

When preparing application documents, please review our admission policy and ensure that the submitted work is the result of your own ideas and creation to avoid any suspicion of misconduct and to prevent any academic mismatch after enrollment.

(5) Method for submitting application documents

Please submit your application after checking that all documents are in order using the “Application Documents Checklist” (no submission required) on the application documents print page from “My Page” on the online application site.

(a) Applicants residing in Japan

Print out the Envelope Address Label from the application documents print page on “My Page” on the online application site. Attach this label to a commercially available, Kakugata 2-go size envelope (24cm x 33.2cm) and enclose your application documents.

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** during the application period (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send the application documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

Please note that admitted students will need to submit original documents after enrolling. For details on how to submit these documents, please refer to 10. Submission of Original Application Documents under Common Matters (Second Call for Application) on pages 42 to 43 of these guidelines.

(6) Address for submission of application documents and inquiries

Admission Division, Academic Affairs Support Department, Kofu Campus, University of Yamanashi (Kofu Campus)
4-4-37, Takeda, Kofu, Yamanashi, 400-8510 Japan
Tel: 055-220-8046 (from abroad: +81-55-220-8046) Email: nyushi@yamanashi.ac.jp

【Points to note】

- (a) Applications may not be accepted if the information contained is incomplete (such as information submitted online or in application documents).
- (b) After an application is accepted, no changes to the content of the application will be accepted for any reason (except for change of address or other contact information). Application documents will not be returned.
- (c) If information contained in the application is found to be false, the applicant's offer of admission may be rescinded even after they have enrolled.
- (d) If any points are unclear in the application procedures, please contact the Admission Division, Academic Affairs Support Department.

4. Examination Admission Slip

Please print out the Examination Admission Slip from the online application site and bring it with you on the day of the examination.

Notification of printing : Notification by e-mail after three days after the last day of the Application Period (Except Saturday, Sunday, and public holidays)

Printing period : From the date of receipt of the notification to March 31, 2026

How to print : Online application site > My Page > Examination Admission Slip (A4 size blank paper, 100% magnification, full color)

- If you are unable to print out the Examination Admission Slip after the above date, please contact the Admission Division, Academic Affairs Support Department.
- The name registered on the online application site will be used for the Examination Admission Slip.
- If you lose your Examination Admission Slip or it becomes stained, please print it out again from the online application site.
- Do not write anything in the margins or on the back of the Examination Admission Slip.

5. Selection Method

<Agricultural Science Course>

Successful applicants will be chosen based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university, etc. and research output (academic papers, research reports, patents, books, Master's thesis, etc.).

In this application process, preliminary interviews will be conducted with prospective applicants who can submit a letter of recommendation from their academic advisor at their graduating university or supervisor. Applicants who have been through the process of a preliminary interview may be exempt from the oral examination. Applicants will be informed of the location, date, time, method and documents required for this fiscal year's preliminary interview process at a preliminary meeting with their preferred academic advisor.

Examination schedule

Date & Time		Type of Examination
November 12 (Wed), 2025	1:10 pm –	Oral examination

(Note) Applicants will be permitted to take the examination only if they arrive within 30 minutes after it begins.

<Biomedical Science Course>

Successful applicants will be selected based on an overall assessment including the results of a written examination (in English) or an external English test score, an oral examination, and a screening of academic transcript from the graduate school of their graduating university.

Additionally, applicants who live or are in residence for an extended period of time abroad may submit an external English test score and take the oral examination (online). Applicants who are interested in this option should contact the

Academic Affairs Section for the Biomedical Science Course by October 8 (Wed), 2025.

Examination schedule

Date & Time		Type of Examination
November 13 (Thu), 2025	10:00 am – 12:00 (noon)	English (written examination)
	1:00 pm –	Oral examination

- (Notes)
1. Dictionaries may be used for the written English examination (except for electronic devices).
 2. If applicants are late to the written English examination, they will be permitted to take the examination only if they arrive within 30 minutes from the start of the exam. Please note that the ending time for the examination will not change.

<Bioengineering Course>

Successful applicants will be selected based on an overall assessment including the results of an oral examination, a screening of academic transcript from the graduate school of their graduating university and research output (academic papers, research reports, patents, books, Master's thesis, other).

In this application process, preliminary interviews will be conducted with prospective applicants who can submit a letter of recommendation from their academic advisor at their graduating university or supervisor. Applicants who have been through the process of a preliminary interview may be exempt from the oral examination. Applicants will be informed of the location, date, time, method and documents required for this fiscal year's preliminary interview process at a preliminary meeting with their preferred academic advisor.

Examination schedule

Date & Time		Type of Examination
November 12 (Wed), 2025	1:10 pm –	Oral examination

- (Note) Applicants will be permitted to take the examination only if they arrive within 30 minutes after it begins.

6. Location of Examination

• **Agricultural Science Course and Bioengineering Course**

S1 Building/other, Kofu West Campus, University of Yamanashi

* For details, please contact your preferred academic advisor.

• **Biomedical Science Course**

Educational Research Building for School of Nursing, Faculty of Medicine Campus, University of Yamanashi

* Please check in at the entrance at least 10 minutes before the examination starts.

Common Matters (Second Call for Application)

1. Examination Result Announcement

Date and Time : **December 5 (Fri), 2025** around 4:00 pm

- The examinee numbers of successful applicants will be posted on the university's website (https://www.yamanashi.ac.jp/examination_list).
- The university will not accept inquiries by telephone or other means about the results of the examination.
- The university will send a notification of acceptance to successful applicants on the day that the results are announced. A notification of acceptance will include the name registered on the Online Application Site.

2. Admission Period

- Applicants may select their preferred date of admission. Please select your preferred date of admission from either April 2026 (first semester) or October 2026 (second semester) when you submit your application online.
- Please note that changes cannot be made to your selected date of admission once the application has been accepted.
- If you have any questions about admission procedures for October (second semester), please contact the Admission Division, Academic Affairs Support Department.

3. Admission Procedures

(1) Admission procedure period

Admission Period	Course	Admission Procedure Period
Admission in April 2026	Agricultural Science Course, Bioengineering Course	March 7 (Sat) to March 15 (Sun), 2026
	Biomedical Science Course	February 2 (Mon) to February 6 (Fri), 2026
Admission in October 2026	Agricultural Science Course, Bioengineering Course	September 11 (Fri), 2026
	Biomedical Science Course	August 17 (Mon) to August 19 (Wed), 2026

【Points to Note】

- Details on enrollment procedures will be notified separately. (For successful applicants in the Biomedical Science Course, documents will be sent with a letter of acceptance.)
- Applicants who fail to complete the admission procedures by the abovementioned deadline will be assumed to have decided against entering this university and your admission will be cancelled.

(2) Payment for admission

The admission fee is ¥282,000.

- This is the estimated fee and is subject to change.
- Admission fees that have been paid will not be refunded for any reason.

4. Tuition Fees

Students enrolling in April 2026: ¥267,900 (first semester), ¥535,800 (both semesters)

Students enrolling in October 2026: ¥267,900 (second semester)

- This is the estimated fee and is subject to change.
- In principle, tuition fees will be withdrawn from the student's account. Information about procedures will be made available later.

5. Other Expenses

Other fees such as for Personal Accidents Insurance for Students Pursuing Education and Research are required.

6. Screening and Certification of Qualification for Applicants

Applicants applying for admission under qualifications (2), (3), (7) or (8) in 2. Qualification for Applicants in these guidelines should submit the required documents for the prequalification screening to the Admission Division, Academic

Affairs Support Department during the application period.

Applicants should contact their preferred academic advisor to discuss their research plan in detail before submitting their application.

Please select your preferred academic advisor from the faculty members listed in Appendix 2 "Research Areas and Faculty Members" (on pages 49 to 50 in these guidelines).

(1) Submission documents

- (a) Form for the Approval of Application Requirements (Form 6 (Japanese students), Form 9 (International students))
- (b) Certificate of Graduation/Expected Graduation
- (c) Academic Transcript
- (d) Certificate of work period and work contents (Form 7) *To be submitted by applicants with work experience. This form does not need to be submitted by International students.
- (e) Certificate for research students *To be submitted applicants who have research experience at university
- (f) List of Research Achievements (Form 1) *To be submitted by applicants with research achievements
- (g) Documents certifying the contents of research achievements in Form 1 (documents such as reprints of academic papers, books, society meeting programs, etc. (Copies will be accepted.))
- (h) External English test score *To be submitted by applicants for Special Selection Process for International Students for the Biomedical Science Course only
- (i) Extract of family register *To be submitted by applicants with a different name listed on each certificate or document because of a name change
- (j) Copy of resident record or residence card (for applicants residing in Japan) or copy of passport (for applicants residing overseas) *To be submitted by International students only
- (k) Checklist of documents to be submitted for approval of eligibility (Form 5 (Japanese students), Form 8 (International students))

* Please download all forms from the university's website (<https://www.yamanashi.ac.jp/admission/45>).

(2) Application period:

Until September 26 (Fri), 2025 4:30 pm [Must arrive during the application period]

(3) Submission methods

(a) Applicants residing in Japan

If sending your application by post, please be sure to send it by registered express mail from a post office so that it arrives at the university during the application period.

If you wish to submit your application in person, please bring your documents to the Admission Division, Academic Affairs Support Department (Kofu Campus) **between 9:00 am and 4:30 pm** (The office is closed between 12:00 (noon) to 1:00 pm on weekdays, and on Saturdays, Sundays and public holidays).

(b) Applicants residing overseas

Please be sure to send all required documents as electronic files (PDFs) to the Admission Division, Academic Affairs Support Department (email: nyushi@yamanashi.ac.jp) during the application period.

(4) Points to Note

- **Please submit originals, except for those documents for which a photocopy is acceptable (excluding applicants residing overseas).** If you cannot submit original documents (for example, if the school that you have graduated from issues a certificate of graduation (completion) and an academic transcript only once at the time you graduate (completed a course of study) and does not issue them after this time), please contact the Admission Division, Academic Affairs Support Department no later than the day before the screening application period begins.
- **Certificates and other documents in languages other than English should be accompanied by a Japanese or English translation.**
- After the application documents have been received, no changes to the content of the application will be accepted. Application documents will not be returned.

(5) Address for submission of application documents and inquiries

Admissions Division, Academic Affairs Support Department, University of Yamanashi (Kofu Campus)

4-4-37, Takeda, Kofu City, 400-8510 Japan

Tel: 055-220-8046 (from abroad: +81-55-220-8046) email: nyushi@yamanashi.ac.jp

(6) Applicants will be notified by October 10 (Fri), 2025 about the results of the screening.

7. Preliminary Consultation for Applicants with Disabilities

If you are applying to our university and require special accommodations for the entrance examination due to illness, injury, or disability, please consult with us before submitting your application.

For consultation methods and other details, please refer to the University of Yamanashi's website (<https://www.yamanashi.ac.jp/examination/3794>).

Consultation period: Until September 16 (Tue), 2025

- * Some types of consultations may require additional time to review, so we encourage you to contact us as soon as possible. Please note that we may not be able to accommodate all requests.
- * We will accept requests even after the consultation period has ended, but depending on the nature of the inquiry, we may not be able to respond before the deadline or to accommodate the request.

The university has set up an Accessibility & Communication Support Office (AC Office) to support students with disabilities. The AC Office handles consultation inquiries from applicants who want to request academic accommodations after enrollment.

8. Handling Personal Information

The university will handle personal information from applicants as follows based on the "Act on the Protection of Personal Information" and the "Regulations on the Protection of Personal Information of the University of Yamanashi University."

- (1) Personal information obtained during the selection process will be used for the following purposes: (a) selecting applicants (processing and selection of applications), (b) announcing examination results, (c) implementing admission procedures, (d) conducting statistical studies, (e) analyzing application trends and future admission methods, research and analysis on improving university education, (f) organizing education and events for successful applicants prior to admission, and (g) security export control (for international students only). When the results of this research and analysis are published, the data will be processed so that individuals cannot be identified.
- (2) Personal information of enrollees obtained in applications will be used for the following: (a) Academic affairs (student registration, instruction and guidance, etc.), (b) student support (health care, employment support, tuition waivers, scholarship applications, etc.), and (c) collecting tuition.
- (3) Please note that in the execution of the above, some tasks may be outsourced to a contractor that has been contracted by the university to carry out these tasks (hereinafter referred to as "contractor"). In this case, the contractor may be provided with all or part of the personal information we have obtained to the extent that it is required to carry out the contracted work.
- (4) In order to protect personal data and private information, the personal information acquired in the process of selection, whether in the form of documents in which it is contained or in data itself, will be kept strictly confidential and will not be used for any purpose other than those described above. Personal information will not be disclosed to third parties, except as required by law.

9. Infectious Disease Control Measures for Entrance Examinations

If an applicant has contracted and not recovered from an infectious disease (COVID-19, influenza, measles, chicken pox, etc.) on the day of the entrance exam for the university for which a mandatory suspension period has been stipulated by the School Health and Safety Act, the applicant will not be permitted to take the examination due to the risk of infecting other examinees or test proctors.

In the event that an applicant is unable to take the exam, the university will be unable to implement special measures, including allowing the applicant to retake the examination or take the exam in a separate room, and cannot refund the entrance examination fee. Please stay healthy so that you are well-prepared for the day of the examination.

10. Submission of Original Application Documents

Successful applicants who have submitted application documents as electronic files (PDFs) must submit the original documents after enrollment.

If any information in the PDF document data is found to have been falsified or misrepresented, the applicant's offer of enrollment will be canceled.

Documents for submission: Originals of documents for qualification screening and application

Place of submission: Agricultural Science Course and Bioengineering Course

Office of the Educational Affairs Group, Faculty of Life and Environmental Sciences Support Division
(1F, Faculty of Life and Environmental Sciences offices, Kofu West Campus)
(Weekdays (Mon-Fri) Between 8:30 am and 5:15 pm (closed 12:00 (noon) -1:00 pm)
Biomedical Science Course

Office of the Educational Affairs Group, Academic Affairs Division

(1F, Administration Building, Medical Campus)

(Weekdays (Mon-Fri) Between 8:30 am and 5:15 pm (closed 12:00 (noon) -1:00 pm)

Date of submission : Within one week of arriving on campus (strictly enforced)

11. Security Export Control

The University of Yamanashi has established “Security Export Control Regulations” in accordance with the “Foreign Exchange and Foreign Trade Act” and carries out strict screening when accepting international students. If an applicant falls under any of the restrictions described, they may not be able to receive the desired level of education or conduct research.

12. Other

- (1) Please enter an address, telephone number and email address in the contact information section on the online application site where you can reliably receive information and notifications from the university from the time you apply until the process is complete. Please contact the Admission Division, Academic Affairs Support Department if there are any changes to your contact information after you have submitted your application.
- (2) Applicants wishing to obtain a scholarship should contact the following after the examination result announcement.
 - Agricultural Science Course and Bioengineering Course
Student Supporting Division, Academic Affairs Support Department, Tel: 055-220-8053 (from abroad: +81-55-220-8053)
 - Biomedical Science Course
Students Group, Academic Affairs Division Tel: 055-273-9346 (from abroad: +81-55-273-9346)

Admissions Guide

1. Human Resources Fostered

The three courses offered in the Department of Integrated Applied Life Science (Agricultural Science Course in the field of agriculture, Biomedical Science Course in the field of medicine, and Bioengineering Course in the field of engineering) share an academic foundation in the life sciences and offer education in cooperation under the common keyword of “health.” We aim to develop highly specialized professionals and researchers capable of contributing to the development of society and the welfare of humanity by taking a panoramic view of the three fields of medicine, engineering, and agriculture, integrating and applying the knowledge and technical skills from each field to innovate technology, and discovering multiple solutions for issues related to health that have the greatest universal value for humanity.

- Agricultural Science Course

The Agricultural Science Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, embryonic, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in both Japan and overseas in industrial fields related to food, health, and the environment with a panoramic view of the three fields of medicine, engineering, and agriculture, and insights into health-related issues. These professionals and researchers will be able to contribute to the revitalization of local industries with the knowledge and technical expertise learned in multiple disciplines related to “fermentation and food,” such as enology and viticulture, applied microbiology (ecology, research/classification, use), food sciences (analysis, processing, nutrition), and the development of plant functions, and the application of this knowledge and expertise to wine and food production, drug development, and environmental protection.

- Biomedical Science Course

The Biomedical Science Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, embryonic, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in medical institutions by taking a panoramic view of the three fields of medicine, engineering, and agriculture, gaining insights into health-related issues, and by acquiring advanced expertise and technical skills in academic fields, with a focus on epidemiology and neuroscience.

- Bioengineering Course

The Bioengineering Course is based on life science, offering an understanding of the life phenomenon at the molecular, cellular, embryonic, and individual level. We aim to develop highly specialized professionals and researchers capable of playing active roles in a wide range of bio-related industries, with particular focus on developmental engineering-related industries, such as assisted reproductive technology and regenerative medicine. Students will deepen their expertise with the acquisition of advanced levels of knowledge and technical skills in bioengineering, with a focus on developmental engineering and related disciplines. The course also fosters a broad perspective of the fields of medicine, engineering, and agriculture, as well as the insights needed to address health-related issues.

2. Course Outline

- (1) Course and period of study

The courses at the Integrated Applied Life Science, Integrated Graduate School of Medicine, Engineering, and Agricultural Sciences are doctoral courses. The period of study for these courses are typically three years.

- (2) Subjects and number of credits

As per Attachment 1.

3. Academic Advisor and Topics of Research

As per Attachment 2.

4. Degrees

- (1) Ph.D. degrees are awarded to individuals who have been enrolled in this program for at least three years, earned at least 14 credits, received required research guidance, and passed both the dissertation review and final examination. However, for individuals who have presented superior research achievements, the minimum of one year may be a sufficient term of study.

- (2) The following degrees will be awarded to individuals who have completed the course, depending on course contents.

Agricultural Science Course: Doctor of Philosophy (Ph. D.) in Agricultural Science

Biomedical Science Course: Doctor of Philosophy (Ph.D.) in Biomedical Science

5. Special Exceptions according to Article 14 of the Standards for the Establishment of Graduate Schools

In these courses, we will apply “special exceptions of educational methods” stipulated in Article 14 of the Standards for the Establishment of Graduate Schools. Courses will be open during the day and evenings, so that employed individuals can attend classes without needing to leave work.

Classes are open in the evenings on Monday to Friday from 6:10 pm to 9:20 pm, on Saturdays and during summer/winter holidays for students to attend and receive research guidance.

6. Admission and Tuition Fees Exemption System, and Admission Fees Deferment System

(1) Exemption of admission fees

In any of the cases below, a student may be exempt from paying half or the full amount of the admission fee upon the student's request and screening.

- (a) If a student has demonstrated strong academic achievement but is unable to afford the admission fee due to financial hardship.
- (b) If a student has demonstrated marked difficulty in paying the admission fee, due to the death of his or her sponsor for academic expenses within one year before the admission, or due to a natural disaster that affects either the student or his/her sponsor.

(2) Deferment of payment of admission fees

In any of the cases below, payment of the admission fee may be postponed, upon the student's request and screening.

- (a) If a student has demonstrated strong academic achievement but is unable to afford the admission fee due to financial hardship.
- (b) If a student has demonstrated marked difficulty in paying the admission fee, due to the death of his or her sponsor for academic expenses within one year before the admission, or due to a natural disaster that affects either the student or his/her sponsor.

(3) Exemption of tuition fees

In any of the cases below, a student may be exempt from paying half or the full amount of the tuition fee, upon the student's request and screening.

- (a) If a student has demonstrated strong academic achievement, but is unable to afford the tuition fees due to financial hardship.
- (b) If a student has demonstrated marked difficulty in paying the tuition fees, due to the death of his or her sponsor for academic expenses within six months before the deadline of the tuition payment (or one year before the admission), or due to a natural disaster that affects either the student or his/her sponsor.

7. Long-term Study System

This system is designed for students whose hours of study are restricted by employment or other reasons to systematically allow them to take and complete the course in a certain period (maximum of four years) beyond the standard course term (two years). The number of required credits is the same as those completed in the standard course term, which reduces the number of hours required annually.

The application deadline for this system is as follows:

- (a) Admission in April (first semester): End of February
- (b) Admission in October (second semester): End of August

For details about procedures and other information about this system, please contact the following section:

- Agricultural Science Course and Bioengineering Course
Educational Affairs Group (for graduate school), Faculty of Life and Environmental Sciences Support Division (Tel: 55-220-8807, from abroad: +81-55-220-8807)
- Biomedical Science Course
Educational Affairs Group (for graduate school), Academic Affairs Division (Tel: 055-273-9627, from abroad: +81-55-273-9627)

*1 Students can also apply for this system after enrolling.

*2 The period of extension is determined by the hours of study not yet completed.

8. Scholarship/Academic Research Financial Incentive System

The university offers a scholarship program under the Japan Student Services Organization. Loan amounts are as follows: Category 1 (no interest) is ¥80,000 or ¥122,000 per month for doctoral courses, and Category 2 (with interest) is ¥50,000, ¥80,000, ¥100,000, ¥130,000, or ¥150,000 per month (AY 2025).

We also offer other scholarship programs and an academic research financial incentive program that aims to reduce financial burdens and encourage studies.

9. Personal Accident Insurance for Students Pursuing Education and Research (Optional)

This is a mutual aid system that aims to alleviate suffering from damages and injuries a student may receive during his or her educational and research activities and on the way to school. The total insurance premiums bellows.

Agricultural Science Course, Bioengineering Course ¥3,620 for three years.

Biomedical Science Course ¥4,150 for three years.

*The insurance premiums listed are tentative.

List of Courses

As of April 1, 2025

Subject Field	Subjects	Course Year	Number of credits	
			Compulsory	Elective
Graduate school common subjects	Ethics for Scientific Researchers, Engineers, and Medical Doctors	1	1	
	Interdisciplinary Lecture on Medicine, Engineering, and Agriculture	1		1
	Research Communication and Social Implementation	1		1
	Long-term internship	1		2
Major common subjects	Concepts of Integrated Applied Life Science	1	1	
	Advanced Health Science	1	1	
Subjects for Agricultural Science Course	Advanced Fermentation Microbiology	1		2
	Advanced Food Manufactural and Nutritional Sciences	1		2
	Advanced Analysis of Food Components	1		2
	Advanced Microbial Taxonomy	1		2
	Applied Microbiology and Bioengineering on Biomass Utilization	1		2
	Advanced in Plant Functional Development	1		2
	Advanced Microbial Functional Development	1		2
	Thesis Seminar in Agricultural Science I	1	1	
	Thesis Seminar in Agricultural Science II	1	1	
	Thesis Research in Agricultural Science I	1	2	
	Thesis Research in Agricultural Science II	2	2	
Subjects for Biomedical Science Course	Medicine and nursing (Common subjects)	Medical Data Analysis and Clinical Epidemiology I	1	1
		Medical Data Analysis and Clinical Epidemiology II	1	1
		Bioethics	1	1
		Advanced Lecture on Neuroscience	1	2
		Advanced Course of Circulation System	1	1
		Pathophysiology of the Kidney Diseases	1	1
		Molecular and Cellular Oncology	1	1
		Clinical Oncology	1	1
		Lecture on Medical Informatics	1	1
	Biomedical science (Specialized studies)	Genomic Epidemiology	1	2
		Advanced Lecture on Neuropharmacology	1	2
		Lecture Series for Neurochemistry	1	2
		Higher-order Neurodynamics	1	2
		Lectures on Perceptual and Cognitive Neuroscience	1	2
		Neuronal Control of Eye Movement	1	2
		Current Topics in Cell Biology	1	2
		Advanced Course of Developmental Genetics	1	2
		Intercellular Communication	1	2
		Special lecture of medical science for brain tumor	1	2
		Advanced respiratory pathophysiology	1	2

Research Areas and Faculty Members

As of April 1, 2025

Agricultural Science Course

Major Subjects	Academic Advisors		Main Research Topics
Advanced in Plant Functional Development	Shunji Suzuki	Professor	Physiology and pathology of wine grapes
Advanced Food Manufactural and Nutritional Sciences	Kazuki Mochizuki	Professor	Analysis of action mechanisms for dietary habits and factors to prevent lifestyle-related diseases
Thesis Research in Agricultural Science I	Misa Otoguro	Professor	Diversity of wine-brewing microorganisms and brewing characteristics
Advanced Microbial Taxonomy	Hideki Yamamura	Professor	Research on drug discovery platforms using actinomycetes
Applied Microbiology and Bioengineering on Biomass Utilization	Takashi Ohtsuki	Associate Professor	Effective utilization of biomass with the advanced used of microorganisms and microbial community functions
Advanced Analysis of Food Components	Masashi Hisamoto	Associate Professor	Study on polyphenols in grapes and wine
Advanced Microbial Functional Development	Youji Nakagawa	Associate Professor	Study on special environmental adaptation mechanisms and breeding of microorganisms
Advanced Food Manufactural and Nutritional Sciences	Hiroko Seki	Associate Professor	Research on food processing and preservation methods to extend shelf life

Biomedical Science Course

Department	Major Subjects	Academic Advisors		Main Research Topics
Integrative Physiology	Lectures on Perceptual and Cognitive Neuroscience	Takanori Uka	Professor	Integrative research for understanding higher-order brain function
Neurophysiology	Higher-order Neurodynamics	Kazuo Kitamura	Professor	Sensorimotor information processing in the brain and development of advanced optical imaging technique
Biochemistry 1	Lecture Series for Neurochemistry	Toshihisa Ohtsuka	Professor	Molecular mechanisms of synaptic structure and function
Neuropharmacology	Advanced Lecture on Neuropharmacology	Schuichi Koizumi	Professor	Regulation by glial cells of brain functions and diseases
Epidemiology and Environmental Medicine	Genomic Epidemiology	Hiroshi Yokomichi	Professor	<ul style="list-style-type: none"> • Observational studies on diabetes • Observational studies using results of health checks
Center for Medical Education and Sciences (Developmental Biology)	Advanced Course of Developmental Genetics	Atsuo Kawahara	Professor	Molecular mechanism of cardiovascular development in vertebrates
Center for Medical Education and Sciences (Mathematics)	Mathematical Sciences Advanced Study	Kazunori Nakamoto	Professor	Mathematics, Algebraic Geometry, Moduli of representations, Statistics, Statistics for Nursing Research
Elementary school education in Yamanashi	Social Psychology	Yasuhiro Omi	Professor	<ul style="list-style-type: none"> • A cultural psychological approach to <i>bukatsu</i> (extracurricular activities in Japan) and sport coaching. • An ethnographic study on school education in Japan in the age of globalization. • Social support in everyday interpersonal situations
Art and physical education	Advanced Lecture on Kinesiology	Akifumi Kijima	Professor	<ul style="list-style-type: none"> • Geometrical constraint of the environment or interpersonal coordination • Predictive cue of locomotive movement

Art and physical education	Medical Science in Physical Exercise	Daisuke Ando	Associate Professor	Epidemiological studies on physical activity, exercise, sports, and physical fitness
Department of Advanced Biomedical Research	Intercellular Communication	Jian Yao	Associate Professor	<ul style="list-style-type: none"> • Molecular basis for intercellular communication • Stress response: mechanisms and pathophysiological implications • Monitoring of disease activity and therapeutic intervention using genetic biosensors
Social medicine	Advanced Preventive Medicine	Tadao Ooka	Associate Professor	<ul style="list-style-type: none"> • Development of methodologies for early intervention of diseases before onset by digitally recreating individual health conditions using AI, omics data (genes, proteins), and IoT.
Center for Medical Education and Sciences (Probability and Statistics)	Applied Medical Statistics	Tatsuhiko Saigoh	Associate Professor	Extreme Value Theory
Center for Life Science Research	Neuronal Control of Eye Movement	Toshihiro Kitama	Associate Professor	<ul style="list-style-type: none"> • Role of visual and vestibular information encoded in the vestibulocerebellum for oculomotor and posture control • Posture control in stroke patients under optokinetic stimulation
Elementary school education in Yamanashi	Advanced Lecture on Educational psychology	Ryosuke Onoda	Associate Professor	<ul style="list-style-type: none"> • The influence of position on cognitive activity • Cognitive bias in information seeking and presentation • The influence of imaginary audience in writing and oral presentation
Center for Medical Education and Sciences	Advanced Applied Ethics and Thanatology	Shunsuke Akiba	Lecturer	<ul style="list-style-type: none"> • Research on the concept of “subject” in the ethics for decision making on life/death • A critical examination on “goodness” of “life narratives” as works of art • Research on the theory of personality self-identity / narrative self-identity

Bioengineering Course

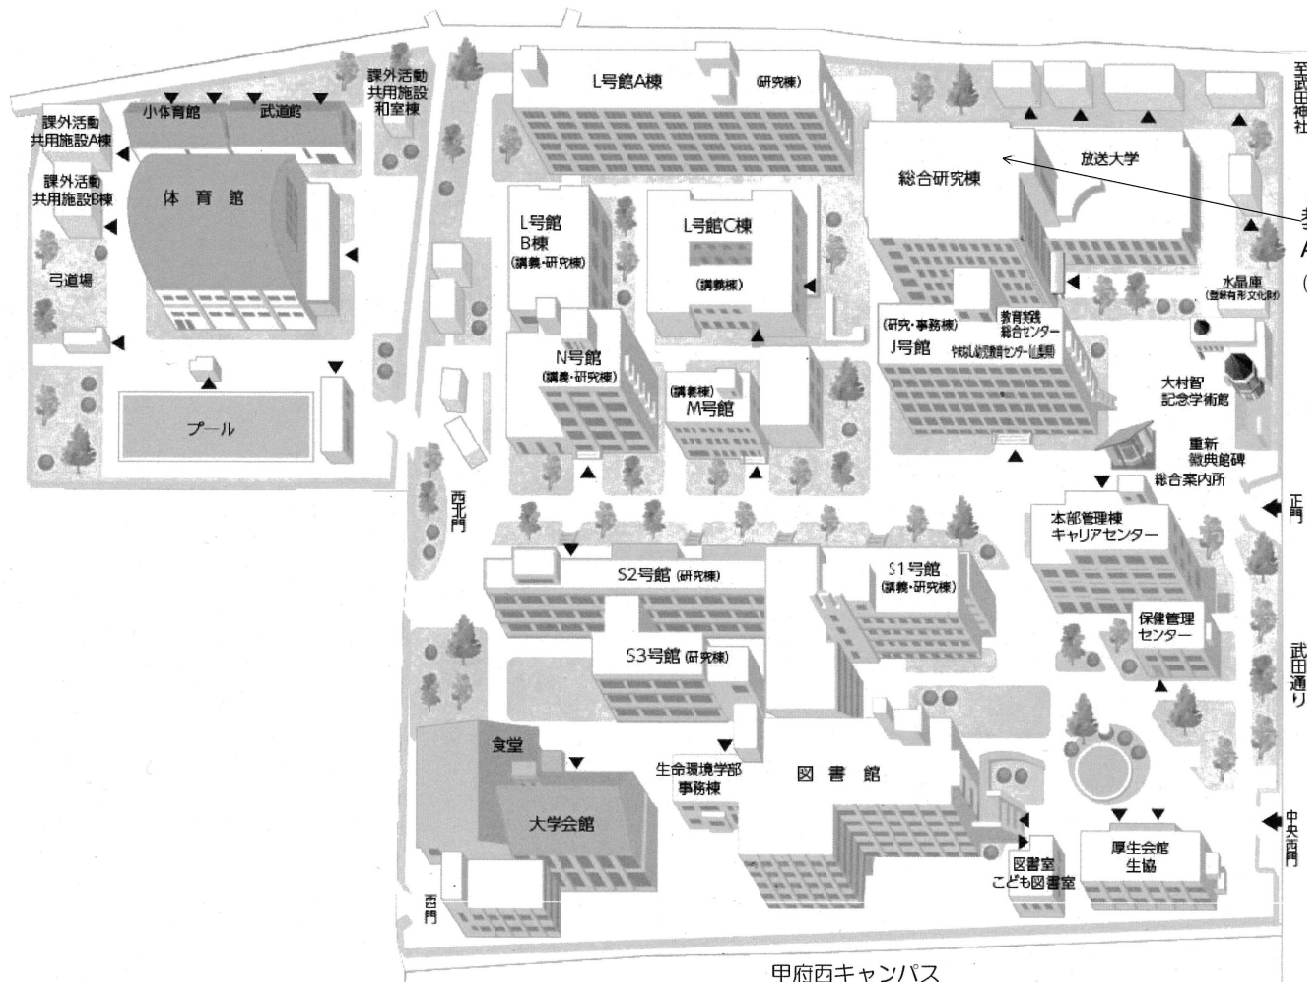

Major Subjects	Academic Advisors		Main Research Topics
Advanced Lecture on Reproductive Biotechnology	Teruhiko Wakayama	Professor	Development of new reproductive methods in mammals through cloning and intracytoplasmic sperm injections (ICSI)
Advanced Study of Developmental Epigenetics	Satoshi Kishigami	Professor	Study on the early development of mammals
Advanced Structural Life Science	Takuji Oyama	Professor	Structural biology of biological super molecules
Advanced Lecture on Reproductive Endocrinology	Kentarou Suzuki	Professor	In-depth study on gene functions required for organogenesis and mechanism of sex hormone-induced sex difference formation
Advanced Lecture on Germ Cell Development	Go Nagamatsu	Professor	Studies on mammalian germline development
Advanced Supramolecular Bioscience	Hideyuki Shinmori	Associate Professor	Chemical analysis of bio-related substances and nanobiotechnology development
Advanced Lecture on Biological Data Science	Takashi Ishiuchi	Associate Professor	Study on molecular mechanisms that define differentiation and developmental potential of mammalian cells
Advanced Lecture on Gamete Cell Technology	Sayaka Wakayama	Associate Professor	Study on mammalian reproduction and gene conservation in space

University of Yamanashi, Kofu Campus Location Map

甲府駅下車、北口から徒歩約 15 分

甲府駅下車、北口からバス(「武田神社」又は「積翠寺」行き)で約5分「山梨大学」下車

Take the JR train to Kofu Station and follow the signs to the North Exit.

The campus is about a 15 minutes walk from Kofu Station.

Take the JR train to Kofu Station. From the bus terminal at the North Exit, take a bus at platform 2 bound either for "Takeda-jinja Shrine," or "Sekisuiji Temple". After about 5 minutes, get off at the University of Yamanashi Bus Stop.

構内には駐車場がありませんので、電車、バス等の公共交通機関を利用してください。

As there is no parking area available on the campus property, please use public transportation.
